Re: Case No. 93-487-TP-ALT
Case No. 90-5032-TP-TRF

Dear Ms. Crockron:

Three copies of each of the following sheets of the Ameritech Tariff P.U.C.O. No. 20, issued by The Ohio Bell Telephone Company, are attached for filing in compliance with the requirements of the law relating to Public Utilities.

<u>Part</u>	<u>Section</u>	<u>New Revision No.</u>	<u>Cancelled Revision No.</u>	<u>Sheet No.</u>
15	03	2nd	1st	24
		Original	--	24.1
		4th	3rd	28
		2nd	1st	35
		4th	3rd	41

These sheets are effective September 15, 2000, and are issued in accordance with Case No. 93-487-TP-ALT.

Acknowledgment and date of receipt of this filing are requested. A duplicate transmittal letter is attached for this purpose.

Very truly yours,

Michael R. Schaedler /LM

3. AMERITECH DS1 SERVICE (cont'd)

D. FEATURES

1. Optional Features

Ameritech Network Reconfiguration Service

Ameritech DS1 Service is available for use with Ameritech Network Reconfiguration Service.

Central Office Multiplexing and Cross Connect Services

These optional services are available with Ameritech DS1 Service. Refer to Central Office Multiplexing and Cross Connect Services later in this Section.

Clear Channel Capability

Is an arrangement which allows a customer to transport 1.536 Mbps of information on an Ameritech DS1 Service with no constraint on the quantity or sequence of one and zero bits. Clear Channel Capability is a required option when Ameritech 64 Kbps channels are multiplexed onto Ameritech DS1 Service. Clear Channel Capability is only provided on non-channelized circuits between two customer premises where facilities permit.

Extended Super Frame

Is available as a non-chargeable, customer specified option.

Shared Network Arrangement

Ameritech DS1 Service is available under a Shared Network Arrangement.

3. AMERITECH DS1 SERVICE (cont'd)

D. FEATURES (cont'd)

1. Optional Features (cont'd)

Special Facility Routing - Local Distribution Channel (LDC) Diversity

Special Facility Routing - LDC Diversity provides a transmission path for services between the customers designated premises (exclusive of the entrance facility) and the serving wire center that is diverse from the normal transmission path. With this arrangement, one or more services will be provisioned over the normal route and one or more services will be provisioned over the diverse route. Special Facility Routing must be ordered at the same time as the Ameritech DS1 Service is ordered. There are both nonrecurring and monthly charges associated with Special Facility Routing and they are in addition to the normal Ameritech DS1 Service charges. The transmission specifications and credit allowances for service interruption of services provided via a special facility routing arrangement are the same as for services using normal routing. The minimum service period for an Ameritech DS1 Service ordered with Special Facility Routing is 12 months. Termination Charges will apply to service terminated prior to the contracted period. The termination charge for Special Facility Routing will be calculated as described in Term Payment Plans - Termination Charges in Part 15, Section 1.
