Grove City	West Jefferson
Groveport	Worthington
Harrisburg	

5.2.3.3 Dayton Metropolitan Area - The exchange areas included in the Dayton Metropolitan Area are as follows:

Dayton	Fairborn
Beavercreek	Miamisburg - West Carrollton
Bellbrook	Vandalia
Centerville	

5.2.3.4 Toledo Metropolitan Area - The exchange areas included in the Toledo Metropolitan Area are as follows:

Toledo	Perrysburg
Holland	Whitehouse
Maumee	Whitehouse

Issued:

Effective:

Bernie Stevens, President  
PNG Telecommunications, Inc.  
4839 Business Center Way  
Cincinnati, Ohio 45248

In accordance with Case No. \_\_\_\_\_, Issued \_\_\_\_\_.

**5 Exchange Service Areas (cont.)**

**5.2 Access Areas (cont.)**

**5.2.4 Ohio Zones of Wheeling Area Exchange Area**

**5.2.4.1 Description** - The Wheeling Area Exchange Area consists of three zones in Ohio and four zones located in West Virginia operated by the Chesapeake and Potomac Telephone Company of West Virginia as follows:

Issued:

Effective:

Bernie Stevens, President  
PNG Telecommunications, Inc.  
4839 Business Center Way  
Cincinnati, Ohio 45248

In accordance with Case No. \_\_\_\_\_, issued \_\_\_\_\_

Section 5 - Exchange Service Areas

Original Sheet No. 104

**5 Exchange Service Areas (cont.)****5.2 Access Areas (cont.)****5.2.5 Ohio Zones of Wheeling Area Exchange Area (cont.)****5.2.5.1 All other Circuits and Channels**

**5.2.5.1.1 Terminals Located in Ohio** - Where the terminals of the circuit or channel are located in Ohio and in the same or in different zones, circuit rates apply as specified for circuits and channels "within the same exchange area."

**5.2.5.1.2 Terminals Located in both Ohio and West Virginia** - Where the terminals of the circuit or channel are located in Ohio and in a zone in West Virginia, the provisions of Section 2.1.4.2.1 above apply to the portion of the facilities in Ohio. For the portion of the facilities in West Virginia, charges apply as specified in the intrastate tariff of the The Chesapeake and Potomac Telephone Company of West Virginia.

**5.2.5.2 "Zone" and "Zone Area"** - In the application of rates and charges for other terms of service included in this tariff and with respect to the application of message toll telephone service rates, or any other matter covered by any other Company tariff, the terms "zone" and "zone area" as used in this paragraph have the same meaning as the terms "exchange" and "exchange area."

**5.3 List of Local Access and Transport Areas** - The LATA's and the associated exchanges area as follows:

**5.3.1 Akron LATA**

## Section 7 - Services

Original Sheet No. 314

**7 Services****7.1 Basic Exchange Access Service**

- 7.1.1 Scope of Service** - Basic Exchange Access Service provides the Customer with a single, voice-grade communications channel connecting the Customer's premises and the Company's or the Company's Designated Carrier's, central office. Basic Exchange Access Service provides the Customer with access to the switched network for purposes of placing and receiving calls.
- 7.1.2 Data Transmissions** - Basic Exchange Service Customers are entitled to a voice-grade communications channel. Basic Exchange Access Customers are not guaranteed any other facility requirement - e.g. Customers are not guaranteed a communications path capable of supporting data transmissions.
- 7.1.3 Basic Exchange Access Service Rate Schedule** - Rates for Basic Exchange Access Services are based upon class of service (as set forth in this tariff's "Definitions" section) and access area as defined in Section 5.2. All rates in this Section are applied monthly unless specifically identified otherwise.

	Access Area		
	Area B (min/max)	Area C (min/max)	Area D (min/max)
Residential Single Line			
Non-Rotary with Touch Tone			
Network Access	\$1.00 - \$20.00	\$1.00 - \$20.00	\$1.00 - \$20.00
Central Office Termination	\$1.00 - \$20.00	\$1.00 - \$20.00	\$1.00 - \$20.00
Total	\$2.00 - \$40.00	\$2.00 - \$40.00	\$2.00 - \$40.00

## Section 7 - Services

Original Sheet No. 317

7 Services (cont.)7.2 Local Usage Service

- 7.2.1 Scope of Service - Local Usage Service provides Customers subscribing to the Company's Exchange Access Service with the ability to place to and receive calls from parties located in the Company's Local Usage Service Area described in section \_\_\_\_\_.
- 7.2.2 Local Usage Service Area - The Company's Local Usage Service Area is separated into three distinct rate categories or "rate bands." Local Usage Services are grouped into three rate bands defined as Rate Bands B, C, and D. Rate Bands B, C, and D define the approximate mileage of the call. Band B calls are the shortest distance calls and Band D calls are the longest distance calls. Any call made from an exchange within which the Company provides Exchange Access Service to another exchange within which the Company provides Exchange Access Service will be rated as either Band B, C, or D. Usage charges may vary by Band, time of day, and duration of call. Customers are grouped into either Access Area B, C, or D depending on the location of the Customer's premises. See section \_\_\_\_\_.
- 7.2.3 Local Usage Service Rate Schedules - All Local Usage Service Rates are applied per minute of use as follows unless otherwise specified. End user contracts are effective upon day of signing and will be filed with P.U.C.O. within ten (10) days of signing. End use contracts and carrier-to-carrier initial contracts and amendments will be subject to the P.U.C.O. rules in 95-645-TP-COI at pages 41-43. Carrier-to-carrier arrangements are included in Section \_\_\_\_\_ following.

