January 24, 2007

Ms. Renee Jenkins Docketing Division Chief The Public Utilities Commission of Ohio 180 East Broad Street Columbus, Ohio 43215-3793

RE: Case No. 07-0069-TP-ZTA

Dear Ms. Jenkins:

Enclosed for filing are an original and 10 copies of **Cincinnati Bell Telephone Company's** application to revise its tariff. This application is being submitted to add new offerings to the Lan Advantage Service, which provide customers with additional levels of security.

Included with this filing are the superseded tariff pages marked as Exhibit A and the new tariff pages marked as Exhibit B and a description of the proposed tariff changes marked as Exhibit C.

Any questions regarding this transmittal can be directed to me on 513-397-1296.

Sincerely,

Kathleen Reid

Regulatory Specialist

Kathleen Reid

# II. Please indicate which of the following exhibits have been filed. The numbers (corresponding to the list on page (1) and above) indicate, at a minimum, the types of cases in which the exhibit is required:

а	[all]	A copy of any motion for waiver of O.A.C. rule(s) associated with this filing. NOTE: the filing of a motion for waiver tolls any automatic timeframe associated with this filing.
0	[3]	Completed Service Requirements Form.
	[3, 9(vii)]	A copy of registrant's proposed tariffs. (Carrier-to-Carrier resale tariff also required if facilities-based)
0	[3]	Evidence that the registrant has notified the Ohio Department of Taxation of its intent to conduct operations as a telephone utility in the State of Ohio.
ū	[3]	Brief description of service(s) proposed.
0	[3a-b,3d]	Explanation of whether applicant intends to provide a resold services, a facilities-based services, or both resold and facilities-based services.
0	[3a-b,3d]	Explanation as to whether CLEC currently offers CTS services under separate CTS authority, and whether it will be including those services within its CLEC filing, or maintaining such CTS services under a separate affiliate.
	[3a-b,3d]	Explanation of how the proposed services in the proposed market area are in the public interest.
<u> </u>	[3a-b,3d]	Description of the proposed market area.
	[3a-b,3d]	Description of the class of customers (e.g., residence, business) that the applicant intends to serve.
	[3a-b,3d]	Documentation attesting to the applicant's financial viability, including the following:  1) An executive Summary describing the applicant's current financial condition, liquidity, and capital resources.  Describe internally generated sources of cash and external funds available to support the applicant's operations that are the subject of this certification application.  2) Copy of financial statements (actual and pro forma income statement and a balance sheet). Indicate if financial statements are based on a certain geographical area(s) or information in other jurisdictions
0	[3a-d]	3) Documentation to support the applicant's cash an funding sources. Documentation attesting to the applicant's technical and managerial expertise relative to the proposed service offering(s) and proposed service area.
	[3a-d]	Documentation indicating the applicant's corporate structure and ownership.
0	[3a-b,3d]	Information regarding any similar operations in other states. Also, if this company has been previously certified in the State of Ohio, include that certification number.
а	[3a-b,3d]	Verification that the applicant will maintain local telephony records separate and apart from any other accounting records in accordance with the GAAP.
8	[3a-b,3d]	Verification of compliance with any affiliate transaction requirements.
	[3a-b,3d]	Explanation as to whether rates are derived through (check all applicable):  interconnection agreement, in retail tariffs, or in resale tariffs.
0	[1,3a-b,3d]	Explanation as to which service areas company currently has an approved interconnection or resale agreement.
0	[3a-b,3d, 9a(i-iii)]	Explanation of whether applicant intends to provide Local Services which require payment in advance of Customer receiving dial tone.
<u> </u>	[3a,3b,3d, 9a,(i-iii)]	Tariff sheet(s) listing the services and associated charges that must be paid prior to customer receiving dial tone (if applicable).
C C	[3a-b,3d,8]	Letters requesting negotiation pursuant to Sections 251 and 252 of the Telecommunications Act of 1996 and a proposed timeline for construction, interconnection, and offering of services to end users.
	[3-5,7,10-11,13]	Certification from Ohio Secretary of State as to party's proper standing (domestic or foreign corporation, authorized use of fictitious name, etc.). In transfer of certificate cases, the transferee's good standing must be established.
0	[3-4,7,10-11,13]	List of names, addresses, and phone numbers of officers and directors, or partners.
	[3]	A sample copy of the customer bill and disconnection notice the applicant plans to utilize.
х	[1,4,9,10-13,16-21]	Copy of superseded tariff sheet(s) & price list(s), if applicable, marked as Exhibit A.
x	[1,4,9,10-13,16-21]	Copy of revised tariff sheets & price lists, marked as Exhibit B.
0	[3]	Provide a copy of any customer application form required in order to establish residential service, if applicable.
х	[1-2,4-7,9,12- 13,16,18-23,25]	Description of and rationale for proposed tariff changes, including a complete description of the service(s) proposed or affected. Specify for each service affected whether it is x business; $\square$ residence; or $\square$ both. Also indicate whether it is a $\square$ switched or $\square$ dedicated service. Include this information in either the cover letter or Exhibit C.

