EXHIBIT C

The Applicant, **Oakwood Telephone Company**, hereby wants to delete obsolete services, add back Special Service and Facilities, and revise miscellaneous text.

The obsolete services the Applicant is deleting are Centrex Residence Offering, Combination Main Station Service, Fire Reporting System, and Nuisance Call Service. Centrex Services is a business application that is not a viable option for residence customers. Combination Main Station Service is offered through Off Premise Extension Service. Fire Reporting System has been replaced by 911 or E911 Service, and Advanced Calling Services Call Trace replaces Nuisance Call Service.

Special Service and Facilities is being added back into the tariff. This service was inadvertently removed with the deregulation of Public Telephones.

Miscellaneous Text changes include adding or revising Section Titles in the headers, adding or revising other titles in the body, revising Table of Contents Section Names, and removing "Joint User Service" from the General Subject Index as that service is not offered nor has it been offered previously.

No rate changes are being processed with this filing and there are no customers currently on the obsolete services the company is proposing to delete. Consequently, the Company decided the requirement to send out a customer notice was not necessary for this tariff filing revision.
