AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, _____, and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) _____ at (Location) _____

*(Signature and Title) _____ (Date) _____

- *This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.*

VERIFICATION

I, _____
verify that I have utilized the Telecommunications Application Form for Routine Proceedings provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

LOCAL EXCHANGE SERVICES
P.U.C.O. NO. 1

1. Definitions

Certain terms used generally throughout this tariff are defined below.

Account Codes: Allows a User to allocate local calls to a digital, non-verified account code.

Advance Payment: Payment of all or part of a charge required before the start of service.

Authorized User: A person, firm, corporation or other entity that either is authorized by the Customer to use local exchange telephone service or is placed in a position by the Customer, either through acts or omissions, to use local exchange telephone service.

Call Forward Busy: Automatically routes incoming calls to a designated answering point when the called line is busy.

Call Forward No Answer: Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forward Variable: Automatically routes incoming calls to a designated answering point, regardless of whether the user's Station is idle or busy.

Call Hold: Allows the User to hold one call for any length of time provided that neither party goes On- Hook.

Call Park: Allows a User to "park" a call against their directory number within the business group and "unpark" the call from any other directory number. A business group consists of a series of Customer-defined telephone numbers.

Call Pickup: Allows a User to answer incoming calls to another Station line within a defined call pickup group. Call Pickup is provided as either Group Call Pickup, where predesignated groups can pickup each other's calls by activating an access code or a feature key, or Directed Call Pickup, where any call can be retrieved by dialing a different access code followed by the extension number.

Call Transfer/Consultation/Conference: Provides the capability to transfer or add a third party, using the same line.

Call Waiting: Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel: Allows a User to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Calling Number Delivery: Identifies the 10-digit number of the calling party.

Calling Number Delivery Blocking: Blocks the delivery of the number to the called party on a per call or per line basis.

Class of Service (COS): Used to prevent a Station from dialing certain codes and numbers.

Company: OHIOTELNET.COM, Inc., an Ohio corporation, which is the issuer of this tariff.

Commission: The Public Utilities Commission of Ohio.

Conference/Six-Way: The User can sequentially call up to five other people and add them together to make up a six-way call.

2. Regulations (Cont'd)

2.5 Payment Arrangements

2.5.1 Payment for Service

The Customer is responsible for payment of all charges for service and facilities furnished by the Company to the Customer or its Joint or Authorized Users

2.5.1.1 Taxes: The Customer is responsible for the payment of all state, local and E911 taxes, surcharges, utility fees, or other similar fees for which the end user is directly responsible and that may be levied by a governing body or bodies in conjunction with or as a result of a service furnished under a tariff on file with the PUCO. These charges may appear as separate line item on the customer's bill, as opposed to being included in the rates contained in the tariff. Any such line item charges will be reflected in the Company's tariff. The Company shall not assess separately any taxes, fees or surcharges, other than government approved sales taxes imposed directly on end users, without seeking Commission approval under the appropriate local competition procedures required by the Commission. The company shall comply with Commission procedures by sending notice to all customers informing them of the new line item charges.

2.5.2 Billing and Collection of Charges

Bills will be rendered monthly to Customer.

2.5.2.1 All service, installation, monthly Recurring Charges and Non-Recurring Charges are due and payable upon receipt but no sooner than 14 days from the postmark on the bill.

2.5.2.2 The Company shall present bills for Recurring Charges monthly to the Customer, in advance of the month which service is provided. Usage charges will be billed in arrears.

2.5.2.3 For new customers or existing customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.

2.5.2.4 Amounts not paid within 30 days after the date of invoice, but no sooner than 14 days after the postmark on the bill, are considered past due.

2.5.2.5 Checks with insufficient funds or non-existing accounts will be assessed as follows, accept as may be waived under appropriate circumstances:

2.5 Payment Arrangements (Cont'd)

2.5.3 Disputed Bills

The Customer shall notify the Company of any disputed items on a bill. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the PUCO in accordance with the Commission's rules of procedure.

2.5.3.1 The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute. The date of the resolution is the date the Company completes its investigation and notifies the Customer of the disposition of the dispute.

2.5.4 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount equal to the Non-Recurring Charge (s) and three months' charges for the service or facility. The Advance Payment will be credited to the Customer's initial bill. An Advance Payment may be required in addition to a deposit.

