SERVICE REQUIREMENTS FORM

The provider affirms that it is in compliance with Commission directives concerning the following checked items, and that this represents an up-to-date listing of applicable "generic" service requirements. The provider understands that this in no way supersedes the context of the applicable Commission orders described below.

A. MANDATORY REQUIREMENTS FOR ALL CTS PROVIDERS:

☒ 1. SALES TAX

Applicable to all competitive telecommunication service providers (See also Case No. 87-1010-TP-UNC)

Certain telecommunication services, as defined in the Ohio Revised Code, are subject to state sales tax at the prevailing tax rates, if the services originate, or terminate in Ohio, or both, and are charged to a subscriber's telephone number or account in Ohio.

☒ 2. DEPOSITS

If a deposit is requested, it may not exceed the estimated charges for two months tariffed services plus 30 percent of the monthly estimated charge for a specified customer. Deposits held for less than 180 days shall not accrue interest. Interest on intrastate deposits held for 180 days shall not accrue interest. Interest on intrastate deposits held for 180 days or longer will be handled in accordance with Rule 4901:1-17-05 of the Ohio Administrative Code,

B. REQUIREMENTS FOR PROVIDERS OF CERTAIN CTSs OR WHERE CERTAIN CONDITIONS OF SERVICE ARE UTILIZED (check all applicable):

☐ 1. DISCOUNTS FOR PERSONS WITH COMMUNICATION DISABILITIES AND THE TELECOMMUNICATION RELAY SERVICE

Applicable to all competitive telecommunication service providers offering message toll service (MTS) (See also Case No. 87-206-TP-COI and 91-113-TP-COI):

- a. For purposes of these requirements, the definition of disabled refers to those persons with communication disabilities including those hearing disabled, deaf, deaf/blind and speech disabled persons who have a disability that prevents them from communicating over the telephone without the aid of a telecommunications device for the communicatively disabled.

- b. Residential disabled customers or disabled members of a customer household, upon written application and upon certification of their disabled status, which is evidenced by either a certificate from an accredited educational institution for the disabled, are eligible to receive a discount off their MTS rates, and, if they utilize telebraille devices, they are eligible to receive free access to local and intrastate long distance directory assistance. Additionally, TDD lines maintained by non-profit organizations and governmental agencies, upon written application and verification that such lines are maintained for the benefit of the disabled are eligible to receive a discount off their MTS rates.
- c. Upon receipt of the appropriate application, and certification or verification by a person with a communication disability, one of the following discounts shall be made available for the benefit of the disabled person:
 - i. Off the basic MTS, current, price list day rates: a 40 percent discount off the intrastate, interexchange, customer-dialed, station-to-station calls occurring between 8:00 a.m. and 4:59 p.m. Monday through Friday; 60 percent discount off the intrastate, interexchange, customer-dialed, station-to-station calls occurring between 5:00 p.m. and 10:59 p.m. Sunday through Friday, and New Year's Day, Independence Day, Labor Day, Thanksgiving, and Christmas; and a 70 percent discount off the intrastate, interexchange, customer-dialed, station-to-station calls occurring between 11:00 p.m. and 7:59 a.m. any day, 8:00 a.m. and 4:59 p.m. Sunday, and all day Saturday; or
 - ii. Off the basic MTS, current, price list day rates: no less than a straight 70 percent discount shall be made available on a 24-hour a day basis; or
 - iii. For MTS offered pursuant to the mileage-banded rate structure established in the Commission's April 9, 1985 Opinion and Order in Case No. 84-944-TP-COI, with the traditional day, evening, and night/weekend discounts: the "evening" discount off the intrastate, interexchange, customer-dialed, station-to-station calls placed during the "evening" period Sunday through Friday, and on New Year's Day, Independent Day, Labor Day, Thanksgiving, and Christmas. Furthermore, the "night/weekend" discount plus an additional discount equivalent to no less than ten percent of the Company's current, price list, "day" rates for basic MTS shall be made available for intrastate, interexchange, customer-dialed, station-to-station calls placed during the "night/weekend" period any day, the "day" period Sunday, and all day Saturday.

- d. All MTS calls placed through the telecommunication relay service (TRS) are eligible to receive a discount off the MTS rates. The rate discounts are the same as those set forth in paragraph 1.c. preceding. The discount shall not apply to sponsor charges associated with calls placed to pay-per-call services, such as 900, 976, or 900-like calls.

☐ 2. EMERGENCY SERVICES CALLING PLAN

Applicable to all competitive telecommunication service providers offering MTS (See also Case Nos. 85-1466-TP-COI and 89-54-TP-COI):

Message toll telephone calls, to governmental emergency service agencies as set forth in (a) following, having primary or principal responsibility with respect to the provision of emergency services to persons and property in the area from which the call is made, meeting the definition and criteria of an emergency call as set forth in (b) following, are offered at no charge to customers:

- a. Governmental fire fighting, Ohio State Highway Patrol, police, and emergency squad service (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) 24-hour basis, 365 days a year, including holidays.
- b. An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life, property, or both, and necessitate that prompt action be taken. An emergency call is an originated call of short duration to a governmental emergency service agency in order to seek assistance for such an emergency.

☐ 3. ALTERNATIVE OPERATOR SERVICES

The following applies to the provision of alternative operator services (AOS) (see also Case No. 88-560-TP-COI):

Preceding the maximum operator-assisted surcharges set forth in the text of the proposed tariff, as well as preceding the operator-assisted surcharges set forth in the price list attached to proposed tariff, the CTS provider must insert a statement which specifies whether the rates as set forth apply to the provider's provision of traditional operator services, AOS, or both.

a. Definitions

- i. AOS are those services provided by the provider in which the customer and the end user are totally separate entities. The provider contracts with the customer to provide the AOS; however, the provider does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator-assisted calls.
- ii. Traditional operator services are those services provided by the provider in which the end user has a customer relationship with the provider, the provider contracts with the customer/end user to provide the services, and the customer/end user pays for the actual processing of the operator-assisted calls.

b. AOS Service Parameters

- i. For local operator-assisted calls, the AOS provider shall not charge the billed party more than the local exchange company (LEC price list rates for a local operator-assisted call in the same exchange. This requirement includes both the rates for MTS and operator surcharges.
- ii. For intraLATA, intrastate calls, the AOS providers serving secured facilities shall not charge the billed party more than the LEC price list rates for an intraLATA, intrastate call. This requirement includes both the rates for MTS and operator surcharges. This requirement is only applicable in those situations where the billed party does not have access to other operator service providers (OSPs) for the call from the secured facility.
- iii. For intraLATA and interLATA, intrastate calls, each AOS provider must apply one of the following MTS price ceilings to the MTS provided in conjunction with AOS (see also Case No. 89-563-TP-COI):

Mileage Band	Initial <u>Minute</u>	Each Additional <u>Minute</u>
1-10	.32	.16
11-22	.40	.22
23-55	.48	.28
56-124	.57	.37
125 - end	.58	.39

or;

\$.36 per minute of use

This rule does not apply to the provision of intraLATA, intrastate calls from secured inmate facilities where there is no access to other OSPs; the rates for those types of calls are addressed in 3.B.i. and ii., above.

iv. For intraLATA and interLATA, intrastate calls, each AOS provider's maximum interexchange operator-assisted rates shall be no more than:

- i. \$1.70 for customer-dialed calling card calls;
- ii. \$2.50 for operator-handled calls; and
- iii. \$4.80 for person-to-person calls.

This rule does not apply to the provision of intraLATA, intrastate calls from secured inmate facilities where there is no access to other OSPs; the rates for those types of calls are addressed in 3.B.1, above.

v. Notice of any change in the rates stated in 3.B.i. through iv., whether it be upward or downward, must be filed by the OSP with the Commission in the form of a new price list, on or before the effective date in accordance with Commission-established filing rules.