	<u>Monthly Recurring Charge</u>
Residential Local Usage Service	\$2.00-\$20.00

- 7.2.4 Operator Assisted Local Usage - When the Customer utilizes operator assistance, they will be charged an operator assisted surcharge in addition to the local or toll usage.

Cincinnati, Ohio 45246

In accordance with Case No. \_\_\_\_\_, issued \_\_\_\_\_.

## Section 7 - Services

Original Sheet No. 318

## 7 Services (cont.)

## 7.2 Local Usage Service (cont.)

7.2.5 Measured Rate Service - The Local Usage Service rates are based on three measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message.

<u>Rate Mileage</u>	<u>Initial Minute or Fraction Thereof</u>	<u>Additional Minute or Fraction Thereof</u>
0-10	\$.01-\$.15	\$.005-\$.20
11-22	\$.01-\$.20	\$.01-\$.30
23 and over	\$.01-\$.25	\$.01-\$.35

7.2.6 Local Calling Plus - When ordered by the Public Utilities Commission of Ohio between specific exchanges, all rules and regulations for local message charges for Measured Rate Service are applicable to Local Calling Plus. However, Measured Rate Service is not required to take advantage of Local Calling Plus. It is available to all measured and message service business Customers and to flat rate residential Customers.

7.2.6.1 Local Calling Plus Charge Schedule

<u>Rate Mileage</u>	<u>Initial Minute or Fraction Thereof</u>		<u>Additional Minute or Fraction Thereof</u>	
	<u>Residence</u>	<u>Business</u>	<u>Residence</u>	<u>Business</u>

In accordance with Case No. \_\_\_\_\_, Issued \_\_\_\_\_.

**7 Services (cont.)****7.2 Local Usage Service (cont.)**

**7.2.7 Message Rate Services** - Message Rate Service consists of a fixed monthly rate for usage packages which include a monthly local usage allowance in the monthly rate. Each local call is charged on a message unit basis and an additional charge is made for local messages in excess of the allowance. The allowance, if not used during one month, is not credited to the Customer's account for any other month.

**7.2.7.1 Rates and Charges**

	<b>Usage Package Monthly Rate</b>
Business Non-Rotary	\$2.00-\$15.00
Business Rotary	\$2.00-\$15.00
Business PBX Trunk	\$2.00-\$15.00

**7.2.7.2 Local Message Allowances and Charges** - The monthly rates for usage packages associated with message rate services include the number of local messages specified below:

All non-residence, per usage package	73
Charge per additional local message	\$.05-\$3.50

Original Sheet No. 322

7 Services (cont.)7.2 Local Usage Service (cont.)7.2.9 Resold Switched Access Service (cont.)

7.2.9.1 Interconnection - Interconnection and Resold Switched Access Service are available only to carriers which are certified by the P.U.C.O. to provide intrastate local exchange services.

7.2.9.2 Local Traffic Exchange - Local Traffic Exchange provides the ability for another local exchange provider to terminate local traffic on the Company's network. In order to qualify for Local Traffic Exchange the call must: (a) be originated by an end user of a company that is authorized by the P.U.C.O. to provide local exchange service and (b) originate and terminate within the local calling area of the Company.

7.3 Optional Exchange Access Service Enhancement Features

7.3.1 Generally - Services in this section may be purchased in addition to a Company-provided Exchange Access Service. These features are available only when purchased in combination with a Company provided Exchange Access Service.

7.3.2 Optional Exchange Access Service Enhancement Features — Rate Schedules - Rates in this section are applied on a monthly basis unless otherwise specified:

<u>Feature</u>	<u>Residence</u>	<u>Business</u>
900 Special Access Code Blocking • Blocks access from a Company-provided Exchange Access Service to Customer dialed 900 numbers	\$0.00-\$20.00	\$0.00-\$20.00

7 Services (cont)

7.3 Optional Exchange Access Service Enhancement Features (cont.)

7.3.2 Optional Exchange Access Service Enhancement Features—Rate Schedules (cont.)

Feature	
<b>Speed Calling</b> * Speed Calling permits the customer to place local and message toll calls to a pre-selected group of telephone numbers by dialing abbreviated codes. Speed calling is provided in capacities of eight or thirty telephone numbers. <ul style="list-style-type: none"><li>• 8 number capacity</li><li>• 30 number capacity</li></ul>	(M)(D)
<b>Three-Way Calling</b> <ul style="list-style-type: none"><li>• Adds a third party to an established connection without operator assistance.</li><li>• Monthly</li><li>• Per Attempt</li></ul>	
<b>Anonymous Call Rejection</b> Allows a called party to reject calls from parties that have activated the *67 Per Call Blocking feature to prevent the display of the calling telephone numbers to Caller ID – Number Only Subscribers, or to prevent the display of the calling telephone numbers and associated main listed names to Caller ID Subscribers. Such calls will be routed to an announcement which tells the calling party that the called party will not accept calls from callers who have chosen to prevent the display of their telephone numbers and names. The calling party will be instructed to hang up and place the call again, without activating the *67 Per Call Blocking feature. Customers may activate or deactivate Anonymous Call Rejection by dialing an activation code. This arrangement is included with the Caller ID–Number Only and Caller ID–Number Only/Caller ID Customers. 7 Services (cont)

