TARIFF FORMAT

Sheet Numbering - Sheet numbers appear in the upper right hand corner of the page. Sheets are numbered sequentially and from time to time new pages may be added to the Tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Sheets 3 and 4 would be numbered 3.1.

Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.  
2.1.  
2.1.1.  
2.1.1.A.  
2.1.1.A.1.  
2.1.1.A.1.(a).  
2.1.1.A.1.(a).I.  
2.1.1.A.1.(a).I.(i).  
2.1.1.A.1.(a).I.(i).(1).

Check Sheets - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision, all revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it. The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

Each of the provisions shall remain at all time in full force and effect until modified in writing.
- 2.3.7. The Company shall not be liable to the Customer or any other person, firm or entity in any respect whatsoever as a result of mistakes, accidents, errors, omissions, interruptions, delays, or defects in Service (collectively "Defects"). Company as a result thereof, including penalties incurred by the Company as a result thereof, including costs of Local Access Providers' labor and materials. In addition, all or a portion of the Service may be provided over facilities of third parties, or sold by third parties, and the Company shall not be liable to Customer or any other person, firm or entity in any respect whatsoever arising out of Defects caused by such third parties. 2.11. Method for Calculation of Airline Mileage

- 2.11.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Tariff F.C.C. No. 10 in accordance with the following formula:

$$\text{the square root of: } \frac{(V1-V2)^2 + (H1-H2)^2}{10}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

$$\text{the square root of: } \frac{(5004-5987)^2 + (1406-3424)^2}{10}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

2.12. Time of Day Rate Periods

- 2.12.1. Time of Day Rate Periods are determined by the time of day at the location of the Calling Station.

□ 3. ALTERNATIVE OPERATOR SERVICES

The following applies to the provision of alternative operator services (AOS) (see also Case No. 88-560-TP-COI):

Preceding the maximum operator-assisted surcharges set forth in the text of the proposed tariff, as well as preceding the operator-assisted surcharges set forth in the price list attached to the proposed tariff, the CTS provider must insert a statement which specifies whether the rates as set forth apply to the provider's provision of traditional operator services, AOS, or both.

a. Definitions

- i. AOS are those services provided by the provider in which the customer and the end user are totally separate entities. The provider contracts with the customer to provide the AOS; however, the provider does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator-assisted calls.
- ii. Traditional operator services are those services provided by the provider in which the end user has a customer relationship with the provider, the provider contracts with the customer/end user to provide the services, and the customer/end user pays for the actual processing of the operator-assisted calls.

b. AOS Service Parameters

- i. For local operator-assisted calls, the AOS provider shall not charge the billed party more than the local exchange company (LEC) price list rates for a local operator-assisted call in the same exchange. This requirement includes both the rates for MTS and operator surcharges.
- ii. For intraLATA, intrastate calls, the AOS providers serving secured facilities shall not charge the billed party more than the LEC price list rates for an intraLATA, intrastate call. This requirement includes both the rates for MTS and operator surcharges. This requirement is only applicable in those situations where the billed party does not have access to other operator service providers (OSPs) for the call from the secured facility.

- iv. For intraLATA and interLATA, intrastate calls, each AOS provider's maximum interexchange operator-assisted rates shall be no more than:
- i. \$1.70 for customer-dialed calling card calls;

■ 4. LIMITATION OF LIABILITY

The following is applicable to all competitive telecommunication providers that choose to include in their tariffs language which may limit their liability (See also Case No. 85-1406-AU-COI):

Approval of limitation of liability language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

■ 5. TERMINATION LIABILITY

The following is applicable to all competitive telecommunication providers that choose to include in their tariffs language which may limit their liability for early termination of a contract or term payment plan:

Commission authorization of the termination liability language pursuant to the 0-day notice procedure is not intended to indicate that the Commission has approved or sanctioned any terms or provisions contained therein. Signatories to such contracts shall be free to pursue whatever legal remedies they may have should a dispute arise.
