MEMO

To: Docketing Division
From: Bonnie J Johrendt, Grade Crossing Planner
Date: November 15, 2006
RE: Case 05-1576-RR-RCP, CR 16 (477-500S), Williams County

As described below, the warning devices were relocated by Norfolk Southern Railroad (NS) at the above-location in conformation with the Ohio Manual on Traffic Control Devices:

- NS has installed a new track at the above-mentioned location which parallels on the north side of the NS's Detroit District single main line toward CR 16. The railroad also installed train activated detection equipment for both approaches for the new track.
- The railroad relocated the existing active warning device to comply with the Manual on Uniform Traffic Control Devices and equipped with a GCP.
