P. U. C. O. NO. 3

SECTION NUMBER 1
SCHEDULE OF RATES

- A. The classifications and rates set forth in this section apply to the total service area of the Oakwood Mutual Telephone Company as depicted on Section 11, Original Sheet 8, PUCO No. 3. The authorized rates entitles subscribers to toll free calling to subscribers of the Arthur Mutual Telephone Company, the Grover Hill and Continental Exchanges of the Continental Telephone Company in addition to other subscribers of the Oakwood Exchange.

	<u>Monthly Rate</u> ^{1,2}	(T)
Business - Access Line	\$ 21.07	(C)
Residence - Access Line	12.77	(C)
PBX Trunks	31.22	(N)
Key Trunks	26.22	(N)

¹ Includes Tel-Touch Service.

² Effective July 9, 2007, the rates for Residential and Business customers who do not have Tel-Touch Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Tel-Touch Service.

H. CUSTOM CALLING SERVICES

Custom Calling Services are optional services offered in addition to regular exchange service to those customers served by central offices arranged to provide such services. The number of Custom Calling Services available depends upon the exchange central office providing the service and is subject to the availability of its facilities.

1. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

2. Call Forwarding

This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.

This service is available on a flat monthly rate and a pay-per-use basis. Pay-per-use Call Forwarding will have a per activation rate and a monthly price cap. After the monthly price cap has been reached, each activation thereafter will be at no charge.
