CONSTRUCTION, INSTALLATION, AND MAINTENANCE CHARGES

A. GENERAL

1. Lines will be extended in accordance with provisions specified in paragraphs D-1, 2, 3 Line Extensions, of this Tariff.
2. Special charges in the form of installation charges, monthly charges, or both, are applied in addition to the usual service connection charges and monthly rates when, because of the sporadic or occasional nature of the service or an unusual investment or expense, as for example:
  - a. The facilities are provided in remote or undeveloped sections within the Exchange Area.
  - b. Conditions require the provisions of special equipment of unusual methods of plant construction, installation or maintenance.
  - c. The customer's location requires the use of costly private right of way.
3. Title to all construction, as specified in C below, provided wholly or partly at the customer's expense is vested in the Telephone Company.
4. By "cost" is meant the cost of labor and materials including the usual supervisory expenses.
5. When attachments are made to poles of other companies, in lieu of providing construction for which the customer would be charged under the provisions hereof, the cost to the Telephone Company for such attachments is borne by customer.
6. The customer is required to pay construction charges as made by another company providing facilities connecting with the facilities of the Telephone Company.
7. Construction charges will not apply to the customer's aerial drop which extends from the last pole to the building in which the telephone is located.

4. Vacation rates for Centrex lines or services are not offered.

CENTREX SERVICE

C. CONDITIONS

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, with out charge. Additional listings(s) are offered subject to the provisions set forth in Section IV, Page 12 of this Tariff.
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switched/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company initiated changes during the selected service contract period.
