Sprint Unlimited V Market Test

Sprint will offer Sprint Unlimited V as a market test to residential customers during a save or winback attempt. This market test is available to customers for a monthly recurring charge that can be found in Sprint's interstate Residential Schedule located at www.sprint.com/ratesandconditions. For a Monthly Recurring Charge (MRC) the customer will receive unlimited state-to-state, in-state and/or intraLATA Dial-1 long distance usage each month. The term usage does not include usage from multi-party conference calls, calls to 555, 700, 900, or 976 NPAs, calls to Directory Assistance, FÖNCARD Service, operator service or inbound toll free service. All call placement charges, connection fees and surcharges apply per call. FÖNCARD usage will be rated at \$.69 per minute. A per call connection fee of \$.99 will also apply to FÖNCARD calls. This market test is an add-on to the interstate Unlimited V Market Test and is not available to Sprint employees. The customer's account may not have more than one residential phone line associated with its account and each household is limited to one Sprint Unlimited V market test account. The customer may not use this service for commercial use, for connection to the Internet, for other data services (including a significant amount of facsimile transmission or data usage per month) or for any other use that does not involve a person-to-person conversation or voice message. Use of any feature, including but not limited to call forwarding, on a planned and continuing basis to allow an originating caller to avoid long distance charges is prohibited. If it is determined that the customer's usage is not consistent with residential voice service, the customer will be assessed a \$50 monthly recurring data charge or be disconnected. If Sprint determines that the service is not being used for individual residential service, or in any other way violates the restrictions of this service, Sprint may suspend or terminate the customer's service. A customer will continue to receive the benefits of this market test so long as they continue to subscribe to the market test or until such time as Sprint may cancel the benefits of this market test. Enrollment for this market test is available through June 30, 2004, unless it is changed or canceled by Sprint.
