The Commission finds:

- (1) The Applicant, The Dayton Power and Light Company (DP&L), is a public utility as defined in Section 4905.02, Revised Code, and, as such, is subject to the jurisdiction of this Commission.
- (2) On June 8, 2005, in Case 04-1395-EL-ATA, the Commission ordered that prior to October 1, 2005, DP&L must submit to the Commission an application for tariff approval, which provides that, subsequent to the Market Development Period (MDP), which ends on December 31, 2005, transmission and ancillary service charges should be avoidable for customers who are served by an alternative generation supplier (AGS).
- (3) On September 30, 2005, DP&L, in Case No. 05-1219-EL-ATA, filed an ATA application proposing to modify language in its tariffs to denote that, after December 31, 2005, transmission and ancillary service charges will be avoidable for customers who are served by an AGS.
- (4) The application has been filed pursuant to Section 4909.18, Revised Code, and the Commission finds, as the applicant alleges, that it does not result in an increase in any rate, joint rate, toll, classification, charge or rental, and does not appear to be unjust or unreasonable and should be approved. Therefore, the Commission finds it unnecessary to hold a hearing in this matter.

It is, therefore,

ORDERED, That the application of DP&L is approved. It is, further,
