2. Regulations (Cont'd)

2.10 Use of Service (Cont'd)

2.10.2 Bundled Services

When a customer purchases a package or bundle of services that includes both basic local exchange service, which may include other regulated services, and toll service and/or any non-regulated products or services, and the customer fails to submit timely payment for the entire package or bundle, whether by non-payment or by partial payment, the Company may discontinue the provision of any regulated and non-regulated products or services included in the package, other than basic local exchange service, if payment is sufficient to cover basic local exchange service. The company may charge the customer for basic local exchange service at the tariffed rate for stand-alone basic local exchange service.

A notice of disconnection for nonpayment shall state the total amount due to avoid discontinuance of the package, as well as the total amount due to avoid discontinuance of the basic local exchange service component of the package. In no event shall a customer be charged more than the price of the package or bundle of services. Further, the customer shall be entitled to add, change or discontinue any regulated services provided according to the Company's normal procedures for adding, changing or discontinuing such services.

2.10.3 No Fault Found Dispatch Charge for Business Customers

The Customer is responsible for the payment of a No Fault Found Dispatch Charge for Business Customers when:

- after trouble-shooting by the Company and/or the Customer, including troubleshooting via the Network Interface Device (NID) if one exists, the Customer requests that maintenance personnel visit the Customer's premises, and
- as a result of the visit, the proper functioning of the Verizon Business service is confirmed (i.e., the cause of the trouble condition was other than a malfunction of a Verizon Business service or of Verizon Business maintained equipment). This can include, but not be limited to, customer requested dispatches:
 - where the root cause of a trouble is proven to be within the scope of the customer's or customer's vendor-owned equipment not maintained by Verizon Business;
 - where the root cause of a trouble has been proven to be within the scope of the customers or customer's vendor-owned inside wiring;
 - to provide Verizon Business technical assistance to the customer or customer's vendor in performing specific testing to isolate a problem which has been proved off the Verizon Business network and is not within any Verizon Business contract supported area;
 - to provide Verizon Business technical assistance to the customer or customer's vendor in isolating or repairing a fault or installation support for areas not within Verizon Business contract supported equipment, network or services; and
 - in which the root cause of a trouble has been proven to be off the Verizon Business network and is not within any Verizon Business contract supported area and proves to be within the scope of the customer's or customer's vendor-owned network.

If the customer or the customers vendor does not take the necessary steps to troubleshoot the customers equipment, and the Company is unable to determine, through remote troubleshooting, that the Verizon Business service is properly functioning, the customer will be notified by the Company that the No Fault Found charge may be applicable if the problem is outside the Company's area of responsibility.

The charges are non-recurring, and are charged per visit. Charges are not regulated by the PUCO and are determined by the Company.
