RE: An Offer to Allow a Return to Firm Electric Service

Dear _____:

A recently issued Opinion and Order by the Public Utilities Commission of Ohio in Case No. 05-796-EL-CSS, allows for <Enter FE Operating Company Name> to offer you this opportunity to cancel, without penalty, your interruptible tariff or contract with interruptible provisions and return to any available and applicable firm service tariff for which your facility would qualify.

The decision is totally yours. If you would like to return to firm electric service, please complete the attached form and return it to me at the address set forth above within 90 days of the date of this letter. Upon receipt of the form, your service will be switched over at the next reasonable meter read date once all changes to wiring or metering or any other prerequisites required by the new qualifying rate schedule have been completed. Please note that nothing in this letter should be interpreted as modifying in any way any previous notification of program termination that you may have received, nor will a lack of action on your part affect, if applicable, any agreed upon contract cancellation or expiration date.

Should you need assistance or have any questions regarding this offer, please contact your Account Manager:
