Respondent)	

ANSWER OF DUKE ENERGY OHIO, INC.

For its Answer to the Complaint of Anne Wymore (Complainant), Duke Energy Ohio, Inc., (Duke Energy Ohio or Respondent) states as follows:

1. The Complaint is not in a form allowing for specific admission or denial as to individual allegations. Accordingly, Duke Energy Ohio generally denies the allegations set out in the Complaint.

2. In response to the allegations contained in the first paragraph of the Complaint concerning the allegation that a stop order be issued, Duke Energy Ohio states that the Public Utilities Commission of Ohio (the Commission) is without jurisdiction to resolve issues of equity. Further answering, statements regarding the date on which activities may commence are not allegations to which a response is required. However, to the extent a response is required, Duke Energy Ohio states that any vegetation management activities in which it may engage are permissible under express grants of easement and consistent with its Programs for Inspection,

Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of this paragraph are denied.

3. In response to the allegations contained in the second paragraph of the Complaint, statements regarding the lack of objection to trimming trees are not allegations to which a response is required. However, to the extent a response is required, Duke Energy Ohio is without sufficient knowledge as to the truth of the opinions of Complainant and thus denies the same. Answering further, Duke Energy Ohio states that its practices are permissible under express grants of easement and consistent with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016.

4. Duke Energy Ohio denies the allegations contained in the third paragraph of the Complaint. Answering further, Duke Energy Ohio states that its actions are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of this paragraph are denied.

5. Duke Energy Ohio denies the allegations contained in the fourth paragraph of the Complaint. Answering further, Duke Energy Ohio states that its actions are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of this paragraph are denied.

6. In response to the allegations contained in the fifth paragraph of the Complaint, Duke Energy Ohio submits that statements regarding requested relief are not allegations to which a response is required. Duke Energy Ohio further submits that Complainant lacks standing to

assert relief on behalf of other citizens of Cincinnati, Ohio. However, to the extent a response is required, Duke Energy Ohio states that its actions are necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including those located in Cincinnati, Ohio and are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. Duke Energy Ohio further states that the Commission is without jurisdiction to issue equitable relief, including the relief requested herein. All remaining allegations of this paragraph are denied.

7. In response to the allegations contained in the sixth paragraph of the Complaint, Duke Energy Ohio submits that statements regarding requested relief are not allegations to which a response is required. Duke Energy Ohio further submits that Complainant lacks standing to assert relief on behalf of other citizens of Hamilton, Clermont, and other Ohio counties. However, to the extent a response is required, Duke Energy Ohio states that its actions are necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including Complainant, and are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. Duke Energy Ohio further states that the Commission is without jurisdiction to issue equitable relief, including the relief requested herein. All remaining allegations of this paragraph are denied.

8. In response to the allegations contained in the seventh paragraph of the Complaint, Duke Energy Ohio submits that statements regarding additional documentation relating to another case and requested relief are not allegations to which a response is required.

However, to the extent a response is required, Duke Energy Ohio denies all allegations of this paragraph.

9. In response to the allegations contained in the eighth paragraph of the Complaint, Duke Energy Ohio denies that it is negatively impacting property values in Symmes Township and the City of Montgomery, Ohio. Duke Energy Ohio further states that Complainant lacks standing to assert relief on behalf of other citizens of Symmes Township. Answering further, Duke Energy Ohio admits that it is exercising its lawful right, pursuant to grants of easement, to engage in vegetation management activities that include, but are not limited to, removing vegetation within its easement and right-of-way. Such removal is necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including those located in Symmes Township and the City of Montgomery, Ohio. Answering further, Duke Energy Ohio states that its actions are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of the complaint are denied.

10. In response to the allegations contained in the ninth paragraph of the Complaint, Duke Energy Ohio submits that statements regarding requested relief, the lack of objection to trimming trees, and the lack of dispute of Duke Energy Ohio's rights under its easement and right-of-way are not allegations to which a response is required. However, to the extent an answer is required, Duke Energy Ohio admits that it is exercising its lawful right, pursuant to grants of easement, to engage in vegetation management activities that include, but are not limited to, removing vegetation within its easement and right-of-way. Such removal is necessary to enable the continued safe and reliable operation of high-voltage power lines used in the

provision of service to Duke Energy Ohio's customers, including those located in Symmes Township and the City of Montgomery, Ohio. Answering further, Duke Energy Ohio states that its actions are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of the complaint are denied.