	[1,2,4,9a(v-vi),	Specify which notice procedure has been/will be utilized:   direct mail;   bill insert;   bill notation or   electronic mail.
	5,10,16,18(b-c),	NOTE:
	21]	☐ Tier 1 price list increases must be within an approved range of rates.
	•	☐ SLF Filings – Do NOT send customer notice until it has been reviewed and approved by Commission Staff
	[2,4-5,9a(v),	Copy of real time notice which has been/will be provided to customers.
	9b, 10,12-13,16,	NOTE: SLF Filings - Do NOT send customer notice until it has been reviewed and approved by Commission Staff
	18(b-c),20-21]	
	[1,2,5,9a(v),11-13,	Affidavit attesting that customer notice has been provided.
	18, 21(increase	
	only)]	
	[2,12]	Copy of Notice which has been provided to ILEC(s).
<u> </u>	[2,12]	Listing of Assigned (NPA) NXX's where in the LECs (NPA) NXX's would be reassigned.
	[2,4,10,12-13,]	List of Ohio exchanges specifically involved or affected.
	[14]	The interconnection agreement adopted by negotiation or mediation.
	[15]	For commercial mobile radio service providers, a statement affirming that registrant has obtained all necessary federal authority
	İ	to conduct operations being proposed, and that copies have been furnished by cellular, paging, and mobile companies to this
		Commission of any Form 401, 463, and / or 489 which the applicant has filed with the Federal Communications Commission.
	[15]	Exhibits must include company name, address, contact person, service description, and evidence of registration with the Ohio
		Secretary of State.
	[24]	Affidavit that total price of contract exceeds total cost of all regulated services.
	[5,13]	New title sheet with proposed new company name.
	[1,3,13]	For CLECs, List of Ohio Exchanges the applicant intends to serve (Use spreadsheet from:
		http://www.puc.state.oh.us/puco/forms/form.cfm?doc_id=357).
	[1,3a-b,3d,7,	Maps depicting the proposed serving and calling areas of the applicant.
1	10,13, 23]	If Mirroring Large ILEC exchanges for both serving area and local calling areas: • Serving area must be clearly reflected
-	1	on an Ohio map attached to tariffs and textually described in tariffs by noting that it is reflecting a particular large
1	į	ILEC/CLEC territory, and listing the involved exchanges. • Local calling areas must be clearly reflected on an Ohio map
1	i	attached to the tariffs, and/or clearly delineated in tariffs, including a complete listing of each exchange being served and all
		exchanges to which local calls can be made from each of those exchanges.
		If Self-defining serving area and/or local calling area as an area other than that of the established ILEC exchange(s): •
		Serving Area must be clearly reflected on an Ohio map attached to the tariffs, and textually described in tariffs by listing the
	7	involved exchanges. • Local Calling Areas must be described in the tariff through textual delineation and clear maps. Maps
	1	for self-defined serving and local calling areas are required to be traced on United States Geological Survey topography
1		1 of self-defined selving and local calling aleas are recipited to be mared off offices declosived out and topostability
		maps. These maps are the Standard Topographic Quadrangle maps, 7.5 minute 1:24,000.
0		maps. These maps are the Standard Topographic Quadrangle maps, 7.5 minute 1:24,000.  Other information requested by the Commission staff.
	[3]	maps. These maps are the Standard Topographic Quadrangle maps, 7.5 minute 1:24,000.

