Dear Miami Township Residents and Businesses,

Welcome to Miami Township's Electric Aggregation Program. In 2012, Miami Township voters authorized the Township Trustees to form a governmental aggregation program to negotiate a more favorable price and terms for electricity supply for Township residences and businesses. Miami Township Trustees were pleased with the original electric aggregation and have decided to enter into a new electric aggregation agreement with Duke Energy Retail, a competitive retail electric service provider and affiliate of Duke Energy Ohio.

Fixed Price Electricity Plan

- **Fixed Electricity Price** of 5.83¢/kWh through your May 2017 meter reading.
- Provides **security** against electricity price fluctuations.
- **One energy bill** from Duke Energy, your local utility.
- **Electricity price will never change** for the term of this offer.
- **Duke Energy** will continue to maintain the electric lines and respond to emergencies.

You do not need to do anything to participate. You will be automatically enrolled in the Miami Township Electric Aggregation Program. Both Miami Township and Duke Energy Retail are certified by the Public Utilities Commission of Ohio to provide this service. Participation in this program is voluntary. You may cancel the electric aggregation agreement at any time without paying a penalty.

To opt out of the program, either:

- Fill out the reply card below and return it to us by April 14, 2014, or

Your Electric Service Terms and Conditions (the “Terms and Conditions”)

When do I become a Duke Energy Retail Customer?

Once we receive your enrollment, we will send a notice to your electric utility. They will send you a letter to confirm that you want to be switched to Duke Energy Retail. After this confirmation, you will officially become our customer the next time your meter is read (with the exception if your meter is read within 12 days of your enrollment with us, in that case you become our customer the following month's meter read and this process could take up to two months.)

What is my price and how long does it last?

Your fixed price is 5.83¢/kWh through your May 2017 meter read date. You will still receive additional service and delivery charges from your electric utility. The actual fixed price has a price cap, meaning it won't ever be higher than what's stated, but we may choose to lower the price on your behalf. Additional charges may be incurred in the event the regional transmission organization (the group that is responsible for moving electricity over large interstate areas) or similar entity, utility, governmental entity or agency, reliability organization, or court imposes new or additional charges or changes to existing charges. We may pass this cost (which may be variable) on to you.

What happens with my electric utility?

Nothing will change with your utility. They will continue to read your meter, send your monthly bill, and respond to any outages. Our charges for the electricity will be included on your utility bill. If you are interested in budget billing, that service would have to be arranged through the utility, as we do not offer it directly. When you enroll with us, you are allowing your utility to give us any account information needed to provide you with service.

Are there any fees to enroll?

No, there's no fee from us. Ohio law allows your electric utility to charge a switching fee.

What if I want to cancel?

You can cancel the switch to Duke Energy Retail at no charge, as long as you cancel by phone or mail within seven calendar days of the postmark on the utility's confirmation notice. Simply follow the cancellation instructions on the utility's letter.

If you want to cancel after that time, here is what will happen.

Residential and Non-Residential customers:

- If you want to cancel or switch to another supplier, no early termination fee will be charged.
- If you want to cancel during a renewal term, no termination fee will be charged.
- If you move outside the area served by us or to an area where we charge a different price, you will not be charged a termination fee.
- If you return to the utility, you may be served at different rates and terms and conditions based on the utility's tariffs.

What happens at the end of this agreement?

- If the Community and an electric supplier agree on a new aggregation program, you will be sent another opt-out notification and you'll have the chance at that time to decide if you want to be a part of the new aggregation.
- If the Community has not entered into a new aggregation agreement with a supplier at the conclusion of this aggregation term as stated above, you will be sent back to Duke Energy, “the utility” who will supply your electric.

What happens if I don't pay my bill?

- We have the right to cancel this agreement after a 14-day written notice, if you don't pay your bill or if you don't meet any payment arrangements that you and we agree to.
- If you don't pay our charges, you may be returned to your utility's regulated rate. If you don't pay your utility company's charges, you may be disconnected under the terms of the utility's tariffs.