2.5.5 Deposits

2.5.5.1 Applicants for service or existing Customer's whose financial condition is not acceptable to the Company, or is not a matter of general knowledge, may be required at any time to provide the Company a security deposit. All deposits will be handled in accordance with the provisions of the Rule 4901: 1-17 of the Ohio Administrative Code and Rule 4901:1-5-14 of the PUCO's Minimum Telephone Service Standards. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:

- (a) two month's average monthly bill for all regulated local exchange services for the ensuing twelve months, plus thirty percent (30%) of estimated monthly recurring charges.

2.5.5.2 A deposit may be required in addition to an advance payment.

2.5.5.3 When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded within 45 days from the date of termination. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.

2.5.5.4 Deposits held will accrue interest at a rate specified by the PUCO in Rule 4901: 1-17-05 of the Ohio Administrative Code and will be refunded to the customer after twelve consecutive month of payment..

2.5.6 Discontinuance of Service

2.5.6.1 Disconnection for nonpayment of local service

2.5.6.1.1 For the purposes of this section, all regulated telephone services provided by the Company, except toll service, shall be defined as local service.

2.5.6.1.2 The Company may disconnect its customer's local service for nonpayment of charges incurred for local service. Such disconnection must be conducted pursuant to all applicable minimum telephone service standards. All practices of the Company pertaining to either the provision of its own toll service, if any, or as a duly authorized agent for another toll service provider shall also conform to the minimum telephone service standards.

2.5.6.1.2.1 Disconnection notices issued by the Company pursuant to Rule 4901:1-5-19(K)(3), O.A.C., must inform the subscriber facing local service disconnection of the total amount which the subscriber would need to pay in order to avoid disconnection of local service. It must also inform the subscriber of the Company's legal obligation to provide "local only" service to customers whose local service charges are paid, even while their toll service is disconnected for nonpayment of outstanding toll debt.

2.5.6.1.3 The Company is prohibited from disconnecting any customer's local service for nonpayment of charges incurred by the customer for toll service.

2.5.6.1.4 Partial payments by a customer to the Company will be apportioned by the Company to its regulated local service charges first before being applied by the Company to any toll charges and will be apportioned to regulated telephone service charges first before being applied to charges for non-regulated services.

2.5.6 Discontinuance of Service

2.5.6.3 Disconnection for Reasons other than Nonpayment

2.5.6.3.3 Upon the Customer's failing to discharge an involuntary petition within the time permitted by law or abandonment of service, the Company may, with prior notice to the customer, discontinue or suspend service without incurring any liability.

2.5.6.3.4 Upon any governmental prohibition, or required alteration of the services to be provided or any violation of any applicable law or regulation, the Company may immediately discontinue or suspend service without incurring any liability.

2.5.6.3.5 The Company may discontinue the furnishings of any and/or all service(s) which a company is legally entitled to disconnect, to a Customer, without incurring any liability if:

- (a) The Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier communications services or its planned use of service(s); or
- (b) The Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of common carrier communications services, or its planned use of the Company's service(s); or
- (c) the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or services; or
- (d) The Customer uses, or attempts to use, service with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the service by (1) using or attempting to use service by rearranging, tampering with, or making connections to the Company's service not authorized by this tariff; (2) Using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or (3) Any other fraudulent means or devices;

2.6 Allowances for Interruptions of Service

- 2.6.1 Credit for Interruptions: When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's tariffs. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly Recurring Charges specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours. At a minimum, credit allowances will be calculated consistent with MTSS Rule, 4901:1-5-18.

2.6.2 Limitations on Allowances

No credit allowance will be made for:

- (a) interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer, Authorized User, or Joint-User;
- (b) interruptions due to the negligence of any person, including but not limited to the customer, but not including the Company, its agent, or its underlying carrier;
- (c) interruptions due to the failure or malfunction of non-Company provided equipment;
- (d) interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;
- (e) interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- (f) interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
- (g) interruption of service due to circumstances or causes beyond the control of the Company.

- 2.6.3 Use of Alternative Service Provided by the Company: Where the Company bears no liability for the interruption and the Customer elect to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the applicable tariffed rates and charges.

2.10 Universal Emergency Number Service - 9-1-1

Where requested by local government authorities, and subject to the availability of facilities, the Company will provide a universal number "911" dialing to its customers for simplified emergency access police, fire, and other emergency services. 911 calls will be routed for answering to a Public Safety Answering Point (PSAP) as designated by the local government unit authorized to establish and operate such systems. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the local government unit or its designee to answer and respond to such calls.