7.5 Optional Exchange Access Service Enhancement Features (cont.)

7.5.2 Optional Exchange Access Service Enhancement Features—Rate Schedules (cont.)

Feature
<b>Last Call Return (*69)</b> This Service allows a Customer to return the most recent incoming call and hear an announcement of the last telephone number that called. To activate Return Call (*69), the Customer dials a code, then hears an announcement of the telephone number of the last party that called. If the Customer wishes to return the call right away, voice prompts will instruct the Customer to dial a certain digit and the call will automatically be returned.
<b>Caller ID Per Call Blocking (*67)</b> Blocks the Customer's name and number from being transmitted on all outgoing calls from a particular line. Per call blocking is achieved by pressing *67 prior to each call, while per line blocking blocks the name and number of every outgoing call. Dialing a special code prior to dialing the number of the person being called can unblock the number and name. Caller ID Blocking is provided at no charge.
<b>Caller ID with Name</b> allows a Customer to see a caller's name and number previewed on a display screen before the call is answered allowing a Customer to prioritize and/or screen incoming calls. Caller ID records that name, number, date and time of each incoming call – including calls that are not answered by the Customer. Caller ID Service requires the use of specialized Customer-provided equipment not provided by PNG. It is the Customer's responsibility to obtain such Customer-provided equipment.

7 Services (cont)

7.6 Optional Exchange Access Service Enhancement Features (cont.)

7.6.2 Optional Exchange Access Service Enhancement Features—Rate Schedules (cont.)

Feature
Call Forwarding—Variable A Customer activated feature that automatically transfers all incoming calls from the Customer's telephone number to another dialable telephone number until the Customer deactivates the feature. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding—Variable is billed for the forwarded leg of the call.

## Section 7 - Services

Original Sheet No. 332

7 Services (cont.)

**7.4 Custom Business Service** - Custom Business Service is an optional service arrangement of Electronic Switching System (ESS) and Data Management System (DMS) central office features which enables an individual exchange access customer served by the same central office to combine up to six exchange access lines into a group. The following rates and charges are for the Advantage System only, and are in addition to the applicable service and equipment charges, monthly rates and non-recurring charges for access lines and other services or equipment with which they are associated.

	<u>Non-Recurring Charge</u>	<u>Monthly Charge</u>
Service Established Charge, per system	\$20.00-\$40.00	Not Available
Advantage System per line (includes Call Hold, Call Pickup, Transfer, Conferencing and Intercom)	Not Available	\$3.00-\$12.00
Optional Features		
• Call Waiting, per line	Not Available	\$1.00-\$15.00
• Call Forwarding, per line	Not Available	\$1.00-\$15.00
• Alternate Answering, per line	Not Available	\$1.00-\$15.00
• Convenience Dialing 30 (including initial access to list)		
• per list	Not Available	\$1.00-\$15.00
• each additional list	Not Available	\$1.00-\$15.00
• Feature Package 1 (including Call Forwarding and Call Waiting) per line	Not Available	\$1.00-\$15.00
• Feature Package 2 (including Call Forwarding and Alternate Answering) per line	Not Available	\$1.00-\$15.00
• Deluxe Call Transfer, per line	Not Available	\$1.00-\$15.00
• Distinctive Ringing, per line	Not Available	\$1.00-\$15.00

**7.5 Operator Assistance Surcharges** - Operator Assistance Surcharges apply when a Customer utilizes either an automated or live Company-provided operator for purposes of completing or billing a call. Operator Assistance Surcharges apply in addition to either local usage or long-distance usage services as identified in Section 2.4.3 or 2.14 of this tariff.

## Section 7 - Services

Original Sheet No. 338

7 Services (cont.)7.7 Integrated Services Digital Network (ISDN) Services

- 7.7.1 General - Provides integrated voice/data communications capability for transmission and combination of circuit switched voice /data and packet switched data signals on an incoming and outgoing basis over a single ISDN line. This service requires two 64 Kbps "B" channels to transmit any combination of Circuit Switched Voice/Data or high speed Packet Switched Data and one "D" channel to carry network signaling and user originated Packet Switched data at speeds up to 9.6 Kbps (2B+D). It is available from specially equipped digital switching equipment located in the Company's central offices (or in the offices of a Company affiliated supplier/carrier) and where facilities permit and where capacity is available within specified distances from the serving central office. A maximum of 8 devices may be connected directly to an ISDN line and only 2 of these devices are permitted to access the two "B" channels.

## Section 7 - Services

Original Sheet No. 343

7 Services (cont.)

- 7.10 Foreign District Service - Foreign District Service is a service by which a Customer can be provided the Company's Exchange Access Service from a district other than the one in which the Customer's premises are located. When a Customer subscribes to Foreign District service, the Customer will be considered to reside in the district that the Customer has chosen as the Foreign District for purposes of rating and billing the Company's services within this tariff.

- 7.10.1 Foreign District Service - Rate Schedule - The rate for Foreign District Service is the total of (1) the usage rate in effect in the Foreign District for the class of service furnished, (2) the access rate for the access area in which the Customer is physically located, and (3) the following mileage charges:

	<u>Monthly Rate</u>	
	<u>Residence</u>	<u>Business</u>
Area Function Charge	\$9.00 - 40.00	\$9.00 - \$40.00
Inter-exchange Circuits per mile	\$4.00 - \$80.40	\$4.00 - \$80.40
Inter-exchange Circuit Service Terminal	\$4.00 - \$80.40	\$4.00 - \$80.40

**7.15.3 Residential Bundled Services – Offered via Resale\* (cont.)**

**B. Bundled Service Packages offered via resale are as follows (cont.)**

**2. PowerNet Global Call to Connect**

PowerNet Global Call to Connect provides the Customer with an access line to the local exchange network and includes the following usage and features:

- a. Unlimited calling within the Customer's Local Calling Area.
- b. 120 minutes IntraLATA and InterLATA long distance calling within the United States only as part of the monthly rate.
- c. Additional minutes of IntraLATA and InterLATA long distance calling at a per minute rate.