11. In response to the allegations contained in paragraph 10.1 of the Complaint, Duke Energy Ohio submits that statements regarding requested relief are not allegations to which a response is required. Duke Energy Ohio further submits that Complainant lacks standing to assert relief on behalf of other citizens. However, to the extent a response is required, Duke Energy Ohio states that its actions are necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including those located in Cincinnati, Ohio and are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. Duke Energy Ohio further states that the Commission is without jurisdiction to issue equitable relief, including the relief requested herein. All remaining allegations of this paragraph are denied.

12. In response to the allegations contained in paragraph 10.2 of the Complaint, statements regarding Complainant's opinion about Duke Energy Ohio's policies are not allegations to which a response is required. However, to the extent a response is required, Duke Energy Ohio states that its actions are necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including those located in Cincinnati, Ohio and are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of

Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of this paragraph are denied.

13. In response to the allegations contained in the paragraph 10.3 of the Complaint, Duke Energy Ohio states that its actions are necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including those located in Cincinnati, Ohio and are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of this paragraph are denied.

14. Duke Energy Ohio denies the allegations contained in paragraph 10.4 of the Complaint. Duke Energy Ohio further states that its actions are necessary to enable the continued safe and reliable operation of high-voltage power lines used in the provision of service to Duke Energy Ohio's customers, including those located in Cincinnati, Ohio and are consistent with its express grants of easement and with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016.

15. With regard to the allegation that a stop order be issued, Duke Energy Ohio states that the Commission is without jurisdiction to resolve issues of equity. Answering further, Duke Energy Ohio states that any vegetation management activities in which it may engage are permissible under express grants of easement and consistent with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016. All remaining allegations of this paragraph are denied.

16. Statements regarding the lack of objection to trimming trees are not allegations to which a response is required. However, to the extent a response is required, Duke Energy Ohio is without sufficient knowledge as to the truth of the opinions of Complainant and thus denies the same. Answering further, Duke Energy Ohio states that its practices are permissible under express grants of easement and consistent with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016.

17. Statements regarding the date on which activities may commence are not allegations to which a response is required. However, to the extent a response is required, Duke Energy Ohio states that the Commission is without jurisdiction to resolve issues of equity, as inferred by such statement. Answering further, Duke Energy Ohio states that its practices are permissible under express grants of easement and consistent with its Programs for Inspection, Maintenance, Repair and Replacement of Distribution and Transmission Lines, Section (f), as approved on June 13, 2016 and, as such, it cannot be deprived of its right to engage in permissible and lawful activities.

18. Duke Energy Ohio denies each and every allegation of fact and conclusion of law not expressly admitted herein.

AFFIRMATIVE DEFENSES

1. Duke Energy Ohio asserts as an affirmative defense that its easement on the property owned by Complainant expressly confirms the rights of Duke Energy Ohio to engage in vegetation management activities with regard to the property on which such easement exists.

2. The Complainant does not assert any allegations of fact that would give rise to a cognizable claim against Duke Energy Ohio.

3. Duke Energy Ohio asserts as an affirmative defense that pursuant to R.C. 4905.26 and O.A.C. 4901-9-01-(B)(3), Complainant has failed to set forth reasonable grounds for complaint.

4. Duke Energy Ohio asserts as an affirmative defense that Complainant has not stated any request for relief that can be granted by this Commission.

5. Duke Energy Ohio states as an affirmative defense that Complainant lacks standing to assert any claims against the Company in respect of property for which he is not the lawful property owner of record.

6. Duke Energy Ohio asserts that to the extent Complainant is seeking monetary damages, such relief is beyond the scope of the Commission's jurisdiction.

7. Duke Energy Ohio asserts that, to the extent the Complainant is seeking equitable relief, such relief is beyond the scope of the Commission's jurisdiction.

8. Duke Energy Ohio asserts that it has superior property rights, as confirmed by lawful grants of easement.

9. Duke Energy Ohio reserves the right to raise additional affirmative defenses or to withdraw any of the foregoing affirmative defenses as may become necessary during the investigation and discovery of this matter.

CONCLUSION

WHEREFORE, having fully answered, Duke Energy Ohio respectfully requests that the Commission dismiss the Complaint of Anne Wymore for failure to set forth reasonable grounds for the Complaint and to deny Complainant's request for relief, if any.

Respectfully submitted,

/s/ Elizabeth H. Watts