4. LIMITATION OF LIABILITY

The following is applicable to all competitive telecommunication providers that choose to include in their tariffs language which may limit their liability (See also Case No. 85-1406-AU-COI):

Approval of limitation of liability language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

5. TERMINATION LIABILITY

The following is applicable to all competitive telecommunication providers that choose to include in their tariffs language which may limit their liability for early termination of a contract or term payment plan:

Commission authorization of the termination liability language pursuant to the 0-day notice procedure is not intended to indicate that the Commission has approved or sanctioned any terms or provisions contained therein. Signatories to such contracts shall be free to pursue whatever legal remedies they may have should a dispute arise.

TARIFF FORMAT

A. Page Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES

3.1 General

PTT offers prepaid telecommunications services for originating and terminating calls within the State of Ohio under terms of this tariff. Customers are charged based on their use of PTT's network and services. Charges may vary by service offering, class of call, time of day, day of week, and/or call duration.

3.2 Timing of Calls

Billing for calls placed over the PTT network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

- 3.2.1 Call timing begins when the called party answers the call (i.e., when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.2.2 Chargeable time for calls ends when one of the parties disconnects from the call.
- 3.2.3 Minimum call duration periods for billing purposes vary by service option.
- 3.2.4 For billing purposes, usage after the initial period varies by service and is specified by service in this tariff.
- 3.2.5 The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, PTT will reasonably issue credit for the call.

SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)

3.3 Debit Services

PTT's Debit Services are offered for Customer use 24 hours a day, seven days a week to all valid terminating locations. Intrastate service is offered in conjunction with interstate service.

Access to PTT's Debit Services is via a toll-free number. The Customer must input a valid Account Code in addition to the destination number with area code.

Purchase of a Debit Card or establishment of a Debit Account entitles the Customer to access the Carrier's network for a preset amount of usage. Usage will be deducted from the Customer's Available Balance on a real-time basis. Customers will be interrupted with an announcement when the Available Balance in the account is about to be exhausted.

Balances in Debit Accounts are non-refundable and will expire on the date specified on the Debit Card or package in which the card is enclosed, or one year after date of issuance. In the case of service provided without a Debit Card, expiration occurs within one year from the date of account establishment or last renewal unless otherwise specified in writing by the Carrier.

For Customer accounts provided with a renewal option, Customers may renew or increase the available usage balance within an account by making additional payments to the Company or the Company's authorized agents.

4.3 Sponsorship Contracts

At the option of the Company, services may be offered on a contract basis to meet the specialized requirements of the Sponsors of Debit Services which are not contemplated in this tariff. EXHIBIT D

Description of Service

PTT TELEKOM, INC.
DESCRIPTION OF SERVICE

PTT Telekom, Inc., with this application, proposes to provide prepaid, intrastate long distance service in conjunction with its interstate service offerings.

Customers establish an account with the Company consisting of an account code and an associated initial balance of available usage on the Company's network. Most often, account establishment is done by purchase of a debit card through a retail outlet or other distribution channel. In addition to an account code and dialing instructions, each card contains a toll free number (1-800-839-9916) for PTT's Customer Service department. The customer service department is staffed by trained personnel and is open twenty-four hours per day, seven days a week.

Customers can use the service by dialing the Company's toll-free (e.g., 800, 888) access number and entering their account code. The customer is informed of the available balance remaining in the account each time the customer uses the service. Customers can place calls to any destination telephone number(s) and use the service until the available balance in the account is fully depleted.

Depletion or "debiting" occurs on a real time basis as each call takes place. PTT times the duration of each customer call and deducts the tariffed per minute rate for each minute connected from the available balance. The available balance is maintained until the customer's usage depletes the balance to zero. For calls in progress, the customer is notified when one minute of usage remains to the particular destination.

Unlike traditional business or residential long distance services, PTT's prepaid service is not associated with any customer-provided access line, telephone number, or physical billing address. Customers do not need to be presubscribed to PTT as their long distance carrier in order to use the service.
