Date TRF Docket No. 90 - 5003 - TP-TRF

Motion for protective order included with filing? ☐ Yes ☒ No

Motion for waiver(s) filed affecting this case? ☐ Yes ☒ No [Note: waiver(s) tolls any automatic timeframe]

NOTE: This form must accompany all automatic approval/notice applications filed by incumbent local exchange companies (ILECs) not subject to a qualifying alternative regulation plan when making an application pursuant to Case Nos. 84-944-TP-COI and 86-1144-TP-COI or 89-564-TP-COI.

I. Please indicate the reason for submitting this form (check one)

- ☐ 1 (AEC) Application For Approval Of A Customer Contract For Competitive Services
 ☐ a. Stand-Alone Contract (90-day approval, 7 copies)
 ☐ b. Pre-Approved Contract (0-day notice, 7 copies)
- ☐ 2 (ACO) ILEC Application for Change in Ownership Pursuant to 4905.402, Ohio Revised Code (30-day approval, 10 copies)
- ☐ 3 (ALI) Small, For-Profit, ILEC Application For A Limited Increase In Non-Basic Rates (60-day approval, 10 copies)
- ☒ 4 (ATA) Application For Tariff Amendment That Does Not Result In An Increase In Rates
 ☐ a. Large ILEC, Competitive Offerings Other Than Those Listed Under 5., Below (60-day approval, 7 copies)
 ☒ b. Small, for-profit ILECs (45-day approval, 10 copies)
- ☐ 5 (ZTA) Tariff Application Not For An Increase In Rates Involving Message Toll, Toll-Free Service, 900 And 900-Like Services, 500 Service, Calling Card, Prepaid Calling Card, Private Line, and Speed Dialing In Accordance With Waiver Granted in 99-563-TP-COI (5/11/2000 and 11/21/2002) (0-day notice, 7 copies)
- ☐ 6 (NFP) Small, not-for-profit ILEC tariff amendment
 ☐ a. Tariff Change Not Resulting In An Increase In Rates (0-day notice, 7 copies)
 ☐ b. Tariff Application Resulting In An Increase In Non-Basic Rates (45-day notice, 7 copies)
 ☐ c. Tariff Application Resulting In An Increase In Basic Rates (60-day notice, 10 copies)

THE FOLLOWING ARE TRF FILINGS ONLY, NOT NEW CASES (0-day notice, 3 copies)

- ☐ 7 Introduction or Extension of Promotional Offering (10-day notice, 3 copies)
- ☐ 8 New Price List Rate Within an Approved Rate Range for Existing Competitive Service

II. The following exhibits corresponding to the list of cases above, at a minimum, are required to be filed:

<input checked="" type="checkbox"/>	3, 4, 5, 6	Current Tariff Sheets (to be superseded), if applicable
<input checked="" type="checkbox"/>	3, 4, 5, 6	Proposed Tariff Sheets
<input checked="" type="checkbox"/>	2, 3, 4, 5, 6	Rationale or Explanation for Change
<input type="checkbox"/>	1.a., 4.a.	Justification for Competitive Treatment
<input type="checkbox"/>	1.a., 4.a.	Cost support for non-MTS service
<input type="checkbox"/>	2, 3, 4, 5, 6, 8	Customer Notice to customers affected by proposal, and statement as to the form and timing of the notice
<input type="checkbox"/>	1	Copy of Contract

- III. Applicant is filing this application under the regulatory requirements established by the Commission in Case No. 89-564-TP-CO1.
- IV. Applicant respectfully requests the Commission to permit the filing of the proposed tariff sheets, to become effective on the date shown on the proposed tariff sheets (which is a date no earlier than the day after the applicable automatic approval date), modified by any further revisions that have become effective prior to the effective date of the proposed schedule sheets.

