Project Name:	Willowbrook Solar
Enter your Comment or Complaint:	Substation lighting remains on 24/7. I live on Wildcat Rd and can see it from our living room and bedroom every night. Talked to project contractor staff and was told it was an FAA regulation. I find this absurd as there is not such regulation for that substation, and also that I was blatantly lied to.

This is to certify that the images appearing are accurate and complete reproduction of a case file document delivered in the regular course of business.
