XXI. NON-ADDRESS TELEPHONE SERVICE

Upon request, a subscriber may have the address omitted from his listing as it appears in the directory or on information records subject to the provisions set forth below.

- A. The acceptance by the Telephone Company of the subscriber's request to omit the address from the listing of his telephone number from the directory and information records establishes no relationship or obligation, direct or indirect, between the Telephone Company and any person other than the subscriber.
- B. In the absence of gross negligence or willful misconduct, no liability for damages arising from the publishing of the address of a non-address listing in the directory shall be attached to the Telephone Company and when such an address is published in the directory or information records, the Telephone Company's liability shall consist of and be limited to a refund of the monthly charge assessed for non-address service until the issuance of the new directory containing the proper listing.

Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

4. If a subscriber or a member of the subscriber's household demonstrates that disconnection of service would be especially dangerous to the customer's health, the Telephone Company must consider the circumstances when offering extended payment arrangements to avoid disconnection. Payment arrangements shall be offered regardless of the credit class of the subscriber.
5. Residential customers whose telephone services have been temporarily denied for nonpayment will continue to have access to 9-1-1 Service (outgoing service only) for 14 days.
6. Disconnection of a customer's service shall be made in accordance with **Rules 4901:1-5** and the Minimum Telephone Service Standards. (T)

CUSTOM CALLING SERVICE

I. GENERAL DESCRIPTION

A. Call Forward Features

Call Forward Features permit the forwarding of incoming calls under a variety of conditions to another telephone number either by dialing an activation code or via pre-programming by the Company. Calls may be forwarded to any number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. The customer subscribing to this service is responsible for applicable usage charges. Only one call forwarding arrangement, consisting of a single calling path, will be provided per exchange service line for which the customer subscribes to this feature, unless the business customer is also subscribed to the Call Forward Additional Paths feature, in which instance one call path per Call Forward Additional Path feature subscribed to will be provided.

Call Forward Features shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of usage charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred. If the Company determines that Call Forward Features are being used in manner not consistent with the intent of the service or in any other way violates the restrictions of the service, the **residential** Subscriber will be determined ineligible for the service and the service will be removed from the **residential** Customer's account.

(C)  
(C)

1. Call Forwarding

This feature permits the manual forwarding of incoming calls to another telephone number. When activated, all calls will forward; calls cannot be answered from a line with Call Forwarding activated. Call Forwarding overrides Call Forward No Answer and Call Forward Busy, but those features resume functionality when Call Forwarding is deactivated.

- a. Call Forwarding (FCF1FLC) - Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.
- b. Call Forward Fixed (FCF1FLC FIX) - Provides a customer the capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.

G. SignalRing Plus

SignalRing Plus - This arrangement enables an individual line customer to identify an incoming call by having up to three (3) additional directory numbers (Secondary Directory Number) assigned to their main access line (Primary Directory Number). Each Secondary Directory Number is assigned a distinctive ring in order to determine which number or person is being called. SignalRing Plus is associated with incoming calls only and does not provide a separate dial tone line to place outgoing calls.

**Each** Secondary Directory Number is entitled to one directory listing. Should the customer not desire the listing be published, the Telephone Company, in its directory listing process, shall designate the Secondary Directory Number as a No Charge Non-Pub. The customer would not be charged the Non-Pub recurring monthly charge as shown in Section 4. Non-List Service is not available for Secondary Directory Numbers.

(C)

Any Custom Calling Features assigned to the Primary Directory Number will also work with the Secondary Directory Numbers, i.e., Enhanced Call Waiting, Call Forwarding, Call Forwarding Busy, Call Forwarding No Answer.

H. Subscriber Activated Call Block

Subscriber Activated Call Block restricts access to certain types of outgoing calls, such as direct-dialed toll calls. Other types of calls, such as local, calls to 9-1-1, or calls to the operator can still be originated from the line. The subscriber dials an access code to activate the feature. While Subscriber Activated Call Block is in effect, the individual subscriber can override the restrictions by dialing a personal identification number (issued by the Telephone Company) before placing a call. Another code is used to deactivate Subscriber Activated Call Block.