Respectfully submitted,

Arcadia Telephone Company

LOCAL EXCHANGE SERVICE TARIFFS

CENTREX SERVICE

(N)

A. General

1. Centrex Service is a central office-based, flat rate, business communications service which provides capabilities similar to those offered on a Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business/residence customer's lines into a single telecommunications system. Centrex is not provided in association with public or semi-public telephone service.
2. All Centrex lines shall be equipped with touchcall signaling, but will not be subject to Touchcall rates as set forth in Section 5 of this tariff.
3. The minimum charge for services provided under this tariff shall be one (1) month.
4. Vacation rates for Centrex lines or services are not offered.
5. A Centrex customer must have a minimum of two (2) Centrex lines.
6. Centrex lines are not subject to Local Exchange Service Rates as set forth in Section 4 of this Tariff.
7. Centrex lines are not subject to the Rotary Service (Trunk Hunt) rates as set forth in Section 5 of this Tariff.
8. All station lines will be equipped with the standard system features as set forth in B.1.
9. Exchange lines terminating at different locations of the customer may be combined into a Centrex Service group arrangement, however, all exchange lines terminating in the group must be served by the same central office.

ARCADIA, OHIO

P.U.C.O. NO. 8
LOCAL EXCHANGE SERVICE TARIFFS

CENTREX SERVICE

(N)

C. CONDITIONS

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, without charge. Additional listing(s) are offered subject to the provisions set forth in Section 5, Sheet 4 of this Tariff.
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switching/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect. Residential service is only offered on a month-to-month basis.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company initiated changes during the selected service contract period.

GENERAL EXCHANGE SERVICE TARIFFS

MISCELLANEOUS SERVICE ARRANGEMENTSCOMBINATION MAIN STATION SERVICE

A. General

Combination Main Station Service applies to cases where a customer wishes to contract for a main station service at each of two separate locations (ordinarily each station will be assigned a separate telephone number) within the same exchange, so as to be able to answer calls for one main station at the other main station location or both stations at either location. (N)

B. Rates

	<u>S & E</u> <u>Code</u>	<u>Monthly</u> <u>Rate</u>	<u>NRC</u>
1. Individual Residence and/or Business Line (See Condition 3)	(1)	(1)	(2)
2. Extension (See Condition 4)	(1)	(1)	(2)

C. Conditions

1. Combination Main Station Service is provided only in connection with individual business and residence lines and is furnished subject to the ability of the Telephone Company to provide satisfactory transmission and signaling arrangements and to the rate treatment outlined herein.
2. Combination Main Station Service may be employed where one station is at a business location and the other at a residence or where both stations are at either business or residence locations, but only in connection with services contracted for and used by the same customer.
3. Each main station is charged for at the established individual line business or residence rate, according to the classification of the service at each premises as to business or residence character. (N)

(1) Applicable codes and monthly rates for the individual line service provided--See Section 4.

(2) Service Connection Charges--See Section 6.

GENERAL EXCHANGE SERVICE TARIFFS

MISCELLANEOUS SERVICE ARRANGEMENTSNUISANCE CALL SERVICE

A. General

Nuisance call service provides the customer with the capability of holding those calls received that are determined to be of a nuisance call nature for future tracing by the Telephone Company.

(N)

B. Rates

	<u>S & E Code</u>	<u>NRC</u>
1. Initial Hold & Trace Equipment		(1)(2)
2. Each Trip Required for Tracing		
a. Normal Working Hours, per hour or fraction		(2)
1) Minimum Charge		
b. After Normal Working hours, per hour or fraction		
1) Minimum Charge		
3. Remove Hold & Trace Equipment		(2)

C. Conditions

1. The customer will have to go to another line and report that a nuisance call is being held and request tracing.
2. The Company will only release the source of nuisance calls obtained from the hold and trace, to law enforcement agencies engaged in conducting an investigation at the customer's request.
3. The Company will require the customer to sign a form requesting nuisance call service and giving the Company the authority to provide the hold and trace equipment to their central office line.

(N)

(1) Subsequent Service Order Charge--See Section 6, Sheet 17.

(2) Central Office Wiring Charge--See Section 6, Sheet 17.

B. SERVICE DESCRIPTIONS

1. **Call Forwarding**
This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
2. **Call Forwarding-Busy (Customer Programmable)**
This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.
3. **Call Forward-No Answer (Customer Programmable)**
This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
4. **Call Forwarding-Remote Access**
This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

B. SERVICE DESCRIPTIONS (Continued)

5. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

6. Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

7. Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

8. 3-Way Calling

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

9. Do-Not-Disturb

This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.