**3. PowerNet Global Call to Connect Simple**

PowerNet Global Call to Connect Simple provides the Customer with an access line to the local exchange network and includes the following usage and features

- a. Unlimited calling within the Customer's Local Calling Area.
- b. 30 minutes IntraLATA and InterLATA long distance calling within the United States only as part of the monthly rate.
- c. Additional minutes of IntraLATA and InterLATA long distance calling at a per minute rate.

\*These services are offered in the SBC service area only.

Section 7 - Services

Original Sheet No. 353.3

7. Services (cont.)

7.16 Description of Message Toll Services

- A. Generally - The Company offers residential and business Customers Message Toll Service (MTS) for intraLATA and InterLATA interexchange long-distance communications utilizing switched or dedicated access arrangements between the Customer's premises and the Company's facilities for call origination. Call termination is completed through a combination of the Company's facilities and LEC switched access arrangements. (T)(M)
- B. Timing of Calls - MTS usage charges are based on the actual usage of the Company Network. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. Unless otherwise specified in this Tariff or in the Company's Price List, the minimum call duration for billing purposes is six (6) seconds. In addition, unless otherwise specified in this Tariff or the Company's Price List, usage is measured thereafter in six (6) second increments and rounded to the next higher six (6) second period. (T)(T)(T)(M)
- C. Switched Access Service is a switched access service, offering users both outbound "1 Plus" and inbound, toll free long distance telecommunications services. The service offers direct dial capabilities of other underlying carrier(s) network services. (N)
- D. Dedicated Access Service is a dedicated access service, offering users both outbound "dial access" and inbound, toll free long distance telecommunications services over dedicated local access connections to the underlying carrier's point of presence. This service is designed for Customers with high traffic volumes, whose traffic volumes justify the additional costs of dedicated access facilities.
- E. One Plus Service is a switched or dedicated access service offering users outbound "1 plus" long distance telecommunications services.
- F. Toll Free Service is a switched or dedicated access service offering users inbound, toll free long distance telecommunications services. This service enables the caller to contact the Customer without incurring toll charges, through the use of an assigned toll free number. The Customer pays for the call. Customers with toll free service may elect to be listed in the toll free directory assistance data base maintained by the Local Exchange Carrier.
- G. Travel Card Service is a calling card service enabling Switched Access Service Customers to place calls from any touch tone phone in the United States. Travel Card calls are billed at the Company's rate and appear on the Customer's monthly long distance bill. (N)

**7. Services (cont.)**

**7.16 Description of Interexchange Services (cont.)**

- H. PowerDial Service permits Customers significant cost savings on intrastate and international calling via a toll-free 800 number access.**
- I. Directory Assistance Service - Company offers interexchange toll free and 1+ directory assistance services through its underlying carrier at the rates set forth in PUCO Price List No. 1.**
- J. Prepaid Calling Card Service is a discretionary switched access service available to subscribers via a toll free number from any telephone in the United States. The user's account is credited for the amount of calling purchased and is debited as the subscriber places calls, until the account balance is depleted. Subscribers are informed of the amount of calling time remaining on the card at the time they access the Company's equipment and enter a card identification number and are reminded to replenish the account prior to its depletion at one (1) minute prior to the account's depletion. Subscribers may immediately replenish the account at any time by contacting the Company's customer service department and charging the desired amount to a valid credit card or by mailing a check to the Company. If the account is not replenished, access to the Company's underlying carrier network is blocked. PNG Prepaid Calling Card calls are billed initially in one (1) minute increments with one (1) minute billing increments thereafter. PNG's Prepaid Calling Card per minute rates do not include state and local taxes and surcharges.**

## Section 8 - Centrex Services

Original Sheet No. 352

**8 Centrex Services**

**8.1 Description of Centrex Service** - Centrex Service is a local exchange telecommunications service, provided by a telecommunications system located in a telephone company central office, which controls the switching of calls from the exchange network to the Centrex lines, calls from the Centrex lines to the exchange network, and intercommunicating calls between Centrex lines.

**8.1.1 Direct Inward Dialing** is provided to the Centrex by line selection in the central office.

**8.1.2 Identification of outward dialing** is provided for Centrex lines by individual line identification in the central office for those inter-exchange carriers for which the Company renders billing services.

**8.1.3 Integrated voice/data communication capability** is provided for the transmission of circuit, switched voice, circuit switched data, and packet switched data signals on an incoming, outgoing and intercom basis utilizing Integrated Services Digital Network (ISDN) architecture.

**8.1.4 Centrex Service** offers three types of lines: basic lines, electronic key lines, and ISDN lines (Custom and National).

**8.1.5 Centrex Service** is offered only as a complete service. The network access and intercommunication portions of the Centrex station line are not provided separately.

**8.1.6 Centrex Service** is usage sensitive and is subject to PBX trunk equivalents. Centrex Service will utilize a PBX trunk equivalent schedule in determining various components of the service.

**8.2 Definitions Applicable to Centrex Service**

**8.2.1 Addition** - Provision of supplementary service to a customer's installed system up to the capacity of the system.

**8.2.2 Downgrade** - Enumerated changes to an installed system generally resulting in a decrease in capacity, capability and/or lower monthly charge.

