### A-13. Company history

Rapid Power Management was founded in June of 2002 by Brad Keating and James 'JD' Dodson. The pair brought together business experience and a knowledge of the Texas 'deregulated' market to form a company aimed first at reducing energy prices customers paid, and then helping to reduce consumption by implementing cost reduction measures. The cost savings services began with Energy Procurement and Power Factor Correction, but have grown to include what is best for our clients and makes sense for business. Our goal is to be a leader in whatever field we endeavor to serve while growing our core business and exceeding our customer's expectations.

In late 2012, JD Dodson became the sole owner of Rapid Power Management.  
Rapid Power Management, LLC provides these offerings:

- i. Commodity Consulting Services to broker energy agreements for commercial and industrial consumers.
- ii. Providing engineering services, such as conducting Predominant Use Studies to obtain Sales Tax Exemption.

iii. LED upgrade consultation.

NOTE A – SELECTED INFORMATION ON NATURE OF OPERATIONS

Effective on January 1, 2019, Rapid Power Management, LLC (RPM) elected to transfer the operations of one segment of its business to a separate legal entity. This was accounted for as a reorganization of interests under common control. The operations of these two entities remained somewhat integrated throughout 2019 and most of 2020, with shared costs being allocated based upon square footage, employees, and various other cost drivers identified by management. This affiliated entity was sold during the fourth quarter of 2020. As a result of the agreement to sale the affiliate, the member of RPM entered into an agreement with RPM and certain key employees whereby proceeds from the sale of the affiliate, also owned by the member, would be paid to RPM as management fees and in turn paid out to employees as bonus compensation. Management fees paid to RPM by the member totaled approximately \$91,000 for the year ended December 31, 2021. No management fees were paid to RPM for the year ended December 31, 2020.

List of Assumptions: Rapid Power is located in Carrollton, Texas. Our focus is on selling our services in Texas. Periodically, our business cross-sells to an industrial client that has several locations across the nation. Some of which falls in Ohio. This is a forecasted representation of revenue from our natural gas brokering.

We receive commissions directly from the retailers as we are a broker. We do not have a presence in Ohio, thereby, no expenses related to our Ohio income.
