Technologies to Update Tariff)	

**REVIEW AND RECOMMENDATION
SUBMITTED ON BEHALF OF THE STAFF OF
THE PUBLIC UTILITIES COMMISSION OF OHIO**

On May 22, 2023, Global Tel*Link Corporation d/b/a ViaPath Technologies (ViaPath or Applicant) filed an application seeking to amend its inmate operator services tariff. In this filing, the Applicant is amending its tariff to include new headers and text to reflect the Applicant's DBA name change to ViaPath approved in Case No. 22-0652-TP-CIO and to update the company's address in the footers. The company further seeks to update definitions, update certain terms and conditions, remove outdated provisions and add calling options.

The filing of an ATA application for Inmate Operator Service is subject to a 30-day automatic approval process. Customer notice is not required with the application as IOS providers must provide at the beginning of the call, before the billed party incurs any charges, immediate and full rate disclosures that quote the actual intrastate price lists rates for all components of the call.

Staff has reviewed the application and recommends the application be approved. Therefore, Staff recommends that the application be automatically approved on May 21, 2022, with an effective date of June 22, 2022.