GENERAL EXCHANGE SERVICE TARIFF

CUSTOM CALLING SERVICE

B. SERVICE DESCRIPTIONS (Continued)

10. Warm Line

This service allows a call to be automatically placed to a pre-assigned number determined by the customer. The call will be placed once the customer's phone has been off-hook for a predetermined time-out period. The time-out period may be set at 1 to 14 seconds. During the time-out period the customer will receive a normal dial tone and can originate calls. Once the time-out period has expired, a call is automatically placed to the pre-assigned number as programmed by the Company.

11. Home Intercom - Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

12. Personal Ringing

This service allows the customer to have up to two distinct telephone numbers on a single line. The second number will have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main and second directory telephone numbers can be forwarded.

13. Call Transfer¹

(T)

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

¹ As of January 23, 2004, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it.

GENERAL EXCHANGE SERVICE TARIFF

CUSTOM CALLING SERVICE

B. SERVICE DESCRIPTIONS (Continued)

14. Call Hold

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

15. Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

16. Call Transfer Enhanced

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

TERMINAL EQUIPMENT

FIRE REPORTING SYSTEM

A fire alarm circuit to which a number is assigned is located in the central office. Telephones at the volunteer firemen's premises are connected to it by means of the same circuit that connects the subscriber station equipment to the central office. When the fire number is dialed to report a fire, telephones at the premises of the volunteers connected to the circuit ring, and all are connected together in a conference type arrangement so that the report of the fire can be taken by the various firemen.

Monthly rate for this service is \$1.50 per month for each station connected and served, with a minimum of 10 stations connected.

Additions to the system must be made in increments of 10 units each at \$1.50 per month for each unit added and served.

LOCAL EXCHANGE SERVICE

CENTREX SERVICE

A. General

1. Centrex Service is a central office-based, flat rate, business communications service which provides capabilities similar to those offered on Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines in to a single telecommunications system. Centrex is not provided in association with public or semi-public telephone service.
2. All Centrex lines shall be equipped with touch call signaling, but will not be subject to Touchcall rates as set forth in Section 5 of this tariff.
3. The minimum charge for services provided under this tariff shall be one (1) month.
4. Vacation rates for Centrex lines or services are not offered.
5. A Centrex customer must have a minimum of two (2) Centrex lines.
6. Centrex lines are not subject to Local Exchange Service Rates as set forth in Section 4 of this Tariff.
7. Centrex lines are not subject to the Rotary Service (Trunk Hunt) rates as set forth in Section 5 of this Tariff.
8. All station lines will be equipped with the standard system features as set forth in B.1.
9. Exchange lines terminating at different locations of the customer may be combined into a Centrex Service group arrangement; however, all exchange lines terminating in the group must be served by the same central office.

LOCAL EXCHANGE SERVICE

CENTREX SERVICE

C. CONDITIONS

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, with out charge. Additional listings(s) are offered subject to the provisions set forth in Section 5, Sheet 4 of this Tariff.
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switched/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company initiated changes during the selected service contract period.

SPECIAL SERVICE AND FACILITIES

A. General

Special service and facilities, not ordinarily used in furnishing of telephone service and not otherwise mentioned in, provided for or contemplated by the tariff schedules of the Telephone Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, not to exceed one year, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Telephone Company. In the event of any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Telephone Company, the Telephone Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber, and provided further that the Commission may terminate such contract wherever, in its opinion, public interest requires such termination.

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE

A. GENERAL

1. Custom Calling Features are offered where facilities permit and capacity is available in the serving central office.
2. The service is available on individual line, business and residence exchange services, excluding Paystation Service (except for the business line extension), Private Branch Exchange, Trunk Line Service, or Centrex Service.
3. The Company will provide the customer with proper dialing instructions to operate all Custom Calling Services at the time service is furnished.