**8.2.3 Line Category** - The number of lines the customer has selected as the contract commitment.

## Section 8 - Centrex Services

Original Sheet No. 354

8 Centrex Services (cont.)8.3 Terms and Conditions (cont.)8.3.4 Transmission Specifications (cont.)

8.3.4.2 Loop Start Signaling - Basic lines and Electronic Key lines are provided on a single two-wire facility with loop start signaling.

8.3.4.3 Electronic Key Line Standard Transmission (Non-ISDN) - Electronic Key Lines are provided on a non-loaded loop for access by preprogrammed push button features on compatible Customer Provided Equipment (CPE). The distance limitations from the Company's switching equipment is approximately 2.5 miles. If a customers premises does not meet transmission requirements in the Technical Reference, Distance Extension will apply in addition to Centrex service charges.

8.3.4.4 ISDN Line (Custom and National) Standard Transmission - ISDN lines (Custom and National) are provided on a non-loaded loop for access by preprogrammed push button features on compatible Customer Provided Equipment (CPE). ISDN lines are configured as an ISDN basic rate interface with a capacity of two 64 Kbps "B" channels and one 16 Kbps "D" channel (2B+D).

8.3.4.4.1 Integrated Services Digital Network (ISDN) architecture, as recommended in the 1984 recommendation of the International Telegraph and Telephone Consultative Committee (CCITT), provides integrated voice/data communication capability for transmission of Circuit Switched Voice (CSV), Circuit Switched Data (CSD) and Packet Switched Data (PSD) signals on an incoming, outgoing and intercommunicating basis. Where available, a maximum of eight (8) services are permitted per ISDN line. This maximum is to be inclusive of a maximum of two (2) "B" channel services per ISDN line. Valid configurations of services are listed in the ISDN Interface Specifications. If a customers premises does not meet transmission requirements in the Technical Reference, Distance Extension will apply in addition to Centrex service charges.

8.3.4.4.1.1 ISDN National lines offer features and capabilities that are more standardized with all types of central office switches.

## Section 8 - Centrex Services

Original Sheet No. 365

**8 Centrex Services (cont.)****8.3 Terms and Conditions (cont.)****8.3.4 Transmission Specifications (cont.)****8.3.4.4 ISDN Line (Custom and National) Standard Transmission**

8.3.4.4.1.2 ISDN Custom lines offer some features which are not available on ISDN National lines and require the use of proprietary Customer Provided Equipment.

8.3.5 Local Service Area - The exchange or zone of the serving wire center for Centrex Service determines the local service area for all station lines. (See Reference Section)

8.3.6 Business Classes Of Service - See Other Applicable Charges - Usage.

8.3.7 Mileage Charges - Where facilities permit, Centrex lines, and Electronic Key lines may be provided to a customers location outside the serving CO area. In such cases, in addition to the prices for the specific Centrex line, appropriate mileage charges apply. (See Reference Section). When the customers premises and the serving central office providing ISDN Centrex service are located in different Service Areas, Base Rate charges will apply. Customers provided this service arrangement will require three Interexchange Mileage component charges and six Channel Mileage Termination charges for each ISDN Centrex line they purchase. (See Reference Section)

8.3.8 Cancellation of Service - In the event of a customer initiated cancellation of service, equipment and/or facilities before completion, or after installation is completed, but prior to service being established, the loss of equipment and facilities in the process of building or being installed, cost of installation labor, cost of removal and other expenses will apply. In addition, Service Connection Charges may also be applicable.

8.3.9 Directory Listings - The Company will furnish without charge one primary directory listing for each Centrex System in addition to a sub-listing indicating that stations can be dialed directly if the number is known. Individual business listings of telephone numbers by department, title, or individual name, may be indented under the main listing or listed separately, at the Charges specified for Business Additional Listings. (See Reference Section)

## Section 8 - Centrex Services

Original Sheet No. 358

8 Centrex Services (cont.)8.3 Terms and Conditions (cont.)

8.3.10 CCS Limitations - The intercom prices for each Centrex system are based on a 1 1/2 or less CCS (Centum Call Second) load. Systems with loads higher than 1 1/2 CCS will be handled on an individual case basis. The company reserves the right to re-evaluate a customer's CCS load at any time. Month-to-month customers and those who sign contracts after August 12, 1996 are subject to the CCS Limitations described above.

In accordance with Case No. \_\_\_\_\_, issued \_\_\_\_\_.

## Section 8 - Centrex Services

Original Sheet No. 373

8 Centrex Services (cont.)8.4 Features (cont.)8.4.2 Line Features (cont.)

- 8.4.2.4 Automatic Dial - Provides for automatic dialing of a single telephone number via a specific button on the CPE telephone. For Centrex users with properly equipped Customer Provided Equipment (CPE) having display capabilities, this feature displays the number currently programmed for Automatic Dial. For ISDN this functionality is provided by properly equipped CPE.
- 8.4.2.5 Automatic Line Preselect - Automatically connects a station user to a preselected line when the handset is lifted. Preselect can be configured to select a ringing line, a primary line, or no line.
- 8.4.2.6 Call Forward of Call Waiting Calls - Allows station users that have Call Forwarding and Call Waiting assigned to their lines to forward Call Waiting calls that are not answered within a set period of time automatically to a predetermined destination.
- 8.4.2.7 Call Forwarding-Busy - Allows incoming calls to a busy station to be routed to a preselected Centrex station line, attendant, or line outside the system.
- 8.4.2.7.1 Incoming Call Only - allows only incoming calls from outside of the Centrex group to be forwarded.
- 8.4.2.7.2 Internal/External Split - allows separate, forwarded-to directory numbers to be assigned for calls that originated internally or externally to the customer group.
- 8.4.2.7.3 Station Activation - allows a customer to activate/deactivate the feature as well as program the forward-to station from the set by using a dial access code.
- 8.4.2.7.4 To External Number - allows calls to be forwarded to a number outside of the Centrex group.
- 8.4.2.8 Call Forwarding - Don't Answer - Allows incoming calls to automatically route to a preselected Centrex station line, attendant or to a line outside the Centrex group when the called station is not answered after a preset number of rings.

