Re: American Municipal Power Ohio, Inc. / 1100 MW Generation Facility
Case No. 06-1358 EL-BGN

Dear Ms. Young:

In November, 2005, you inquired to the Ohio Power Siting Board regarding the proposed American Municipal Power Ohio, Inc. (AMP-Ohio) generating station. At that time, no application had been received by the Board and a letter was sent to you stating that if an application was received by the Board, your comments would be placed on the official docket.

This letter is a follow-up to inform you that AMP-Ohio filed an application to the Ohio Power Siting Board for a Certificate of Environmental Compatibility and Public Need on May 4, 2007 and therefore, your letter of November 2005 has now become part of the official docket for this case.

Presently Staff is reviewing the application for completeness. After Staff has concluded its investigation, the applicant will be required to provide further public notice regarding a future public hearing specific to the OPSB investigation for this project. Should you wish to view activity involving this application, please visit our web site at www.OPSB.ohio.gov.

Very truly yours,

Klaus Lambeck, Chief
Ohio Power Siting Board

Subject:

I am not sure who to contact. ODNR said power plant licensing is not in their jurisdiction.

I live in Meigs County Ohio where AMP recently announced their plans to build a power plant. There are 4 existing power plants bordering our county, many people sick with cancer and asthma, and I would like to request public meetings.

Can you send me an outline or flow chart of the process for licensing a power plant, including contacts, that includes opportunities for community involvement and environmental studies?

Who can I contact to ask where things stand with PUCO hearings on AEP's proposed IGCCs?

If the 2 IGCCs and AMP's power plants go here, that will create 7 power plants within a 7 mile radius from our farm and I am concerned about impacts.

RE: AMP OHIO

Bruce Johnson
Ohio Department of Development

Dear Ms. Young:

Nick Baird, M.D.
Ohio Department of Health

Thank you for your inquiry regarding the proposed AMP OHIO coal-fired power plant. As with the consideration of all generating facilities, local and surrounding businesses, residents, municipalities and officials are invited to discuss the present and long-term economical and environmental feasibility of such a project.

Samuel W. Speck
Ohio Department of Natural Resources

At present, the Board has not received AMP OHIO's application for this project. However, we appreciate all input into the siting process. Once their case has been filed, your letter will be placed in the official docket and shared with other members of the Board. The Board carefully considers all potential impacts associated with the siting of such a project.

Fred L. Dailey
Ohio Department of Agriculture

Public Member

Legislative Members

To best serve all interests, I have enclosed a *Citizen Participation Guide* to assist in the understanding of and participation in our siting process. At this time no public hearings are scheduled. Once our review is complete, the applicant is required to publish appropriate notice of all hearings in local newspapers of general circulation in the area. Should you wish to view activity involving this application or to see a flow chart of the siting process, please visit our web site at www.puc.state.oh.us. Again, the Board thanks you for your interest.

Senator Robert Schuler

Senator Robert F. Hagan

Representative John Hagan

Representative Steven Oriolhaus