B. SERVICE DESCRIPTIONS

1. **Call Forwarding**
This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
2. **Call Forwarding-Busy (Customer Programmable)**
This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.
3. **Call Forward-No Answer (Customer Programmable)**
This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
4. **Call Forwarding-Remote Access**
This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE

B. SERVICE DESCRIPTIONS (Continued)

5. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

6. Speed Call 8

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

7. Speed Call 30

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

8. 3-Way Calling

This service allows a customer to add a third party to an existing telephone call. To add a third party, the customer depresses the switchhook once to place the current party on hold, receives a dial tone, dials the third party's number, and then depresses the switchhook again to establish the three-way connection. All 3-way calls are subject to transmission limitations and all applicable local and long distance charges.

9. Do-Not-Disturb

This service prevents incoming calls from ringing at the customer's premises. Callers will reach a recording which states that the number they have dialed is not accepting calls at this time and to try again later. A personal identification number (PIN) is available to allow selected callers the ability to override this service in order to reach the customer.

ARCADIA, OHIO

(M)

(M)

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE

(M)

B. SERVICE DESCRIPTIONS (Continued)

10. Warm Line

This service allows a call to be automatically placed to a pre-assigned number determined by the customer. The call will be placed once the customer's phone has been off-hook for a predetermined time-out period. The time-out period may be set at 1 to 14 seconds. During the time-out period the customer will receive a normal dial tone and can originate calls. Once the time-out period has expired, a call is automatically placed to the pre-assigned number as programmed by the Company.

11. Home Intercom - Basic

This service allows customers to redial their own directory number in order to talk to another party at a different extension. To activate this service, customers redial their own directory number and then hang-up. After a short interval, the phone will ring back. Once both parties pick-up the phone, they will be able to have a two-way conversation. This service is also known as Revertive Ringing.

12. Personal Ringing

This service allows the customer to have up to two distinct telephone numbers on a single line. The second number will have a distinctive ringing pattern so the customer can identify which number has been called. If a customer also subscribes to Call Waiting, each phone number will have a distinctive Call Waiting tone. If a customer also subscribes to Call Forward, the main and second directory telephone numbers can be forwarded.

13. Call Transfer¹

This service allows the customer to hold and transfer incoming, out-going and intragroup calls. If the customer has established a three way call, this service will allow the customer to hang up while the other two parties remain connected. Any applicable long distance charges will apply for the duration of the call, even if the customer drops off the call.

¹ As of January 23, 2004, this service will no longer be available to new customers. Once current customers disconnect this service, they will not be able to reestablish it.

ARCADIA, OHIO

MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE

(M)

B. SERVICE DESCRIPTIONS (Continued)

14. Call Hold

This service allows a customer to place a current caller on hold, which frees the line so the customer can initiate another call. To activate Call Hold, the customer depresses the switchhook to receive a dial tone and then dials a specific code. Only one call per access line can be placed on hold at a time. The held call cannot be added to another call, however, the customer can toggle between each call.

15. Toll Restriction

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

16. Call Transfer Enhanced

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

EXHIBIT C

The Applicant, **Arcadia Telephone Company**, hereby wants to delete obsolete services, move Custom Calling and Special Service and Facilities to the appropriate section, and revise miscellaneous text.

The obsolete services the Applicant is deleting are Key Trunk Residence offering, Centrex Residence Offering, Combination Main Station Service, Fire Reporting System, Nuisance Call Service, and Special Assemblages of Equipment. Key Trunk and Centrex Services are business applications that are not a viable option for residence customers. Combination Main Station Service is offered through Off Premise Extension Service. Fire Reporting System has been replaced by 911 or E911 Service, and Advanced Calling Services Call Trace replaces Nuisance Call Service. Special Assemblages of Equipment is deregulated.

Customer Calling Services and Special Service and Facilities are being moved from Section 7 "Customer Premise Equipment" to Section 5 "Miscellaneous Service Arrangements."

Miscellaneous Text changes include adding or revising Section Titles in the headers, adding or revising other titles in the body, revising Table of Contents Section Names, and removing "Customer Relocation Forwarding" from the General Subject Index as that service was inadvertently added to the General Subject Index. Customer Relocation Forwarding is not being offered nor has it been offered previously.

No rate changes are being processed with this filing and there are no customers currently on the obsolete services the company is proposing to delete. Consequently, the Company decided the requirement to send out a customer notice was not necessary for this tariff filing revision.
