**Notice of Local Public Hearing: Proposed Major Utility Facility Duke Energy Ohio C314-V Central Corridor Pipeline Extension Project Ohio Power Siting Board Case Number 16-253-GA-BTX**

Dear Landowner,

An application for a certificate to construct, operate and maintain the C314-V Central Corridor Pipeline Project (Project) is now pending before the Ohio Power Siting Board (Board), under Case No. 16-253-GA-BTX. The Project is integral to Duke Energy Ohio's long-term plan to retire propane-air peaking plants and balance system supply. It will comprise a 20-inch-diameter steel natural gas line that will run approximately 14 miles, from an existing gas main near the intersection of Butler, Warren and Hamilton counties to an existing gas main near Norwood station or Red Bank Road area, south of Erie Avenue. The enclosed map shows the two proposed routes. If the project is approved, only one proposed route option will be constructed.

Section 4906.07 of the Ohio Revised Code provides:

(A) Upon the receipt of an application complying with section 4906.06 of the Revised Code, the Power Siting Board shall promptly fix a date for a public hearing thereon, not less than sixty nor more than ninety days after such receipt, and shall conclude the proceeding as expeditiously as practicable.

(B) On an application for an amendment of a certificate, the Board shall hold a hearing in the same manner as a hearing is held on an application for a certificate if the proposed change in the facility would result in any material increase in any environmental impact of the facility or a substantial change in the location of all or a portion of such facility other than as provided in the alternates set forth in the application.

(C) The chairperson of the Power Siting Board shall cause each application filed with the Board to be investigated and shall, not less than fifteen days prior to the date any application is set for hearing, submit a written report to the Board and to the applicant. A copy of such report shall be made available to any person upon request. Such report shall set forth the nature of the investigation, and shall contain recommended findings with regard to division (A) of section 4906.10 of the Revised Code and shall become part of the record and served upon all parties to the proceeding.

This is the second notice of the upcoming local public hearing. The first notice of the local public hearing was mailed on April 28, 2017, and published in The Cincinnati Enquirer on April 28, 2017.

The hearings in this case shall consist of two parts:

(1) A local public hearing, pursuant to R.C. 4906.08(C), where the Board shall accept written or oral testimony from members of the public, on June 15, 2017, commencing at 3:00 p.m. and continuing until 8:00 p.m., at the University of Cincinnati-Blue Ash, 9555 Plainfield Road, Muntz Hall, Room 119, Blue Ash, Ohio 45236.

(2) An adjudicatory hearing to commence on July 12, 2017, at 10:00 a.m., at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, 11th Floor, Hearing Room A, Columbus, Ohio 43215-3793.

The Board will review the application on the basis of eight criteria:

- (1) The basis of the need for the facility if the facility is an electric transmission line or gas pipeline;
- (2) The nature of the probable environmental impact;
- (3) That the facility represents the minimum adverse environmental impact, considering the state of available technology and the nature and economics of the various alternatives, and other pertinent considerations;
- (4) In the case of an electric transmission line or generating facility, that the facility is consistent with regional plans for expansion of the electric power grid of the electric systems serving this state and interconnected utility systems and that the facility will serve the interests of electric system economy and reliability;
- (5) That the facility will comply with Chapters 3704., 3734. and 6111. of the Revised Code and all rules and standards adopted under those chapters and under sections 1501.33, 1501.34 and 4561.32 of the Revised Code. In determining whether the facility will comply with all rules and standards adopted under section 4561.32 of the Revised Code, the Board shall consult with the office of aviation of the division of multi-modal planning and programs of the department of transportation under section 4561.341 of the Revised Code.
- (6) That the facility will serve the public interest, convenience and necessity;
- (7) In addition to the provisions contained in divisions (A)(1) to (6) of this section and rules adopted under those divisions, what its impact will be on the viability as agricultural land of any land in an existing agricultural district established under Chapter 929. of the Revised Code that is located within the site and alternative site of the proposed major utility facility. Rules adopted to evaluate impact under division (A)(7) of this section shall not require the compilation, creation, submission or production of any information, document or other data pertaining to land not located within the site and alternative site.
- (8) That the facility incorporates maximum feasible water conservation practices as determined by the Board, considering available technology and the nature and economics of the various alternatives.

