3.1 Access Services (cont'd)

3.1.2 Standard Rate Categories (cont'd)

B) Tandem Transport

Tandem Transport is comprised of two rate elements. The two rate elements are as follows:

- (a) The Termination rate provides for that portion of the voice frequency transmission path at the end office and at the Customer's premises.
- (b) The Facility rate provides for that portion of the voice frequency transmission path between the end office and at the Customer's premises.

4) Interconnection Charge

The Interconnection Charge provides for interconnection with the Company's Switched Access network. This rate element will be applied to all switched access calls that originate or terminate at a Company end office.

5) Network Call Blocking

C) End Office – Local Switching

The End Office rate category provides the local end office switching and end user termination functions necessary to complete the transmission of switched access communications to and from the end users served by the Company's end office. The Local Switching rate element provides for:

- a) the use of end office switching equipment;
- b) the terminations for the end user common lines terminating in the local end office; and
- c) the termination of a call at a Company intercept operator or recording. The operator or recording tells a caller why a call, as dialed, could not be completed, and if possible, provides the correct number. Intercept rates are assessed to a Customer based on the total number of access minutes.

D) Dedicated End Office Trunk Port Service

The Dedicated End Office Trunk Port Service provides for termination of dedicated transport trunk facilities at the end office switch. This service is required with dedicated transport to an end office and is available on a dedicated DSO/VG trunk port basis and on a dedicated DS1 trunk port basis. These elements apply per each dedicated DSO/VG and each DS1 transport facility terminated at an end office.

3.1.3 Other Rate Categories

A) Toll Free Data Base Access Service

Toll Free Data Base Access Service is a service offering utilizing originating trunk-side Switched Access Service. The service provides for the forwarding of end user dialed Toll Free calls to a Company Service Switching Point which will initiate a query to the data base to perform the Customer identification and delivery function. The call is forwarded to the appropriate Customer based on the dialed Toll Free number. Toll Free Data Base Access Service is comprised of the following elements:

- 1) 800 Query Simple
- 2) 800 Query Complex

3) Call Handling and Destination Feature Charge

The Toll Free Call Handling and Destination Features Package, available only with the Toll Free Data Base Access Service, provides feature functionality in addition to basic query. The feature package may include various destination options such as carrier selection, time-of-day routing, day-of-week routing, specific date routing, geographic routing, routing based on percent of allocation, and emergency routing profiles.

A Call Handling and Destination Feature Charge is assessed on a per-query basis, in addition to the Customer Identification Charge and the POTS Translation Charge as set forth in Section 3.1 of Section 5.

B) Transit Traffic Service

Transit Traffic Service is an access service in which the Company transits traffic originated by a third party who is not an End User or other user of the Company's local exchange or exchange access service through its wire center to a Customer.

This service provides an interexchange carrier (IXC) that TelCove has network connectivity to, the ability to receive intraLATA or interLATA, intrastate 8YY traffic via a TelCove switch transited from other local exchange carriers (LEC), competitive local exchange carriers (CLEC) or commercial mobile radio service (CMRS).

The LEC, CLEC or CMRS provider will connect to the TelCove central office and send intraLATA and interLATA traffic to TelCove for termination to the IXC. This is accomplished via facilities provided by the LEC, CLEC or CMRS carriers or via facilities that TelCove would provide via private line offerings under Section 5, PUCO Tariff No. 3.
