Re: Case No. 13-27-EL-BNR, Duke Energy Ohio Meldahl Dam Transmission Tap Line

On January 3, 2013, Duke Energy Ohio filed a construction notice relating to its proposed 345 kV tap line loop to connect the then-existing Duke Energy Ohio 345 kV line with the new Meldahl Dam substation switching station. The application was automatically approved on February 15, 2013.

Duke Energy Ohio started construction on the project on May 16, 2013. It was in service as of December 15, 2013.

Please feel free to contact me with any questions or concerns.

Respectfully submitted,

  
Jeanne W. Kingery  
Associate General Counsel