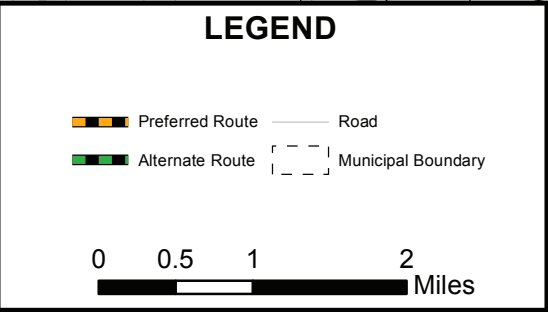

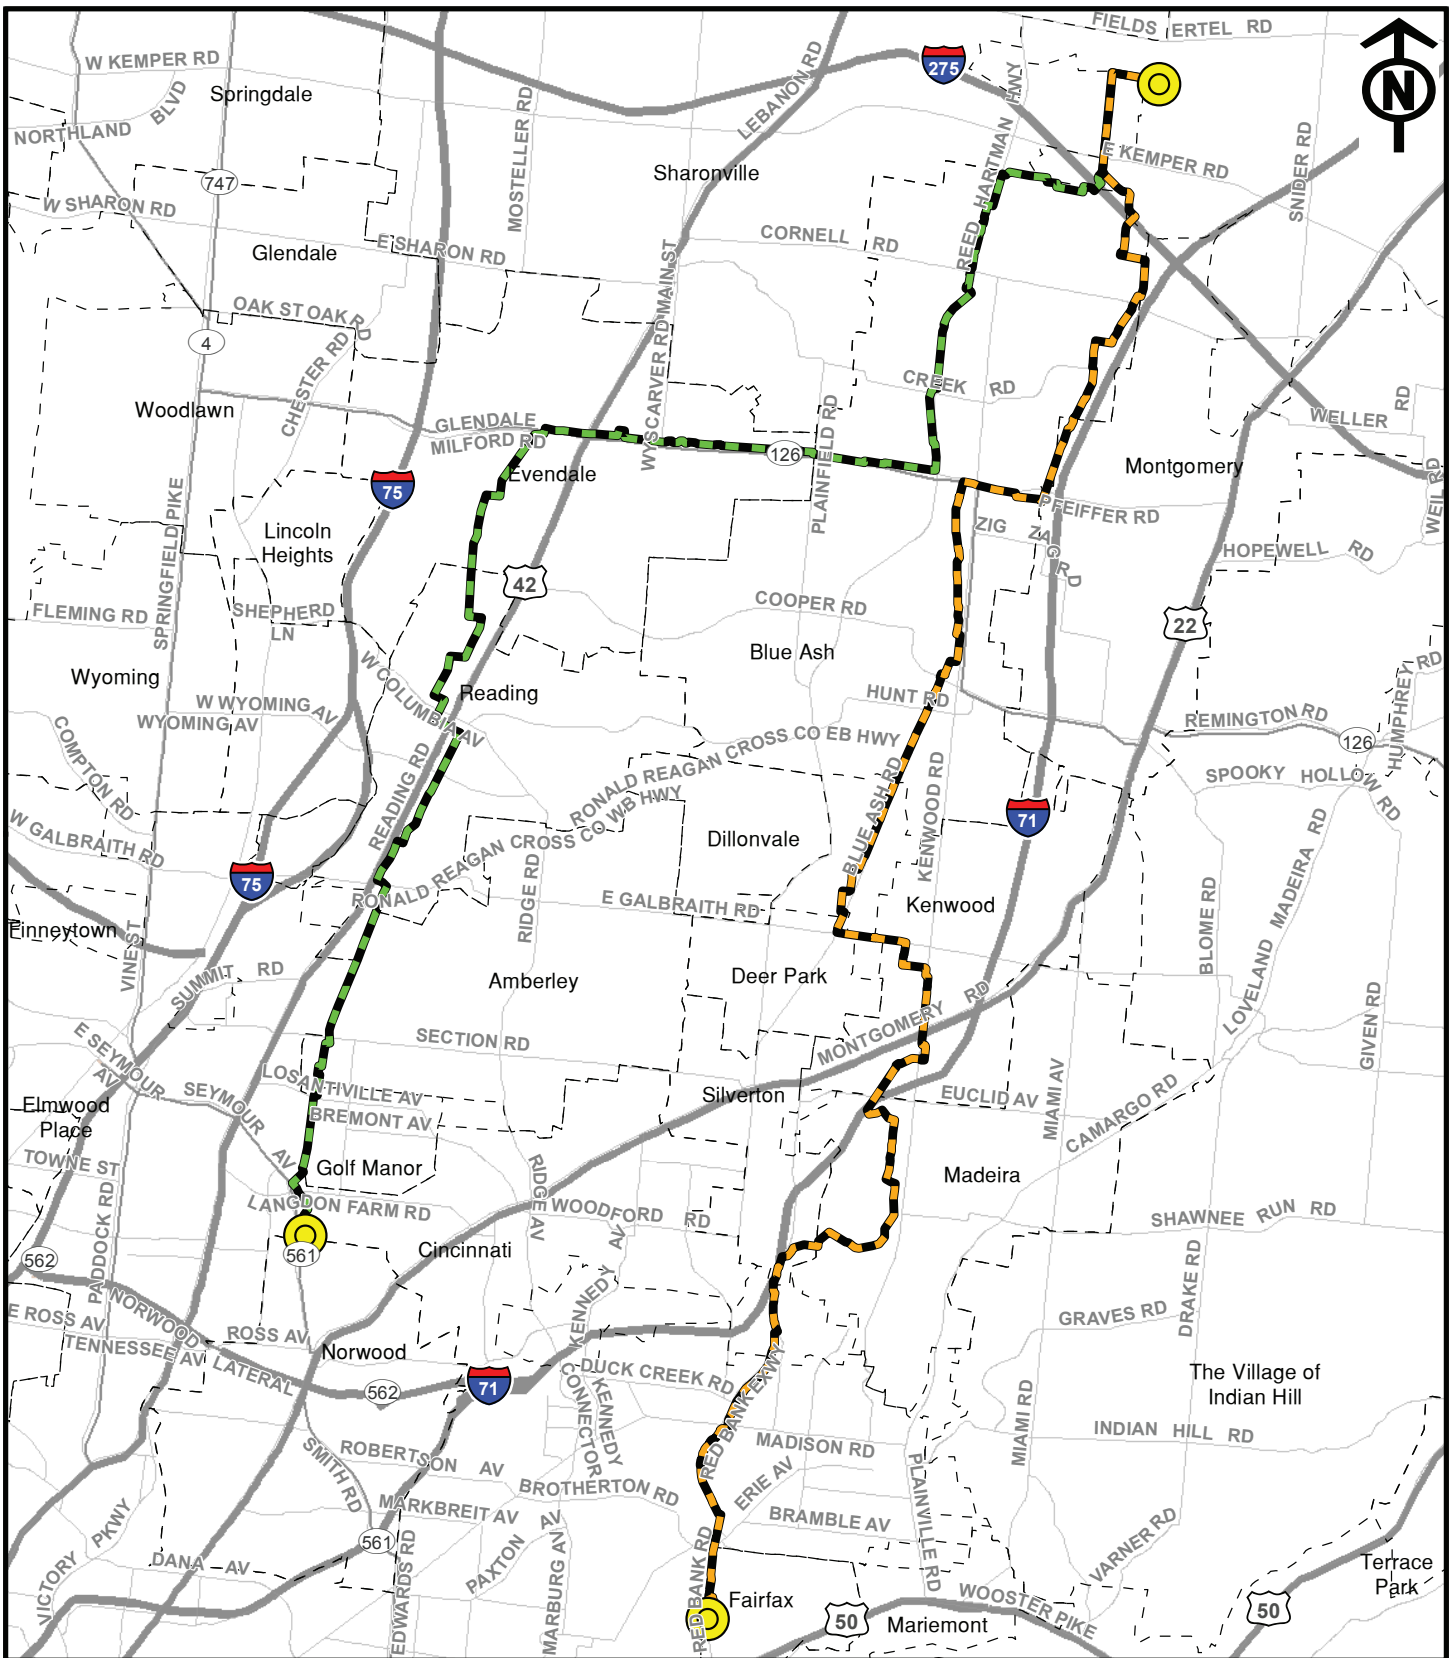

Copies of the Application, including specific details about the location and construction, are available for public inspection at the main office of Duke Energy Ohio at 139 East Fourth Street, Cincinnati, Ohio 45202, and at the offices of the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215. It is also available online at [duke-energy.com/centralcorridor](http://duke-energy.com/centralcorridor).

The following local city and county government officials have been served with a copy of the Application as required by the Board's regulations: Mayor and Administrator of Amberley Village; Mayor and Zoning Director of Blue Ash; Mayor and Zoning Administrator of Cincinnati; Columbia Township President of Trustees and Administrator; Mayor and City Manager of Deer Park; Mayor and Administrator of Evendale; Mayor and Administrator of Golf Manor; Mayor and Director of Zoning of Fairfax; Mayor and City Manager of Madeira; Mayor and City Manager of Norwood; Mayor and Building Commissioner of Reading; Mayor and Community Development Director of Sharonville; Mayor and City