III. Registrant hereby attests to its compliance with the following requirements in the Service Requirements Form, as well as all pertinent entries and orders issued by the Commission with respect to these issues. Further, registrant hereby affirms that it will maintain with its TRF docket an up-to-date, properly marked, copy of the Service Requirements Form available for public inspection.

#### MANDATORY REQUIREMENTS FOR ALL BASIC LOCAL EXCHANGE AND CTS PROVIDERS:

- [x] Sales tax
- [x] Minimum Telephone Service Standards (MTSS)
- [x] Surcharges

#### MANDATORY REQUIREMENTS FOR ALL BASIC LOCAL EXCHANGE PROVIDERS:

[x] 1+ IntraLATA Presubscription

#### <u>SERVICE REQUIREMENTS FOR PROVISION OF CERTAIN SERVICES (CHECK ALL APPLICABLE):</u>

- Discounts for Persons with Communication Disabilities and the Telecommunication Relay Service [Required if toll service provided]
- ☐ Emergency Services Calling Plan [Required if toll service provided]
- ☐ Alternative Operator Service (AOS) requirements [Required for all providing AOS (including immate services) service]
- □ Limitation of Liability Language [Required for all who have tariff language that may limit their liability]
- Termination Liability Language [Required for all who have early termination liability language in their tariffs]
- ☐ Service Connection Assistance (SCA) [Required for all LECs]
- □ Local Number Portability and Number Pooling [Required for facilities-based LECs]
- □ Package Language [Required for tariffs containing packages or service bundles containing both local and toll and/or non-regulated services]

#### LAN ADVANTAGE® Native Mode LAN InterConnection

#### A. SERVICE DESCRIPTION

LAN Advantage® Service is an end-to-end high-speed data transport service which customers use for LAN interconnection and/or high-speed Internet access. (T) B. DEFINITIONS OF TERMS 1. "Asynchronous Transfer Mode" is defined as high-speed, cell-based, connection-oriented, packet **(T)** transmission protocol for handling data with varying bursts and bit rates. "Customer's location" is defined as a location specified by the customer for the purposes of terminating (N) network such as the customer's premises or the building where the off-premises extension terminates. (N)3. "Demarcation Point" is defined as the point of physical separation of CBT's network, and associated **(T)** responsibilities, from Customer's network and associated responsibilities. The location of the Demarcation Point shall be the physical interface for LAN Advantage® service presented by CBT to Customer. "Emulated LAN" (ELAN) is defined as a software-defined association of network elements whereby a **(T)** connectionless network topology is emulated over a connection-oriented network topology. ELANs are defined in the ATM Forum's LAN Emulation (LANE) 1.0 specification. 5. "Ethernet LAN" is defined as a type of LAN whereby a workstation on the LAN, prior to sending a **(T)** message to another workstation on the LAN, "listens" to determine if any other workstation is sending a message. If the first workstation "hears" no other messages being sent, it is permitted to send a message. If two or more workstations begin sending messages simultaneously, then each workstation ceases sending the message and a pre-set amount of time must elapse before either workstation may attempt to send again. Ethernet LAN meets IEEE standards 802.3 and 802.3u and operates at a variety of speeds. 6. "LAN Advantage®" is defined as the engineering, configuration, installation, maintenance and repair (T) services provided by CBT to Customer necessary to interconnect multiple LANs to form a MAN for data transmission. 7. "Local Area Network (LAN)" is defined as a network connecting computers and other peripheral **(T)** equipment for data communications over a limited geographical area, usually within a single building or among a few buildings. 8. "Metropolitan Area Network (MAN)" is defined as a network connecting computers and other peripheral **(T)** equipment for data communications over a larger geographical area than a LAN, usually within a city or region. 9. "Native Mode" is defined as the operating speed of the communication on the originating or terminating (T)LAN. Issued: November 15, 2004 Effective: November 15, 2004

