Facilities, Siting & Environmental
Analysis Division
Ohio Power Siting Board
180 East Broad Street
Columbus, OH 43215-3793

Letter of Notification
Tangy-Delaware 138 kV Transmission Line
Install New Structure Near the Delaware Substation
Start of Construction
Case No. 06-681-EL-BLN

Dear Mr. Lambeck,

This letter is in response to the Letter of Notification on the above referenced project filed on May 9, 2006. In accordance with Ohio Administrative Code § 4906-5-02(A)(5), please be advised that construction on this project is expected to begin on approximately September 18, 2006. We will notify you once the project has been completed.

Additionally, the OPSB staff report on the project indicated that wetland boundaries adjacent to the project area should be clearly marked. The boundaries of the wetlands were marked in mid August with lath, construction ribbon and signage that I believe clearly indicate boundaries of the wetland and will be effective in keeping FirstEnergy's crews outside of the wetlands. Although it should be noted that other non-FirstEnergy construction activities in the area of our project may require access and construction activities within the wetlands.

If you have any questions regarding this project, please contact me at (330) 761-4268.

Sincerely,

Ted Krauss
Senior Transmission Engineer
FirstEnergy Service Company
