Service offerings, rates, and conditions applicable to specific service offerings are set forth in other tariffs of TCG and are in addition to the general regulations contained herein. (T)
- Basic Local Exchange Service is furnished for the use of end-users in placing and receiving local telephone messages within a local calling area. Entities desiring access to the Company network for the purpose of originating or terminating other forms of communication may obtain such access pursuant to the Company's Access and Interconnection Tariff. (T)
- 1.2 When services and facilities are provided in part by TCG and in part by other companies, the regulations of TCG apply only to that portion of the service or facilities furnished by it.
- 1.3 When services and facilities provided by TCG are used to obtain access to the regulated or unregulated services provided by another company, or are used by another company as a part of the regulated or unregulated services offered by that company, the regulations of TCG apply only to the use of TCG's services and facilities.
- 1.4 TCG may offer various unregulated services in conjunction with or ancillary to its regulated services from time to time. The rates, terms, and conditions of unregulated services are described in the TCG Ohio Service Guide. Any unregulated services not described in the Service Guides will be governed by contract between TCG and the Customer. (T)

Such facilities include, but are not limited to, billing capability, technical capability and the ability of the Company to purchase underlying services, features and functions and/or unbundled network elements ("UNEs") (as that term is defined by applicable law), either alone or in combination (including a combination of unbundled switching with other UNEs). In the event that changes occur, including regulatory changes, that affect either the availability of facilities to the Company or the terms and conditions upon which they are obtained, the Company reserves the right to modify its terms and conditions, upon 30 days notice. The foregoing is in addition to all other existing rights retained by the Company to modify or terminate any contract or tariffed service at any time. The Company is responsible for the services and facilities provided under its tariffs, and for unregulated services provided pursuant to contract, and it assumes no responsibility for any service (whether regulated or not) provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own customers.
3. The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

The Company shall use reasonable efforts to obtain and keep in effect all such approvals, consents, authorizations, licenses and permits that may be required to be obtained by it. The Company shall be entitled to take, and shall have no liability whatsoever for, any action necessary to bring the Services into conformance with any rules, regulations, orders, decisions, or directives imposed by the Federal Communications Commission or other applicable agency, and the Customer shall fully cooperate in and take such action as may be requested by the Company to comply with any such rules, regulations, orders, decisions, or directives.

To safeguard its interests, the Company may require a Business Customer to make an advance payment before services and facilities are furnished. The advance payment will not exceed an amount equal to the non-recurring charge(s) and the first month's recurring charges for the service or facility. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The advance payment will be credited to the Customer's initial bill. An advance payment may be required in addition to a deposit.

A customer whose service has been discontinued for non-payment of bills will be required to pay the unpaid balance due carrier and may be required to pay reconnect charges.

2. GENERAL REGULATIONS

2.5 Allowances For Interruptions in Service

- A. Interruptions in service, which are not due to the negligence of, or noncompliance with the provisions of the tariffs of the Company by, the Customer or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects.
- B. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under its tariffs. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

6.1 Connection Charges

(M)

A. Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service, as deemed in Section 2 of this Tariff.

Refer to the Price List.

B. Moves, Adds and Changes

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The customer will be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

1. Move

The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

2. Add

The addition of a vertical service to existing equipment and/or service at one location.

3. Change

Change, including rearrangement or reclassification of existing service at the same location.

C. Customer Not Ready Charge

Where the Company notifies the Customer in advance of possible expenses associated with special arrangements of facilities or equipment, and such expenses are incurred by the Company before its receipt of a cancellation or date change notice from the Customer, or where the Company notifies the Customer in advance of possible special expenses and then incurs an expense for special construction, the Customer may be charged a rescheduling charge equal to the non-recurring charges per arrangement, per reschedule, plus any additional unavoidable expenses the Company incurs as a result of the delay.

6.2 Charges Associated with Premises Visit

A. Terms and Conditions

The customer may ask for an estimate or a firm bid before requesting a Company technician to visit the customers' premises. When an estimate is provided, the estimate is not binding on the Company and the charge to be billed will be based on the actual time (measured in 1/2 hour increments) and materials charges incurred. When a firm bid is provided at customer request, the charge to be billed is the amount quoted to the customer for the work requested. Special Construction charges are identified in Section 2.

2. During a Service Trial, the service is provided to all eligible customers who ask to participate. 7. END USER NETWORK ACCESS SERVICES - VOICE

7.1 Introduction

The Company undertakes to provide end users with voice-grade network access services as described in this tariff. End User Network Access Service provides a Customer with the ability to connect its terminal equipment, inside wiring, or transmission facilities to the Company's switched network for the origination and reception of telephonic communications, and includes optional features designed to facilitate the use or expand the functionality of communications services. Services may be provided by the use of the Company's own facilities, by resale of services provided by other telephone companies, or by a combination of these methods.

Each End User Network Access Service is provided in the form of a Port (with an integral Terminal Interface) which corresponds to one or more analog, voice grade communications channels. Voice-grade access services are designed to transmit any electrical signal within the nominal frequency range of 300 to 3000 Hz. Customers may transmit any form of signals, including data transmissions, that are compatible with the transmission parameters of the service, but the Company does not warrant that the services will be suitable for any purpose other than voice communication.

The following End User Network Access Services are offered:

7.2 Access to Public Switched Network Services

- A. End User Network Access Services provide a Customer with one voice-grade Port connection to the Company's switched network, each of which enables the Customer to:
1. Receive calls from other stations on the public switched telephone network;
 2. Access to Basic Local Exchange service and usage of telephone-company provided services over the primary access line of service, which is not part of a bundle or package of services, enabling the customer to originate or receive voice communications with a local service area. (T)
 3. Access (at no additional charge) the Company's operators and business office for service related assistance; access toll-free telecommunications services such as 800 NPA; and access 9-1-1 service for emergency calling; (T)

10.4 Rate Schedule (Cont'd.)

(M)

A. Usage Rates

1. AT&T Ohio Territory -- PrimeOne Usage Discount

Customers who commit to 1, 2, or 3 year term commitments are eligible to receive the discounts as shown in the Price List on their PrimeOne usage charges. Discounts are calculated based on the term commitment and are applied to the total amount of qualifying revenue in a billing period. Customers whose combined PrimeOne and PrimePlus monthly usage exceeds \$100,000.00 will not be eligible for discounts under this plan.

At the end of the Customer's term commitment, the Customer will convert to month-to-month pricing at tariff rates in effect at that time. For services requiring a one month pricing at tariff rates in effect at that time. For services requiring a one year term commitment, the Customer will receive one year term rates at tariff rates in effect at that time unless the Customer notifies the Company in writing thirty (30) days prior to the expiration of the Customer's term plan of their intent to discontinue service.

Customers who discontinue service prior to the end of their term commitment will be assessed an early termination charge equal to their average monthly usage charges times the number of months remaining on their term commitment. The average monthly usage will be determined by calculating the Customer's total PrimeOne and PrimePlus usage charges for the first six full months of service and dividing by six. If the Customer has been in service less than six months, the average monthly usage will be determined by calculating the Customer's total usage charges and dividing by the number of months the Customer has been in service.

Customers may discontinue service prior to the end of their term commitment without liability if they migrate to another Company local service offering with a term commitment equal to or greater than their current term commitment.