## LAN ADVANTAGE® Native Mode LAN InterConnection

#### B. DEFINITIONS OF TERMS (Continued)

10. "Permanent Virtual Circuit" (PVC) is defined as a static logical connection used in packet and cell switched networks between two end points. PVCs support long-term ongoing connections between data termination equipment. Permanent logical paths are assigned exclusively to each permanent virtual circuit in the network.
11. "Protected Port" is defined as a primary and secondary port in both the central office and at the customer's location, which enables traffic to recover to a secondary route automatically in the event of a primary route failure, therefore protecting all of the customer's data.
(D)
12. "Unprotected LAN Advantage®" is defined as the standard LAN Advantage® Service.
(N)
13. "Virtual LAN (VLAN)" is defined as a static logical connection used in packet networks for point-to-point, point-to-multipoint, and multipoint-to-multipoint. Virtual LANs support long-term ongoing connections between data termination equipment. Permanent logical paths are assigned exclusively to each VLAN in

#### C. REGULATIONS

the network.

- CBT will provide LAN Advantage® service for one or more of the following types of LANs: Ethernet
   LANs operating at a variety of speed.
   (D)(T)
- 2. Regulations in this section are applicable to LAN Advantage®, and are in addition to regulations in other sections of this tariff.
- 3. A special educational offering under LAN Advantage® Service, called Regional MultiMedia Educational Network, is available for municipal, county, and state public schools and to parochial and private schools. Qualifying institutions are referenced in Section 7, Page 2, Part C (2) of this tariff. Regulations in this section are applicable to the Regional MultiMedia Educational Network Service, unless specified otherwise.
- 4. LAN Advantage® will be available 24 hours per day, 7 days per week, except as required to update, enhance, maintain and/or repair LAN Advantage®. CBT reserves the right to perform these tasks, as needed, during off-peak hours, normally on Sundays from 12:00 a.m. to 6:00 a.m.

## LAN ADVANTAGE® Native Mode LAN InterConnection

#### A. SERVICE DESCRIPTION

LAN Advantage® Service is an end-to-end high-speed data transport service which customers use for LAN interconnection and/or high-speed Internet access.

#### B. DEFINITIONS OF TERMS

- 1. "Asynchronous Transfer Mode" is defined as high-speed, cell-based, connection-oriented, packet transmission protocol for handling data with varying bursts and bit rates.
- 2. "Customer's location" is defined as a location specified by the customer for the purposes of terminating network such as the customer's premises or the building where the off-premises extension terminates.
- 3. "Demarcation Point" is defined as the point of physical separation of CBT's network, and associated responsibilities, from Customer's network and associated responsibilities. The location of the Demarcation Point shall be the physical interface for LAN Advantage<sup>®</sup> service presented by CBT to Customer.
- 4. "Diverse Route" is an optional service that offers an additional level of security to LAN Advantage by providing a transmission path to the customers serving central office that is different from the standard transmission path for the customer LAN Advantage Service. Both paths go to the customers serving central office.
- 5. "Diverse Central Office different path" is an optional service that offers an additional level of security to LAN Advantage by providing a transmission path that takes a different route from the standard transmission path for the customer's LAN Advantage service and goes to an alternative central office.
- 6. "Diverse Central Office same path" is an optional service that offers an additional level of security to LAN Advantage by providing a transmission path that takes the same route as the customers LAN Advantage service but travels through the customers serving central office to an alternative central office.
- 7. "Emulated LAN" (ELAN) is defined as a software-defined association of network elements whereby a connectionless network topology is emulated over a connection-oriented network topology. ELANs are defined in the ATM Forum's LAN Emulation (LANE) 1.0 specification.
- 8. "Ethernet LAN" is defined as a type of LAN whereby a workstation on the LAN, prior to sending a message to another workstation on the LAN, "listens" to determine if any other workstation is sending a message. If the first workstation "hears" no other messages being sent, it is permitted to send a message. If two or more workstations begin sending messages simultaneously, then each workstation ceases sending the message and a pre-set amount of time must elapse before either workstation may attempt to send again. Ethernet LAN meets IEEE standards 802.3 and 802.3u and operates at a variety of speeds.

