DISCOVERY REQUEST
PUCO CASE NO. 18-501-EL-FOR, 18-1392-EL-RDR, AND 18-1393-EL-ATA
FIRST SET**

INTERROGATORY

Direct-INT-01-008 To the extent AEP Ohio contends there is an undersupply of renewable energy available to Ohio consumers, quantify the level of undersupply.

RESPONSE

As indicated in the survey presented in our filing, customers desire that the company increase its level of renewable resources and it would appear that the Company's supply of renewable energy is undersupplied to meet its customer's needs. The Company has not calculated the level of undersupply.
