6. Application of Rates

(A) Long Distance Message Telecommunications Service (LDMTS)

Long Distance Message Telecommunications Service (LDMTS) is offered on a Direct Distance Dialed basis or an Operator Assisted basis. The rates are specified in Sections 7 and 9 following.

The measured usage rates for Intrastate LDMTS will depend on the time periods in which the call occurs. The rates are charged in increments of an initial rate period and additional minute rate period. The initial rate period is for connections of one minute or any fraction thereof. Each additional minute is billed on a per minute of use or any fraction thereof that the connection continues beyond the initial rate period. If a call is initiated in one rate period, and continues into another rate period, the per minute charges will change accordingly for any full minutes occurring in the next rate period. The rate schedules in Sections 7(A) and 7(B) following are time-of-day sensitive. The rates are divided among day, evening, and night rate periods. Volume discounts may apply depending on usage.

The unit of measure used for timing of messages is one minute increments.

Fractional rates will be rounded to the nearest penny using the conventional rounding method.

Optional toll calling plans may be available.

(N)

INTRASTATE LONG DISTANCE SERVICES TARIFF

6. Application of Rates (Continued)

(B) Promotional Rates

The Company, may offer discounted promotional rates for one or more of its services to increase subscriber awareness and/or customer subscribership of these services. Promotions are limited to (1) reductions in the monthly recurring charges and/or non-recurring charges for these services or, (2) waiver of monthly recurring charges and/or non-recurring charges for these services.

The discounted measured usage rates would be no lower than the LDMTS Night Rate that would be in effect at that time.

(T)

(C) Long Term Service Contract

Customers entering into a 12-month, a 24-month, or longer service contract will have rate and charge options available to them for some or all of the services to which they subscribe. The rates and charges will be determined on an individual customer contract basis and subject to review by the Public Utilities Commission of Ohio.

(D) Rates Applicable for Hearing and Speech Impaired Persons

- (1) For purposes of these requirements, the definition of disabled refers to those persons with communication disabilities, including those hearing disabled, deaf, deaf/blind, and speech disabled persons who have a disability that prevents them from communicating over the telephone without the aid of a telecommunications device for the communicatively disabled.
- (2) Residential disabled customers or disabled members of a customer's household, upon written application and upon certification of their disabled status, which is evidenced by either a certificate from a physician, health care official, state agency, or a diploma from an accredited educational institution for the disabled, are eligible to receive a discount off their MTS rates, and if they utilize telebraille devices, they are eligible to receive free access to local and intrastate long distance directory assistance. Additionally TDD lines maintained

10. Optional Toll Calling Plan

(N)

A. Description

This plan allows customers in the McClure Exchange, as well as customers in the expanded service areas set forth in Section 12, Sheet No. 1 of this Tariff, to make an unlimited number of calls to the following exchanges for a monthly charge:

<u>Exchange Name</u>	<u>(NPA) NXX*</u>
Bowling Green	(419) 214, 308, 352, 353, 354, 372, 373, 409, 494, 575, 601
Grand Rapids	(419) 830, 832
Napoleon	(419) 579, 591, 592, 599, 966
Weston	(419) 669
Hamler	(419) 274

(N)

* (NPA) NXX refers to numbers consisting of the area code and the first 3 digits of the telephone number.