## LAN ADVANTAGE® Native Mode LAN InterConnection

В.	DEFINITIONS OF TERMS (con't)					
	9.	"LAN Advantage®" is defined as the engineering, configuration, installation, maintenance and repair services provided by CBT to Customer necessary to interconnect multiple LANs to form a MAN for data transmission.	(M)			
	10.	"Local Area Network (LAN)" is defined as a network connecting computers and other peripheral equipment for data communications over a limited geographical area, usually within a single building or among a few buildings.	į			
	11.	"Metropolitan Area Network (MAN)" is defined as a network connecting computers and other peripheral equipment for data communications over a larger geographical area than a LAN, usually within a city or region.				
	12.	"Native Mode" is defined as the operating speed of the communication on the originating or terminating

### LAN ADVANTAGE® Native Mode LAN InterConnection

#### B. DEFINITIONS OF TERMS (Continued)

- 13. "Permanent Virtual Circuit" (PVC) is defined as a static logical connection used in packet and cell switched networks between two end points. PVCs support long-term ongoing connections between data termination equipment. Permanent logical paths are assigned exclusively to each permanent virtual circuit in the network.
- 14. "Protected Port" is defined as a primary and secondary port in both the central office and at the customer's location, which enables traffic to recover to a secondary route automatically in the event of a primary route failure, therefore protecting all of the customer's data.
- 15. "Unprotected LAN Advantage®" is defined as the standard LAN Advantage® Service.
- 16. "Virtual LAN (VLAN)" is defined as a static logical connection used in packet networks for point-to-point, point-to-multipoint, and multipoint-to-multipoint. Virtual LANs support long-term ongoing connections between data termination equipment. Permanent logical paths are assigned exclusively to each VLAN in the network.

#### C. REGULATIONS

- 1. CBT will provide LAN Advantage® service for one or more of the following types of LANs: Ethernet LANs operating at a variety of speed.
- 2. Regulations in this section are applicable to LAN Advantage®, and are in addition to regulations in other sections of this tariff.
- 3. A special educational offering under LAN Advantage® Service, called Regional MultiMedia Educational Network, is available for municipal, county, and state public schools and to parochial and private schools. Qualifying institutions are referenced in Section 7, Page 2, Part C (2) of this tariff. Regulations in this section are applicable to the Regional MultiMedia Educational Network Service, unless specified otherwise.
- 4. LAN Advantage® will be available 24 hours per day, 7 days per week, except as required to update, enhance, maintain and/or repair LAN Advantage®. CBT reserves the right to perform these tasks, as needed, during off-peak hours, normally on Sundays from 12:00 a.m. to 6:00 a.m.

### **EXHIBIT C – DESCRIPTION OF REVISIONS**

With this application Cincinnati Bell Telephone Company is adding new features to the Lan Advantage Tariff. These new features provide additional levels of reliability for the Lan Advantage services. The charges for these features will be in addition to the monthly charges for the Lan Advantage ports.