The 911 Calling Party, by calling 911 Service, gives consent for the Company to provide 911 information consisting of the name, address, telephone number, and other calling party information when available, to Law Enforcement Agencies and other emergency service providers on a call-by-call basis for the purpose of enabling those agencies or service providers to respond to emergency calls for assistance. Database inquiries for 911 information consisting of name, address, telephone number and other information when available, will only be allowed for purposes of dispatching or responding to 911 emergency calls or integrity verification as prescribed by the applicable state codes, rules or legislation.

Customers with Unlisted or Non-published numbers as well as those customers who have requested per line blocking forfeits the privacy afforded by these services on calls made to 911.

The provision of 911 Service by the Company shall not be interpreted, construed, or regarded as being for the benefit of or creating any Company obligation, either expressed or implied, toward any third person or legal entity other than the customer. The company's entire liability to any person for interruption or failure of 911 Service shall be limited to the terms specified in this Tariff or by statute.

3.1.5.5 Optional Local Trunk Configurations:

3.1.5.5.1 One-Way Outbound: Provides the Customer with a single analog connection which is restricted to carry outbound traffic only.

3.1.5.5.2 One-Way Inbound or Two-Way: Provides the Customer with individual channels which are used to carry one-way inbound or two-way traffic. One common telephone number will be provided per trunk group.

3.1.5.5.3 Direct Inward Dialing (DID): Provides the Customer with individual channels which can carry one-way inbound traffic. Local Trunks configured for DID service will outpulse the dialed station number to the customer's PBX or Key equipment, thereby, permitting direct routing of the call without the aid of an attendant. The number of digits to be outpulsed must be specified by the Customer.

Additional set-up charges and number charges apply for local trunks configured for DID service as specified in Section 3.1.4.5.

3.1.6 Local Usage Services – The Company's local exchange service subscribers may choose between two different calling packages: Per Message Calling and Unlimited Local Calling (available to residence subscribers only). Local Usage Service pertains to customer dialed calls to stations within the customer's local exchange or local calling areas as defined in Section 3.1.1.

3.1.6.1 Per Message Rate – This option applies a single, per unit charge for each completed local message originated by the customer and terminating within the customer's local calling area.

3.1.6.2 Unlimited Local Calling – This option applies a single monthly charge for unlimited local calls. This usage option is restricted solely to residence customers.

3.3 Operator Assistance (Traditional)

A Customer may obtain the assistance of a local operator to complete local exchange telephone calls in the following manner. In addition to the rates specified in Section 3.1, surcharges as specified in Section 3.3.1 will apply:

Third Number Billing: Provides the Customer with the capability to charge a local call to a third number which is different from the called or calling party. The party answering at the third number has the option to refuse acceptance of the charges in advance or when queried by the operator.

Collect Calls: Provides the Customer with the capability to charge a call to the called party. On the operator announcement of a collect call, the called party has the option to refuse acceptance of charges in advance or when queried by the operator.

Calling Cards: Provides the Customer with the capability to place a call using a calling card with or without the assistance of an operator.

Person to Person: Calls completed with the assistance of an operator to a particular Station and person specified by the caller. The call may be billed to the called party.

Station to Station: Calls completed with the assistance of an operator to a particular Station. The call may be billed to the called party.

3.3.1 Operator Assisted (Traditional) Surcharges: The following surcharges will be applied on a per call basis.

	<u>Min.</u>	<u>Max.</u>

1. Definitions

Certain terms used generally throughout this tariff are defined below.

Account Codes: Allows a User to allocate local calls to a digital, non-verified account code.

Advance Payment: Payment of all or part of a charge required before the start of service.

Authorized User: A person, firm, corporation or other entity that either is authorized by the Customer to use local exchange telephone service or is placed in a position by the Customer, either through acts or omissions, to use local exchange telephone service.

Call Forward Busy: Automatically routes incoming calls to a designated answering point when the called line is busy.

Call Forward No Answer: Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forward Variable: Automatically routes incoming calls to a designated answering point, regardless of whether the user's Station is idle or busy.

Call Transfer/Consultation/Conference: Provides the capability to transfer or add a third party, using the same line.

Call Waiting: Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel: Allows a User to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Calling Number Delivery: Identifies the 10-digit number of the calling party.

Calling Number Delivery Blocking: Blocks the delivery of the number to the called party on a per call or per line basis.

Class of Service (COS): Used to prevent a Station from dialing certain codes and numbers.