Administrator of Silverton; Sycamore Township President of Trustees and Zoning Administrator; and Hamilton County Commissioners, Administrator of Zoning, Director of Environmental Services, and Director of Planning. The Cincinnati Public Library was also provided a copy.

We look forward to seeing you at the public hearing. Thank you for working with us as we move forward with this important project.

Sincerely,

**Duke Energy**

## 911 calls released in Muslim's alleged assault

LARA KORTE  
LKORTE@CINCINNATI.COM

Newly released 911 calls and police reports shed more light on the alleged assault of a Muslim woman in Columbus, but many questions still remain.

Earlier this week, pictures of an injured Rahma Warsame began circling on social media, with the claim made that she had been the victim of a hate crime. However, police evidence suggests Warsame's injuries were the result of a bigger conflict, with conflicting stories.

According to 911 records, Samantha Morales, a resident of 2800 Pinellas Court, called Columbus police Saturday evening complaining about an "African woman" threatening her outside her home. Morales told dispatchers she had seen the woman hitting her son with a shoe earlier, and the woman was accusing Morales of kidnapping him.

Another 911 call came in soon after from Muna Warsame, who claimed a "white family ... kidnapped my oldest son," and that a white man had punched her in the face. It is not known if the two Warsame women are related.

Muna Warsame can be heard threatening someone with what is described as a Taser. As the dispatcher advises Muna Warsame to walk away, the woman can be heard saying, "This guy tried to punch me. ... I have a Taser to protect myself."

Indistinct arguing followed by screaming can be heard before the call drops.

Soon after, a call came in from a man named Ricky Boice, who said he is Morales' boyfriend. He told dispatchers she had been attacked with a taser by a Somali woman.

911 dispatchers also received calls from nearby residents who said they had seen people in the parking lot fighting, people on the ground, and someone shooting something.

The final call came from a young boy asking for help for his mother, Rahma Warsame. "For some reason, my mom's bleeding out of the mouth, something horrible must've happened," he tells the dispatcher.

