

Exhibit B-2 – Experience & Plans

Our Gasearch Owner and President currently obtains 32 years in the energy sector furthermore focused on Ohio and the Dominion East Ohio local sector. Our experience with Dominion is and will continue to be invaluable to the continued successful operation of Gasearch which has been in operation for 23 years.

Gasearch has established business relationships with multiple marketers and independent natural gas producers on the DEO System to assure liquidity, availability and most importantly, reliability for service.

In 2019, Gasearch became certified to broker electricity throughout the State of Ohio. We will not take possession of the electricity, nor will we invoice any customers. This will all be done by the utility. It is our intention to eventually transition all future contracts over to Energy Maxx and plan for continued growth of our established customer base under Energy Maxx.

Gasearch has a toll-free number for customer use and direct lines for key personnel. All contracts adhere to both industry standards as well as PUCO standards.