Company: OHIOTELNET.COM, Inc., an Ohio corporation, which is the issuer of this tariff.

Commission: The Public Utilities Commission of Ohio.

Conference/Six-Way: The User can sequentially call up to five other people and add them together to make up a six-way call.

2. Regulations (Cont'd)2.5 Payment Arrangements (Cont'd)2.5.3 Disputed Bills

The Customer shall notify the Company of any disputed items on a bill. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the PUCO in accordance with the Commission's rules of procedure.

2.5.3.1 The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute. The date of the resolution is the date the Company completes its investigation and notifies the Customer of the disposition of the dispute.

2.5.4 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount equal to the Non-Recurring Charge (s) and three months' charges for the service or facility. The Advance Payment will be credited to the Customer's initial bill. An Advance Payment may be required in addition to a deposit.

2.5.5 Deposits

2.5.5.1 Applicants for service or existing Customers whose financial condition is not acceptable to the Company, or is not a matter of general knowledge, may be required at any time to provide the Company a security deposit. All deposits will be handled in accordance with the provisions of the Rule 4901: 1-17 of the Ohio Administrative Code and Rule 4901:1-5-13 of the PUCO's Minimum Telephone Service Standards. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:

(a) two month's average monthly bill for all regulated local exchange services for the ensuing twelve months, plus thirty percent (30%) of estimated monthly recurring charges.

2.5.5.2 A deposit may be required in addition to an advance payment.

2.5.5.3 When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded within 45 days from the date of termination. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.

2.5.5.4 Deposits held will accrue interest at a rate specified by the PUCO in Rule 4901: 1-17-05 of the Ohio Administrative Code and will be refunded to the customer after twelve consecutive months of payment..

2.5 Payment Arrangements (Cont'd)

2.5.6 Discontinuance of Service

2.5.6.1 Disconnection for nonpayment of local service

2.5.6.1.1 For the purposes of this section, all regulated telephone services provided by the Company, except toll service, shall be defined as local service.

2.5.6.1.2 The Company may disconnect its customer's local service for nonpayment of charges incurred for local service. Such disconnection must be conducted pursuant to all applicable minimum telephone service standards. All practices of the Company pertaining to either the provision of its own toll service, if any, or as a duly authorized agent for another toll service provider shall also conform to the minimum telephone service standards.

2.5.6.1.2.1 Disconnection notices issued by the Company pursuant to Rule 4901:1-5-1, O.A.C., must inform the subscriber facing local service disconnection of the total amount which the subscriber would need to pay in order to avoid disconnection of local service. It must also inform the subscriber of the Company's legal obligation to provide "local only" service to customers whose local service charges are paid, even while their toll service is disconnected for nonpayment of outstanding toll debt.

2.5.6.1.3 The Company is prohibited from disconnecting any customer's local service for nonpayment of charges incurred by the customer for toll service.

2.5.6.1.4 Partial payments by a customer to the Company will be apportioned by the Company to its regulated local service charges first before being applied by the Company to any toll charges and will be apportioned to regulated telephone service charges first before being applied to charges for non-regulated services.

2. Regulations (Cont'd)2.5 Payment Arrangements (Cont'd)2.5.6 Discontinuance of Service

2.5.6.2 Disconnection for Nonpayment of Toll Service

2.5.6.2.1 In addition to enforcing, on its own behalf, the Company's own billing, credit/deposit, and disconnection policies with respect to all regulated telephone services provided by the Company itself, the Company is not precluded from entering into formal contracts with other toll service providers which would authorize the Company as a formal contractual agent of such other toll service providers for purposes of enforcing the billing, credit/deposit, and disconnection policies of such other toll service providers.

2.5.6.2.2 Unless and until it has entered into a formal contract specifically authorizing it to do so, the Company is not permitted to enforce the billing, credit/deposit, and disconnection policies of any toll service provider other than the Company.

2.5.6.2.3 When the Company disconnects toll service for nonpayment of toll debt, whether owed to the Company or to some other provider of toll service, the method of toll disconnection which the Company utilizes:

- (a) Must not function as a vehicle by which the nonpaying toll subscriber is denied access, through Presubscription, to any other toll service provider besides the one whose provision of service has precipitated the toll disconnection.
- (b) Must be available from the Company, by tariff, on a non-discriminatory basis to all toll service providers; and
- (c) Must consist of either a de-PICing mechanism or else a selective toll blocking service.