When police arrived, officers found Morales face down in the doorway and Rahma Warsame nearby, bleeding from the mouth.

A Columbus police spokesperson said conflicting statements from those involved made officers unable to identify the primary aggressor. The police report lists Morales, Boice, Muna Warsame and Rahma Warsame as people of interest. Two items, a kitchen knife and a Taser, are also listed in the report as property of

Muna Warsame. Columbus police confirmed that Muna Warsame did use the Taser on Morales.

On Sunday, Morales and Boice filed a menacing report with police.

In a statement Monday, police said they found no reason to investigate the incident as a hate crime. However, the Columbus branch of the Council on American-Islamic Relations, which is representing Rahma, insists the attack was racially motivated.

Columbus police said no one was charged in the incident and that the case has been referred to the city prosecutor's office.

## Former NKY judge Nolan facing additional six felony human trafficking charges

SCOTT WARTMAN  
SWARTMAN@NKY.COM

The sex crime charges keep piling up against Tim Nolan.

Attorney General Andy Beshear announced this week he's charged the former district court judge with six more felony human trafficking charges, including one involving a person under the age of 18.

This is in addition to the six human trafficking counts a Campbell County grand jury indicted Nolan on in May.

The total number of victims involved is now 12, including two juveniles, according to Beshear.

The details of Nolan's crimes

haven't become public, with police releasing very little information.

Beshear, in a press release, defined the human trafficking charges as prostitution. The attorney general said the crimes occurred between 2010 and May 2017.

Nolan and his attorney, Margo Grubbs, in a recent hearing, maintained his client's innocence.

Nolan, as of late Tuesday afternoon, remained in Campbell County Detention Center under a \$750,000 cash bond.

He faces more than 100 years in prison if convicted on all counts.

Nolan was a district judge in Campbell County in the 1970s and 1980s and was involved in politics.

### SECOND NOTICE OF PUBLIC INFORMATION MEETINGS FOR PROPOSED MAJOR UTILITY FACILITY

This is the second notice of the upcoming local public hearing scheduled for June 15, 2017. The first notice of the local public hearing was mailed on April 28, 2017, and published in The Cincinnati Enquirer on April 28, 2017.

