SECTION 4 - LOCAL SERVICE. CONT'D

4.6 PrimeXpress Network Service (Cont'd)

4.6.2 PrimeXpress High Volume Inbound Calling Option: PrimeConnect

(C)

Digital PrimeXpress Network Service can be configured to support high volumes of inbound calling. PrimeConnect is the High Volume Inbound Calling Option that: 1) supports a maximum of two rate centers per DSl facility or T1 trunk, 24 DSOs, within the TCG designated service area, 2) supports inbound calling only, 3) equals or exceeds an average call duration of 10 minutes per call, 4) equals or exceeds CCS loading of 32 CCS, and 5) equals or exceeds 200,000 MOU per month. The customer will be charged rates for PrimeConnect Service as described in Section 8. The Company reserves the right to audit the customer's PrimeXpress usage for the above conditions.

The Customer is required to subscribe to a sufficient number of DSl trunks at a maximum usage of 400,000 MOU per month so as not to degrade the TCG network below an incoming call completion rate of 99%. The call completion rate is based on an average of the busy hours occurring during the customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the customer to increase the number of PrimeConnect trunks to satisfy the call completion criteria listed above.

(C)

A. PrimeConnect Customer Access Requirements

(N)

PrimeConnect supports inbound calling only, and does not include outbound calls to Operator Assisted Services, Special Service Codes, Special Access Codes or Carrier Access Codes. The customer is responsible for securing individual business lines, or other appropriate facilities, to access these services and/or codes, including:

- Conference Calls,
- Calls to Special Service Codes including 500, 700, 900, 976, N11 (where N = 2-9) or other special service codes that may be created, or
- Calls to 0 and 00

- B. PrimeConnect is intended solely for the purpose of providing local and intraLATA non-toll access into a customer's location. In the event that local and intraLATA non-toll calls placed into a customer's location become subject to additional charges imposed by connecting carriers or by regulation, the Company reserves the right to modify the facility rate charges for traffic into the location upon 30 days written notice to the customer. The customer has the option to accept the rate change(s) or terminate the contract without penalty, unless specifically bound to specific commitments associated with capital recovery, special construction, or other issues written into the customer's contract or agreement with the Company over and above the normal terms and conditions of the contract or agreement.

SECTION 4 - LOCAL SERVICE. CONT'D

4.10 TCG PrimePlex PRI Service (Cont'd.)

E) Conditions (Cont'd.)

11) PrimePlex PRI High Volume Inbound Calling Option:
PrimeConnect PRI

(C)

At the Company's discretion, the Company may reconfigure the customer's service from PrimePlex PRI to PrimeConnect PRI Service if the customer's PrimePlex PRI usage meets one or more of the following criteria:

1) supports a maximum of two rate centers per PRI facility or T1 trunk, 23B + 1D channel, within the TCG designated service area, 2) supports inbound calling only, 3) equals or exceeds an average call duration of 10 minutes per call, 4) equals or CCS loading of 32 CCS, and 5) equals or exceeds 200,000 minutes of use (MOU), per PRI, per month. The customer will be charged rates for PrimeConnect PRI Service as listed in Section 8. The Company reserves the right to audit the customer's PrimePlex PRI usage for the above conditions.

(C)

a. The customer is required to subscribe to a sufficient number of DS1 trunks at a maximum usage of 400,000 MOU per month so as to not degrade the TCG network below an incoming call completion rate of 99%. The call completion rate is based on an average of the busy hours during the customer's busiest hours during the billing cycle. Once the service has been established, the Company may require the customer to increase the number of PrimeConnect PRI trunks to satisfy the call completion criteria listed above.

(N)

b. PrimeConnect PRI Customer Access Requirements

PrimeConnect PRI supports inbound calling only, and does not include outbound calling to Operator Assisted Services, Special Service Codes, Special Access Codes or Carrier Access Codes. The customer is responsible for securing individual business lines, or other appropriate facilities, to access these services and/or codes, including:

- Conference Calls
- Calls to Special Service Codes including 500, 700, 900, 976, N11 (where N = 2-9) or other special codes that may be created, or
- Calls to 0 and 00

(N)

Material previously appearing on this sheet now appears on Sheet 35.6.1.

SECTION 4 - LOCAL SERVICE. CONT'D

4.10 TCG PrimePlex PRI Service (Cont'd.)

L) Incoming Redirect Option (Cont'd.)

1) Application of Rates

Incoming Call Redirect rates consist of a non-recurring and a monthly recurring charge per T1, and a nonrecurring charge per change or group of changes requested in a Customer's listing of Redirected Numbers or Destination Numbers.