Issued:

Effective:

Bernie Stevens, President  
PNG Telecommunications, Inc.  
4839 Business Center Way  
Cincinnati, Ohio 45246

In accordance with Case No. \_\_\_\_\_, issued \_\_\_\_\_.

## Section 8 - Centrex Services

Original Sheet No. 374

**8 Centrex Services (cont.)****8.4 Features (cont.)****8.4.2 Line Features (cont.)****8.4.2.8 Call Forwarding - Don't Answer (cont.)**

- 8.4.2.8.1 Incoming Call Only - allows only incoming calls from outside of the Centrex group to be forwarded.
- 8.4.2.8.2 Ring Cycles - defines a predetermined number of rings before the Call Forward-Don't Answer feature is invoked on a per line or a per system basis.
- 8.4.2.8.3 Internal/External Split allows separate, forwarded-to directory numbers to be assigned for calls that originated internally or externally to the customer group.
- 8.4.2.8.4 Forwarded Number Busy Interaction Enhancement - on a customer group basis provides additional treatment options for incoming calls that are forwarded to the forward-to destination when busy. This enhancement does not apply for ISDN. The available options are:
  - 8.4.2.8.4.1 Treat the call according to any features assigned to the forward-to destination (current functionality); or
  - 8.4.2.8.4.2 Do not forward the call, but continue to ring the base station until answered or abandoned; or
  - 8.4.2.8.4.3 Do not forward the call, but provide an intercept announcement.
- 8.4.2.8.5 Station Activation - allows a customer to activate/deactivate the feature as well as program the forward-to station from the set by using a dial access code.
- 8.4.2.8.6 To External Number - allows calls to be forwarded to a number outside the Centrex.

Issued:

Effective:

Bernie Stevens, President  
PNG Telecommunications, Inc.  
4839 Business Center Way  
Cincinnati, Ohio 45246

In accordance with Case No. \_\_\_\_\_, issued \_\_\_\_\_.

## Section 8 - Centrex Services

Original Sheet No. 375

8 Centrex Services (cont.)8.4 Features (cont.)8.4.2 Line Features (cont.)

8.4.2.9 Call Forwarding - Variable - Permits a station user to activate routing of incoming calls, to a preselected station line, attendant, or to a line outside of the system.

8.4.2.9.1 Reminder Ring/IntraGroup - provides a ring splash when an intragroup call is forwarded and the base station is idle.

8.4.2.9.2 Remote Activation of Call Forwarding - provides the capability for a customer to activate and deactivate the call forwarding variable feature for a Centrex line from another telephone either within or outside of the Centrex group.

8.4.2.9.3 To Intragroup Directory Numbers (DNs) Only - allows calls to be forwarded to intragroup directory numbers only.

8.4.2.9.4 Incoming Calls Only - allows only incoming calls outside of the business group to be forwarded.

8.4.2.10 Call Forwarding Per Key - Allows an Electronic Key Line user to enable each line appearance key assigned this feature to call forward to a different number or destination. For Centrex users using properly equipped Customer Provided Equipment with display capabilities, this feature displays the number currently programmed for the Call Forwarding feature.

8.4.2.11 Call Forwarding Over Private Facilities - Enables a station user to establish automatic forwarding of incoming calls to a specific private facility access group.

8.4.2.12 Call Hold - Allows a station user to hold a call in progress by dialing an access code, place another call and alternate between the two calls with privacy. With ISDN CPE, it allows the station user to hold an active call in progress by pressing a button to place or answer another call and alternate between the two calls with privacy.

8.4.2.13 Call Park - Provides the station user the ability to park a call against the station number. The parked call may be retrieved from any station in the Centrex group by dialing an access code and the station number parked.

Issued:

Effective:

Bernie Stevens, President  
PNG Telecommunications, Inc.  
4839 Business Center Way  
Cincinnati, Ohio 45246

In accordance with Case No. \_\_\_\_\_, issued \_\_\_\_\_.

## Section 8 - Centrex Services

Original Sheet No. 376

**8 Centrex Services (cont.)****8.4 Features (cont.)****8.4.2 Line Features (cont.)**

- 8.4.2.14 Call Pickup - Allows a station user to answer calls directed to another station line within the same pickup group by dialing an access code. Where available, incoming calls will be answered on a first in, first out basis (longest call answered first). ISDN station users may also invoke call pickup via a feature button with properly equipped CPE.
- 8.4.2.15 Call Request - Allows a station user to activate a call request to an idle or busy station. Additionally, provides the ability of a called station to activate a return call by using a feature button, when the station has received a call request.
- 8.4.2.16 Call Request with Queue - Allows a station user to activate a call request, by dialing an access code, to another station user that may be busy or idle. Additionally, this feature provides the ability of the called station user to return a call request, by dialing an access code, to the station user that initiated the call request. This feature requires that both the Centrex line that initiates the call request and the Centrex line that receives the call request be equipped with this feature.
- 8.4.2.17 Call Transfer - All - Allows incoming, outgoing, and intercom calls to be transferred to other Centrex stations.
- 8.4.2.18 Call Transfer (Inter-system) - Deluxe - Incoming, outgoing, and intercom calls may be transferred to other Centrex station numbers or other lines outside the Centrex group.
- 8.4.2.19 Call Waiting/Cancel Call Waiting - Provides station users with an audible tone to indicate that an incoming call is waiting. This feature can be activated and deactivated with the Cancel Call Waiting capability.
- 8.4.2.20 Called Number Display - Capability to display the called number with the proper Customer Provided Equipment.