2.5.6.2.4 Neither purchase of the toll service provider's accounts receivable by the Company, nor a requirement that the Company shall be the billing and collection agent for the toll service provider, shall be established as a necessary precondition imposed by the Company in connection with its tariffed disconnection services offered on a non-discriminatory basis to all toll service providers.

2.5.6.3 Disconnection for Reasons other than Nonpayment

2.5.6.3.1 Upon violation of any of the other material terms or conditions for furnishing service the Company may, by giving 30 days' prior notice in writing to the Customer, discontinue or suspend service without incurring any liability if such violation continues during that period.

2.5.6.3.2 Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.

2. Regulations (Cont'd)2.5 Payment Arrangements (Cont'd)2.5.6 Discontinuance of Service

2.5.6.3 Disconnection for Reasons other than Nonpayment

2.5.6.3.3 Upon the Customer's insolvency, assignment for the benefit of creditors, failing to discharge an involuntary petition within the time permitted by law, or abandonment of service, the Company may, with prior notice to the customer, immediately discontinue or suspend service without incurring any liability.

2.5.6.3.4 Upon any governmental prohibition, or required alteration of the services to be provided or any violation of any applicable law or regulation, the Company may immediately discontinue or suspend service without incurring any liability. Pursuant to 4901:15-17(D), the Company must notify or attempt to notify the customer through any reasonable means prior to disconnecting a customer.

2.5.6.3.5 The Company may discontinue the furnishings of any and/or all service(s) which a company is legally entitled to disconnect, to a Customer, without incurring any liability if:

- (a) The Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier communications services or its planned use of service(s); or
- (b) The Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of common carrier communications services, or its planned use of the Company's service(s); or
- (c) the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or services; or
- (d) The Customer uses, or attempts to use, service with the intent to avoid the payment, either in whole or in part, of the tarified charges for the service by (1) using or attempting to use service by rearranging, tampering with, or making connections to the Company's service not authorized by this by this tariff; (2) Using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or (3) Any other fraudulent means or devices;
- (e) Use of service in such a manner as to interfere with the service of other users; or
- (f) Use of service for unlawful purposes.

2. Regulation (Cont'd)2.6 Allowances for Interruptions of Service

- 2.6.1 Credit for Interruptions: When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's tariffs. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly Recurring Charges specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours. At a minimum, credit allowances will be calculated consistent with MTSS Rule, 4901:1-5-18.

2.6.2 Limitations on Allowances

No credit allowance will be made for:

- (a) interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer, Authorized User, or Joint-User;
- (b) interruptions due to the negligence of any person, including but not limited to the customer, but not including the Company, its agent, or its underlying carrier;
- (c) interruptions due to the failure or malfunction of non-Company provided equipment;
- (d) interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;
- (e) interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- (f) interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
- (g) interruption of service due to circumstances or causes beyond the control of the Company.

- 2.6.3 Use of Alternative Service Provided by the Company: Where the Company bears no liability for the interruption and the Customer elects to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the applicable tariffed rates and charges.

2. Regulations (Cont'd)2.10 Universal Emergency Number Service – 9-1-1

Where requested by local government authorities, and subject to the availability of facilities, the Company will provide a universal number "911" dialing to its customers for simplified emergency access police, fire, and other emergency services. 911 calls will be routed for answering to a Public Safety Answering Point (PSAP) as designated by the local government unit authorized to establish and operate such systems. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the local government unit or its designee to answer and respond to such calls.

The 911 Calling Party, by calling 911 Service, gives consent for the Company to provide 911 information consisting of the name, address, telephone number, and other calling party information when available, to Law Enforcement Agencies and other emergency service providers on a call-by-call basis for the purpose of enabling those agencies or service providers to respond to emergency calls for assistance. Database inquiries for 911 information consisting of name, address, telephone number and other information when available, will only be allowed for purposes of dispatching or responding to 911 emergency calls or integrity verification as prescribed by the applicable state codes, rules or legislation. (T)

Customers with Unlisted or Non-published numbers as well as those customers who have requested per line blocking forfeit the privacy afforded by these services on calls made to 911. (T)

The provision of 911 Service by the Company shall not be interpreted, construed, or regarded as being for the benefit of or creating any Company obligation, either expressed or implied, toward any third person or legal entity other than the customer. The company's entire liability to any person for interruption or failure of 911 Service shall be limited to the terms specified in this Tariff or by statute.

