Please describe your complaint. (Attach additional sheets if necessary)

When ever we have a storm or high winds the circuit breaker on the main line trips. and has to be reset by the AEP service this can take from 4 hrs to 2 days. this affects around 20 households and happens 4 or more times a year. the breaker should be larger or a auto reset function should be installed. When I loose pow. the sump pump does not work and floods the basement.

this happened on Dec 1, 2007