CALL BLOCKING AND SCREENING SERVICES

V. SELECTIVE CALL SCREENING SERVICE (ORIGINATING LINE SCREENING)

Selective Call Screening service or Originating Line Screening (OLS) is a two-digit code passed by the Telephone Company's local central office switch with the Automatic Number Identification (ANI) at the beginning of a call that provides information about the line originating the call. The information provided in the two-digit code is designed to inform the exchange or interexchange and/or the operator service provider about certain service classes or special characteristics of the billing number associated with the line originating the call. Under this arrangement, operators accept only those originating toll calls that are made collect, billed to a third number, or billed to a calling card.

- A. Selective Call Screening is offered subject to the availability of suitable facilities and equipment.
- B. The minimum contract period for Selective Call Screening is one month.
- C. Customers subscribing to Selective Call Screening are responsible for all toll charges billed to their lines, which are not carried solely over the Telephone Company's facilities.
- D. This service is offered to individual **residence lines and** payphone lines. (C)
- E. If a call originates with the Company but is not carried solely over the Company's facilities, the Company will send, with the ANI, the two-digit code that identifies the call as being selectively screened. The Company assumes no liability for calls completed by any other entity or carrier, as long as the two-digit code accompanies the ANI forwarded to the other carrier. The Company is responsible for properly handling calls which are selectively screened and are not carried over any other carrier's network or facilities.

IX. TOLL AND CASUAL DIALING RESTRICTION

A. CONDITIONS

1. Where central office facilities permit, Toll and Casual Dialing Restriction prevents the completion of certain types of calls. Toll and Casual Dialing Restriction may be provided with individual line **residence services** in exchanges equipped to program Toll and Casual Dialing Restriction without alteration of the central office equipment. (C)
2. Toll and Casual Dialing Restriction Options 1 and 2 restrict access to 1+, 0+ 0-, and 00-, and restrict access to 01/011+ numbers outside of the North American Numbering Plan. 3. Restriction of access to operator services prevents the customer from dialing an operator for all purposes, including emergencies, assistance and the placing of toll calls. Operator Services will not be accessible from a line with Toll and Casual Dialing Restriction Option 1 or 2. The customer indemnifies and saves harmless the Company from any and all claims, losses, or damages caused by restriction of access to operator services.
4. Directory Assistance (411, 1411, 555-1212, 1-555-1212, or 1-NPA-555-1212) will not be accessible from a line with Toll and Casual Dialing Restriction Option 1 or 2.

6. Where facilities allow, N11 (except 411) will only be restricted with Option 1 and 2 if the call terminates outside the local calling area or to a non-toll-free number.
7. Toll and Casual Dialing Restriction does not restrict calls to 911 emergency reporting service or to 1+710 Government Emergency Telecommunications Service Calls.
8. Customers are responsible for calls charged to their number via third number billing, collect or credit card.

C. Application of Rates

1. ISDN-BRI II Service is offered on an unlimited use basis. All applicable state and federal charges will apply. Extended Area Service (EAS) charges, if applicable as defined in the Local Exchange Tariff, P.U.C.O. No. 6, apply per ISDN-BRI II B-Channel. Toll charges apply when circuit-switched data or voice calls are completed outside the customer's designated local calling area.
2. The monthly rates for Service Capability Packages are applied on a per package basis.
3. The ISDN-BRI II monthly rates are in addition to the applicable individual residence or individual business **line access** line rate. These rates vary by service area and can be found in Section B of the Company's P.U.C.O. No. 6 tariff, and Section 30 of this tariff. (C)
4. The Non-Recurring Charge for ISDN Service Capability Package installation will be discounted 50% when a customer commits to a 12-month service period or 100% when a customer commits to a 24-month service period. If termination of service prior to the end of the commitment occurs, the customer is responsible for payment of the discounted amount of the Non-Recurring Charge, which represents the installation charge initially waived.

However, this termination requirement will not apply when the customer converts to a next generation service offering of a separately tariffed service, provided that:

The service period for the new service offering is a minimum period equal to or exceeding the remaining service period of the disconnected arrangement, whichever is greater;

The service orders to install the new service and disconnect the old service are related together, and there is no lapse in service between installation of the new service and disconnection of the existing service; and

The service orders are for the same customer at the same location.