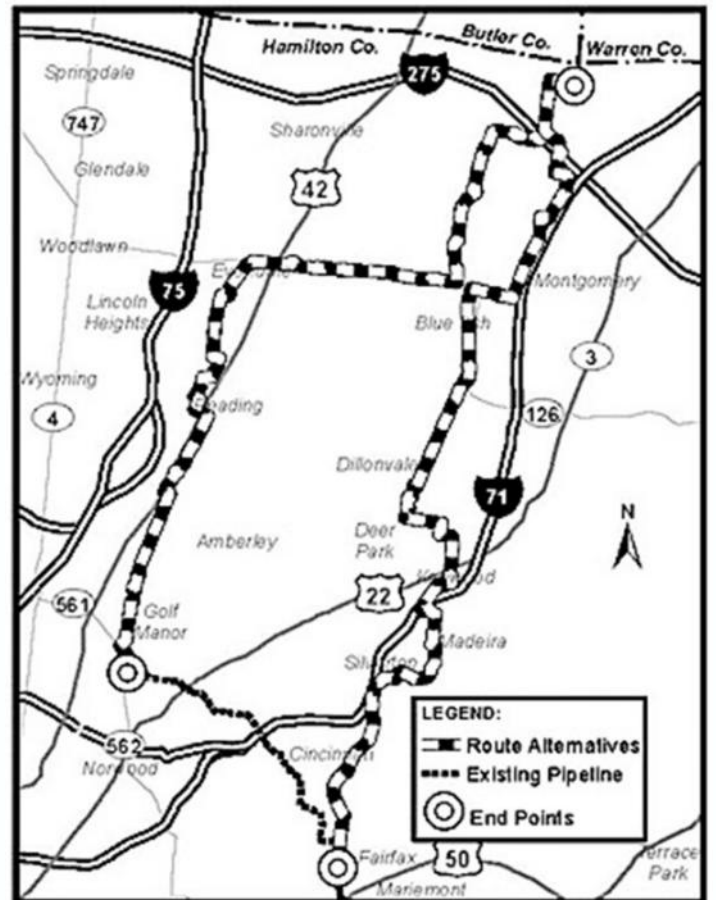

Duke Energy Ohio, Inc., (Duke Energy Ohio) proposes to improve the natural gas system in southwestern Ohio by installing a buried, 20-inch natural gas pipeline, having a length of approximately 12-14 miles, that will run from an existing gas main near the intersection of Butler, Warren, and Hamilton counties. The purpose of the Duke Energy Ohio C314-V Central Corridor Pipeline Extension Project (Project) is to increase the reliability and dependability of the natural gas delivery system in central Cincinnati. The Project consists of the current extension of a pipeline that was completed in 2003 that provided natural gas from cross-country pipelines to northern Hamilton County.

Duke Energy Ohio has filed an Application with the Ohio Power Siting Board (Board), under Case No. 16-253-GA-BTX. This number should be included in all communications with respect to the Project. The Application to construct, operate, and maintain this facility is now pending before the Board.

The Board is responsible for reviewing information related to this Project – including input from the public – and determining whether the proposed Project should be approved. There are 2 proposed route corridors at this time, as shown on the accompanying map. The Board will make the final decision regarding route selection. It should be noted that, due to reduced scale and limited detail, this map should be used only as a general guide.

If the application is approved, construction of the Project would begin in 2018 and be complete by the winter of 2019/2020. Construction on each property typically takes between three to six weeks, but may vary greatly depending on the size of the lot and other factors.

The hearings in this case shall consist of two parts: The Board has scheduled a public hearing, at which it will accept written or oral testimony from members of the public, to be held on Thursday, June 15, 2017, commencing at 3:00 PM and continuing until 8:00 PM, at the University of Cincinnati-Blue Ash, Muntz Hall, Room 119, 9555 Plainfield Road, Blue Ash, Ohio 45236. An adjudicatory hearing will be held, commencing at 10:00 AM on Wednesday, July 12, 2017, at the offices of the Public Utilities Commission of Ohio, 180 East Broad Street, 11th Floor, Hearing Room A, Columbus, Ohio 43215-3793.

The following public officials and agencies have been served with a copy of the Application, as required by Ohio Power Siting Board regulations: Mayor and Administrator of Amberley Village; Mayor and Zoning Director of Blue Ash; Mayor and Zoning Administrator of Cincinnati; Columbia Township President of Trustees and Administrator; Mayor and City Manager of Deer Park; Mayor and Administrator of Evendale; Mayor and Administrator of Golf Manor; Mayor and Director of Zoning of Fairfax; Mayor and City Manager of Madeira; Mayor and City Manager of Norwood; Mayor and Building Commissioner of Reading; Mayor and Community Development Director of Sharonville; Mayor and City Administrator of Silverton; Sycamore Township President of Trustees and Zoning Administrator; and Hamilton County Commissioners, Administrator of Zoning, Director of Environmental Services, and Director of Planning.

A copy of the application is available for public inspection at the main office of Duke Energy Ohio at 139 E. Fourth Street, Cincinnati, Ohio 45202, and at the offices of the Ohio Power Siting Board, 180 East Broad Street, Columbus, Ohio 43215. It is also available on the Duke Energy Ohio website, at: [www.duke-energy.com/centralcorridor](http://www.duke-energy.com/centralcorridor), and on the Ohio Power Siting Board's website, at: [www.opsb.ohio.gov](http://www.opsb.ohio.gov). A copy of the application has been sent to the following library: The Public Library of Cincinnati and Hamilton County.