3. Service Descriptions (Cont'd)3.1 Local Exchange Service (Cont'd)

3.1.2 The Company's Local Exchange Service is comprised of four different service elements. Two of the service elements, Switched Network Access Channel and Local Usage are mandatory for all customers subscribing to the Company's local exchange service offerings. The remaining service elements, enhanced features and toll usage, are optional services available to customers.

3.1.3 Class of Service: The Local Exchange Service Offering is available in two classes of service distinguished by their primary character or nature of use as well as the location to which service is provided: residential or business.

3.1.3.1 Local Exchange Service will be classified as Residential Service where the primary use is for social or domestic purposes and the location to which service is provided is a residence or the bona fide living quarter for a combined residence and business premises.

3.1.3.2 Local Exchange Service will be classified as Business Service where the primary use is for paid commercial, professional or institutional activity and the location to which service is provided is a business or commercial location or the service number is listed as the principal or only number for a business in any telecommunications directory.

3.1.4 The Company's Local Exchange Service Offering is segmented into 4 Zones generally reflecting each exchange area's relative density and the underlying price distinctions of the incumbent local exchange carrier's services which the Company is reselling. Each of the exchanges listed in 3.1.1 has been assigned a zone designation. At present, the Company's zone rate distinction only applies to the Network Access Channel element of its local exchange service offering. The rates and charges for Network Access Elements listed in Section 3.1.8.2 reflect the zone differential.

3.1.5 Switched Network Access Channels include the following features as standard and are offered in the following configurations:

Touchtone Dialing
One Directory Listing plus One Directory
Presubscription (both IntraLATA and InterLATA)
Calling number delivery blocking/per call
Toll restriction
900/976 Blocking

3.1.5.1 Basic - Switched Network Access Channels provides the Customer with a single, voice-grade analog communications channel with a single telephone number.

3.1.5.2 Basic Trunk- Switched Network Access Channels - provides Customers with voice-grade communication channel(s) to the Customer's Private Branch Exchange (PBX) or Hybrid Key System. Trunks can be used to carry one-way outbound traffic, one-way inbound or two-way traffic. Trunk Configuration options are listed in 3.1.5.5, following.

3.1.5.3 Digital Trunk – Switched Network Access Channels provide a DS-1 digital transmission facility operating at 1.544 Mbps and time division multiplexed into 24 channels for the connection of Basic or DID Trunks to the Customer's PBX or trunk-capable Key System. Digital Trunk can be used to carry one-way outbound traffic, one-way inbound or two-way traffic, Direct Inward Dialing, or a combination thereof.

3. Service Descriptions (Cont'd)

3.1 Local Exchange Service (Cont'd)

3.1.5 Switched Network Access Channels (Cont'd)

3.1.5.4 PRI Trunk – Reserved for Future Use

3.1.5.5 Optional Local Trunk Configurations:

3.1.5.5.1 One-Way Outbound: Provides the Customer with a single analog connection which is restricted to carry outbound traffic only.

3.1.5.5.2 One-Way Inbound or Two-Way: Provides the Customer with individual channels which are used to carry one-way inbound or two-way traffic. One common telephone number will be provided per trunk group.

3.1.5.5.3 Direct Inward Dialing (DID): Provides the Customer with individual channels which can carry one-way inbound traffic. Local Trunks configured for DID service will outpulse the dialed station number to the customer's PBX or Key equipment, thereby, permitting direct routing of the call without the aid of an attendant. The number of digits to be outpulsed must be specified by the Customer

Additional set-up charges and number charges apply for local trunks configured for DID service as specified in Section 3.1.8.1 and 3.1.8.2.

(T)

3.1.6 Local Usage Services – The Company's local exchange service subscribers may choose between two different calling packages: Per Message Calling and Unlimited Local Calling (available to residence subscribers only). Local Usage Service pertains to customer dialed calls to stations within the customer's local exchange or local calling areas as defined in Section 3.1.1

3.1.6.1 Per Message Rate – This option applies a single, per unit charge for each completed local message originated by the customer and terminating within the customer's local calling area.

3.1.6.2 Unlimited Local Calling – This option applies a single monthly charge for unlimited local calls. This usage option is restricted solely to residence customers.

3.1.6.3 Extended Local Calling Services – extended local calling service is a distance-sensitive, measured rate service which provides for local calling between specific exchanges.

3.1.6.4 Community Calling Services – provides for an optional extended local calling area with a flat rate and per minute usage sensitive rates for calls between specific exchanges.

