Exhibit A-13

Richards Energy Inc. has been in business since 1995 and provides energy consulting services to industrial, commercial and institutional clients. These services include shopping for electric and gas through all credible suppliers, performing energy audits, utility billing audits, energy sales tax audits, Cogeneration evaluations, PJM Demand Management/Peak Load Management Services, Metering Installations and Lighting Retrofit Studies/Retrofits.

Today we oversee power purchases approaching 1 billion kWh/year and purchases over 600, 000 dTh/yr, which represent over 2000 utility meters. We have been active as a consultant broker/marketer for electricity since it's deregulation in Pennsylvania in 1999, followed by MD.