Issued:

Effective:

Bernie Stevens, President  
PNG Telecommunications, Inc.  
4830 Business Center Way  
Cincinnati, Ohio 45248

In accordance with Case No. \_\_\_\_\_, Issued \_\_\_\_\_.

## Section 8 - Centrex Services

Original Sheet No. 377

**8 Centrex Services (cont.)****8.4 Features (cont.)****8.4.2 Line Features (cont.)**

- 8.4.2.21 Caller ID - Incoming numbers from outside the Centrex system are displayed on compatible Customer Provided Equipment. In addition the date and time of the incoming call is displayed. Free per Call Blocking Service is available for customers who are served from appropriately equipped central offices. Centrex Service customers may prevent delivery of their telephone numbers to Caller ID subscribers on a per call basis by activating the appropriate Caller ID activation code prior to placing the call.
- 8.4.2.22 Caller ID - Intercom - The caller's number, if not blocked, is displayed on compatible Customer Provided Equipment when an incoming Intercom call is received.
- 8.4.2.23 Calling Name Display on Intercom - Provides delivery of the calling name on calls from other station users within the Centrex system to station users with Electronic Key Line sets.
- 8.4.2.24 Calling Reason Display - In addition to a display of both the caller's number and the being called, this also indicates the reason a call has been forwarded.
- 8.4.2.24.1 Enhancement - provides more information on redirected calls.
- 8.4.2.25 CLASS Automatic Callback - (See Reference Section)
- 8.4.2.26 CLASS Call Screening - (See Reference Section)
- 8.4.2.27 CLASS Distinctive Ring - (See Reference Section)
- 8.4.2.28 CLASS Repeat Dialing - (See Reference Section)
- 8.4.2.29 CLASS Visual Message Waiting Indicator - Provides a visual indication when messages have been left for subscribers who also subscribe to compatible voice messaging systems. For subscribers with display sets or adjuncts, the date and time of the messages if the messaging service supplies this information are also displayed in addition to lighting the visual message indicator lamp.

## Section 8 - Centrex Services

Original Sheet No. 378

8 Centrex Services (cont.)8.4 Features (cont.)8.4.2 Line Features (cont.)

- 8.4.2.30 Conference Calling 3-Way - Allows a station user to add a third party to an existing call.
- 8.4.2.31 Consultation Hold - Allows a station user to hold a call in progress (incoming or outgoing) and originate another call with privacy.
- 8.4.2.32 Direct Connect Originating - Permits a station line to automatically dial a predetermined telephone number when the calling station line goes off-hook.
- 8.4.2.33 Direct Connect Originating with Delay - Permits a station line to automatically dial a predetermined telephone number when the calling station line goes off-hook. The customer can define the time delay, normally 1-20 seconds, after which the predetermined telephone number is dialed when the station user goes off-hook.
- 8.4.2.34 Direct Inward Dialing (DID) - Calls from outside the Centrex group may be dialed directly to each Centrex number.
- 8.4.2.35 Direct Outward Dialing (DOD) - Calls may be placed outside of the Centrex group without the aid of a system attendant.
- 8.4.2.36 Direct Station Selection/Busy Lamp Field with Fast Transfer - This provides a set of related features to allow appropriate Customer Premises Equipment to perform attendant console like functions.
  - 8.4.2.36.1 Direct Station Selection - provides properly equipped Customer Provided Equipment to monitor, via a busy lamp field, status of directory numbers that appear in the Electronic Key line group. It will also provide direct dialing to a monitored station by means of the feature key.
  - 8.4.2.36.2 Camp-On - allows the user to extend a call to a busy station. The call is held until the called party is free. If the called party does not answer the waiting call, then the station that extended that call is automatically recalled by the calling party.

## Section 8 - Centrex Services

Original Sheet No. 379

8 Centrex Services (cont.)8.4 Features (cont.)8.4.2 Line Features (cont.)8.4.2.36 Direct Station Selection/Busy Lamp Field with Fast Transfer (cont.)

8.4.2.36.3 Fast Transfer - allows the transfer of calls without having to conference the called party beforehand.

8.4.2.37 Directed Call Park - Provides the station user with the ability to park a call against another station number. The parked call may be retrieved from any station in the Centrex group by dialing an access code and the station number.

8.4.2.38 Directed Call Pickup - Allows a station user to answer calls directed at another station number within the Centrex group without regard to pick-up groups. This feature may be provided with barge-in, if requested.

8.4.2.39 Directed Number Hunt with Call Waiting and Preferential Hunt - Allows a line with Call Waiting to be a member of a directory number hunt group and allows a preferential hunt list for each member of the group.

8.4.2.40 Display Capability - For Centrex users with properly equipped Customer Provided Equipment having display capabilities, this feature also displays user-entered or incoming call information during the use of other Centrex features.

8.4.2.41 Distance Extension - Extends the effective working range beyond the normal working range. This arrangement will allow for the proper operation beyond these limitations within the same serving central office.

