## SPECIAL PROMOTIONS

During the period of April 19, 2006 through May 31, 2006, the Company will waive all service connection charges for services installed under the same order when new residential customers who are contacted by the Company or who contact the Company and request this promotion establish an account for local exchange service. If more than one local exchange service access line is requested under the same (initial) order, all service connection charges otherwise applicable for the installation will be waived. This waiver is not applicable on additional lines ordered after service is established. In addition to the preceding eligibility criteria, customers must not have had service disconnected for non-payment and must not have any past due bills for regulated service owed to the Company. Customers who discontinue or have their service disconnected within 90 days of installation will be assessed all charges waived under this promotion.

During the promotional period June 12, 2006 through December 31, 2006, the Company will waive all nonrecurring installation and/or service connection charges that are otherwise applicable for installation of a Solutions-Business Package.

During the period June 19, 2006 through September 16, 2006, existing business customers with five or more lines or trunks (including T1 based voice channel services such as ISDN-PRI and Individual Voice Channels for Sprint Custom Access Solutions) who add ISDN-BRI II, Enhanced Frame Relay, ATM, Digilink, Translink, Lightlink, OptiPoint or Sprint SONET Ring to their account, will receive a bill credit for the first month's service for each qualified service added to the customer's account. There is no limit to the number of qualified services that a customer can add to their account nor is there a limit to the number of times a customer can qualify for the bill credit during the promotional period. The bill credit for qualified services installed during this promotional period will be reflected on the customer's first bill immediately following the installation of qualified services. The first month's service for which the customer is credited will count as the first month of service where a minimum service period or term commitment period are applicable. If a customer discontinues service for which credit was issued prior to the end of required service period, credits issued under this promotion will not be rescinded, and the customer is subject only to the applicable minimum service period or termination liability charges that are normally applicable for that service.
