Please describe your complaint. (Attach additional sheets if necessary)

I have been a customer of Verizon at this address since October, 2006. From the very first, I have suffered periodic problems of loud pops, hissing sounds and static. These problems have revealed themselves while both talking to people in the Public Utilities office, (your's) as well as times that I've had Verizon representatives on the phone complaining about the problem. When they send someone out though they claim that there is no problem rather than do the repair. The problem is not consistent or on every call, when it happens it is bad enough that it causes my fax machine to drop calls among other problems. It shows up calling across town or across the country. and everybody in town that I have talked to about it has the same problem. Now since I've kept complaining about it they are trying to force me to pay for service calls even though the problem hasn't been fixed. I am now threatened with suspension if I don't pay for these service calls.
