Subject: State Waiver Request for NORTHFIELD OH Rate Center

Time Warner Cable has a pending business customer order requiring the allocation of 20 sequential telephone numbers in the NORTHFIELD rate center in Ohio. The customer has equipment limitations prohibiting the block beginning with zero or nine. However, our current TN inventory in this rate center is limited to a block beginning with zero in order to meet the sequential TN assignment request.

This rate center is at a less than 75% utilization level. In order to fill the customer need, Time Warner Cable requests a State Waiver to procure one 1k block of numbers (not in the zero or nine range) be submitted to the Public Utilities Commission of Ohio.

Sincerely,

Allyson Blevins
Code Administration & Numbering