8.4.2.42 Distinctive Ringing and Call waiting Tone - Provides different ringing cadence for incoming calls from within the Centrex system verses outside the system. This feature also provides distinctive call waiting tones for calls coming from within the system verses outside the system for lines equipped with the Call Waiting capability.

8.4.2.43 End to End Signaling - Allows a station user, while in the talking state, to send Dual Tone Multi-Frequency (DTMF) digits to the other end by using a dial pad.

## Section 8 - Centrex Services

Original Sheet No. 380

**8 Centrex Services (cont.)****8.4 Features (cont.)****8.4.2 Line Features (cont.)**

- 8.4.2.44 Equal Access for Inter-ATA Calling - Allows each station line to use a predetermined Inter-Exchange Carrier without dialing any special codes. Override to an alternate carrier can be accomplished by dialing an appropriate Inter-Exchange Carrier code.
- 8.4.2.45 Executive Busy Override - Allows a station user to gain access to a busy station.
- 8.4.2.46 Executive Busy Override-Exempt - Denies access to a station user invoking Executive Busy Override.
- 8.4.2.47 Executive Display Communications - Allows a station user to leave and retrieve messages at an Electronic Key line set with display.
- 8.4.2.48 Feature Buttons - Allows a user to activate features or access trunk groups via buttons on a customer provided set.
- 8.4.2.49 Ground Start Line - Permits a Centrex Service line, equipped with ground start signaling, to be terminated in a PBX System, Automatic Call Distributor or Multifunction System (Hybrid), i.e., system that can be arranged through the common equipment to satisfy both the definition of Dial Private Branch Exchange Service and Button Telephone Service.
- 8.4.2.50 Group Intercom - Centrex users may be members of an intercom group of up to 99 members. Each member is assigned a unique 2 digit number. This intercom is separate and distinct from station to station intercom calling. Additional intercom capabilities offered, where available, are:
- 8.4.2.50.1 Individual Page - allows a Group Intercom member to page another group member using the built-in speaker on a properly equipped set. This capability is not applicable for ISDN.
- 8.4.2.50.2 All Calls - allows a Group Intercom member to simultaneously page up to 29 predefined members of the same Group Intercom group, using the built-in speaker on a properly equipped set. This capability is not applicable for ISDN.

## Section 8 - Centrex Services

Original Sheet No. 381

8 Centrex Services (cont.)8.4 Features (cont.)8.4.2 Line Features (cont.)8.4.2.50 Group Intercom (cont.)

8.4.2.50.3 Intercom Key - allows a user to directly terminate on a predesignated set by pressing the intercom key.

8.4.2.51 Hunting Arrangements - Incoming calls to a busy Centrex line are redirected to a predetermined number(s) to search for an idle line on which to complete the call. If no idle number is found, a busy tone is provided. These types are available:

8.4.2.51.1 Circular Hunt - permits a complete hunt over all of the station lines in a particular Multi Line Hunt Group (MLHG). Hunting starts with the dialed number and continues to the last terminal prior to the dialed number in the MLHG. Circular Hunt is only provided with Uniform Call Distribution, Preferential Hunt or Multiple Position Hunt (MPH).

8.4.2.51.2 Series or Serial Hunt - allows a limited number of Centrex lines to be programmed in either a sequential (consecutively numbered) or non-sequential (non-consecutively numbered) order for hunting purposes. Series hunting is done through the ordered list until an idle line is encountered or the end of the list is reached. Call handling line features can be added to the last directory number in the series to increase call completion probability. Series Completion redirects a call only once to any given line.

8.4.2.51.2.1 Enhancement - redirects a call from a busy directory number to another directory number giving greater flexibility by providing circular Call-Forward, Busy type chaining.

8.4.2.51.3 Distributed Line Hunting - starts the hunting at the first idle line after the previous hunt and continues until the starting point is reached.

## Section 8 - Centrex Services

Original Sheet No. 382

**8 Centrex Services (cont.)****8.4 Features (cont.)****8.4.2 Line Features (cont.)****8.4.2.51 Hunting Arrangements (cont.)**

**8.4.2.51.4 Multi-Line Hunt Group (MLHG)** - is a group of lines with common terminating (incoming call) features that are grouped together to share translation data. Hunting is provided by a common program (shared translation) for the group of lines. Each line is identified by a multi-line terminal number, not a Centrex number.

**8.4.2.51.4.1 Enhancement** - allows the assignment of Multiple Pilot Directory Numbers to a MLHG. Hunting can therefore begin at different points in the group depending on the number dialed.

**8.4.2.51.5 Non-Hunt Telephone Number** - - In an MLHG can contain station lines which have associated non-hunt directory numbers. If the station line is busy on a call, another call to the non-hunt number will receive busy treatment. These non-hunt numbers are not in the MLHG and do not have access to the MLHG or MPH features.

**8.4.2.51.6 Preferential Hunt** - permits a pre-hunt over a preferential list of station lines before hunting the entire MLHG. Each station can be associated with a particular preferential list within a MLHG.

**8.4.2.51.7 Secretarial** - allows more than one Centrex line to hunt to the same line in a linear pattern.

**8.4.2.51.8 Uniform Call Distribution (UCD) without queuing** - is furnished only on station lines equipped for Circle Hunt. This hunting feature provides equal distribution of incoming calls in a prearranged group. Calls in excess of the number of lines in the UCD group will not be held in queuing and will receive a busy tone. A make busy arrangement is required to busy out all lines in a group or single lines in a UCD group by operating a key.
