Re: Securus Technologies, LLC (90-5787-CT-TRF)
Proposed Tariff Revisions

Dear Sir or Madam:

Enclosed please find proposed tariff revisions to Securus Technologies, LLC's ("Securus") Public Utilities Commission of Ohio Tariff No. 1. Securus has also enclosed the Telecommunications Filing Form. No rates or fees were impacted by these proposed changes. Sheets affected by this filing include the following:

- Fourth Revised Sheet No. 1 updating the Title Page.
- Tenth Revised Sheet No. 2 updating the Check Sheet.
- Fifth Revised Sheet No. 3 updating the Table of Contents.
- First Revised Sheet No. 15 removing outdated Determination of Mileage Language.
- Third Revised Sheet No. 16 removing outdated Distance Between Stations Language.
- Third Revised Sheet No. 19 updating the AdvanceConnect Refund Language.

The requested effective date is **August 31, 2023**.

Securus sincerely appreciates your attention to this matter. Should you have any questions regarding this filing, please contact the undersigned at (972) 277-0395 or by email at debbie.conde@securustechnologies.com. You may also contact Michael S. J. Lozich, Associate General Counsel, Regulatory Affairs at (972) 277-0565 or by email at michael.lozich@securustechnologies.com.

Sincerely,

/s/

Debbie Conde

INMATE OPERATOR SERVICES TARIFF

SECTION 3: DESCRIPTION OF SERVICE (Continued)

3.3 Determination of Mileage

Charges for each call are computed on an airline mileage basis as described below.

- (A) Calling distance is measured from the rate center of the subscriber's or company's terminal or switch location to the rate center of the destination of the call, regardless of company routing.
- (B) The rate centers of a call are determined by the NPA's, or area codes, and exchanges of the origination and destination points, as listed in AT&T FCC Tariff No. 10.
- (C) The distance between the rate center of the subscriber's switch and that of the destination point is calculated by using the "V" and "H" coordinates in the following manner:

Step 1: Obtain the "V" and "H" coordinates for the rate centers of subscriber's switch and the destination point.

Step 2: Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3: Square the difference obtained in Step 2.

Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5: Divide the sum of the squares obtained in Step 4 by ten (10). If any fraction results, round to the next higher whole number.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the rate centers.

The formula for calculating the distance between the rate centers is:

$$\sqrt{\frac{(V_1 V_2)^2 + (H_1 H_2)^2}{10}}$$

where (V1,H1) are the coordinates for the originating rate center and (V2, H2) are the coordinates for the terminating rate center.

Issued: November 8, 2010

Effective: November 9, 2010

14651 Dallas Parkway, Suite 600
Dallas, Texas 75254

PUCO NO 1
INMATE OPERATOR SERVICES TARIFF

SECTION 3: DESCRIPTION OF SERVICE (Continued)

- 3.4 Rate Elements
The charge for automated operator assisted telephone service is based on the duration of the call times the rate per minute which is applied to each minute, with fractional minutes rounded up to the nearest full minute. (T)
(T)
(T)
(D)
- 3.5 Distance Between Stations
The rates set forth are mileage sensitive and based on the actual airline distance between the rate centers associated with the originating and terminating points of the call.

Carrier uses the AT&T Distance Calculation (V&H cross section).
- 3.6 Branding
On station-to-station collect calls, Carrier clearly identifies itself to the called station. The called station is then given the opportunity to refuse the collect charges for any reason before any charge is incurred.
- 3.7 Splashing
There will be no splashing of calls and no cross dialing.
- 3.8 Rate Quotation
Securus Technologies, Inc. will provide an option for a rate quotation to the end user prior to the acceptance of any call. (T)

SECTION 3: DESCRIPTION OF SERVICE (Continued)

3.11 Prepaid Calling Cards and Debit Accounts (Continued)

3.11.2 Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate's commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company's system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.

3.12 AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User's local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with an initial payment. The Account is set up with the initial payment and may be replenished by payment in any amount chosen by the End User.

(D)

When the balance in an AdvanceConnect Account reaches ten dollars (\$10) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User's balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made unless the balance is either fully depleted or a refund has been requested. No refunds of unused balances will be issued after the expiration date.

(T)

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

☒ I attest that these tariffs comply with all applicable rules for the State of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the State of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the State of Ohio.

☐ I attest that customer notices accompanying this filing form were sent to affected customers, as specified in Section II, in accordance with Ohio Adm. Code 4901:1-6-7.

I declare under penalty of perjury that the foregoing is true and correct.