3. Service Descriptions (Cont'd)

3.1 Local Exchange Service (Cont'd)

3.1.7 Enhanced Calling Features – are a set of optional features available to the Company's local exchange service Customers that provide additional calling functionality. The Company offers the following optional features, at the rates specified in Section 3.1.8.2:

- 3.1.7.1 Call Waiting – This service permits the customer, already talking to another customer, to be informed that another call is waiting. By flashing the switchhook, the customer can transfer to the waiting call while holding the original connection. Subsequent flashes of the switchhook will permit the customer to transfer back and forth between the two calls. Only one call can wait at a time. Other call attempts will receive a busy tone.
- 3.1.7.2 Enhanced Call Waiting – This feature allows a customer to prevent, on a per call basis, any incoming call waiting calls on the customer's line. Incoming calls to the access line will receive a busy signal. Cancel call waiting function is automatically deactivated at the end of the current call.
- 3.1.7.3 Three Way Calling – the feature permits a customer to add a third party to any existing connection. The customer initiating the conference is in control of the connection and cannot hang up without terminating it. If desired, the customer may disconnect the 3rd party from the conference or have a private consultation with him/her prior to establishing the conference.
- 3.1.7.4 Call Forwarding – This service provides the customer with the ability to automatically forward all of his/her incoming calls to another station. The customer is responsible for any applicable local or toll usage charges associated with the forwarded call.
- 3.1.7.5 Call Forwarding – Busy – provides customer with call forwarding when calls to the customers number experience a busy condition. The customer is responsible for any applicable local or toll usage charges associated with the forwarded call
- 3.1.7.6 Call Forwarding – No Answer – provides customer with call forwarding when calls to the customer's number are not answered. Customer may specify the number of ring cycles before the call is forwarded. The customer is responsible for any applicable local or toll usage charges associated with the forwarded call
- 3.1.7.7 Enhanced Call Forwarding – this feature consists of Call Forward, Call Forwarding – Busy, and Call Forwarding – No Answer. The customer is responsible for any applicable local or toll usage charges associated with the forwarded call
- 3.1.7.8 Selective Call Forwarding – this feature provides for the call forwarding only of select calls listed in a customer –specified list.
- 3.1.7.9 Speed Calling (8) – allows the customer the ability to establish abbreviated dialing (via a 2 or 3 digit code) for up to 8 directory numbers.
- 3.1.7.10 Speed Calling (30) -- allows the customer the ability to establish abbreviated dialing (via a 2 or 3 digit code) for up to 30 directory numbers.

- 3.1.7.11 Call Return – This feature enables the customer to return a call to the last incoming caller by dialing a 2-digit code whether the call was answered or not. Incoming calls that are identified as private by per call or per line caller ID blocking will not be returned. If the called line is not busy the call will be placed. If the called line is busy, the call will be placed in queue and for the next 30 minutes the caller and called lines will be check periodically in an effort to complete the call. When both lines become available the call will be completed and the calling party will be notified of the call being completed by a distinctive ring announcement.
- 3.1.7.12 Repeat Dialing – the feature automatically redials the last number the customer attempted to call. If the called line is busy, the call will be placed in queue and for the next 30 minutes the caller and called lines will be check periodically in an effort to complete the call. When both lines become available the call will be completed and the calling party will be notified of the call being completed by a distinctive ring announcement.
- 3.1.7.13 Call Trace – This feature, upon activation, will automatically trace the telephone number of the line used for the last call received by the customer. The intent of this feature is to trace nuisance or harassing telephone calls which violate the Ohio Revised Code Section 2917.21. The customer must dial a Company-designated code, and active must occur prior to the time that either another call or call waiting tone is received by the customer. The customer will receive a recording indicating that there will be a charge and information on how to proceed with the trace. A final recording will indicate if the trace was successful. The traced number will not be provided to the customer.
- 3.1.7.14 Caller ID – this feature enables the customer to view on a display the telephone number of the incoming calls where such information is available.
- 3.1.7.15 Caller ID / with name – this feature enables the customer to view on a display the telephone number and associated directory name of incoming calls where such information is available.
- 3.1.7.16 Caller ID per call /per line blocking --
- 3.1.7.17 Caller ID on Call Waiting – this feature enables the customer to view on a display the telephone number or telephone number and directory name of an incoming caller when the customer line is already in use and Call Waiting and either Caller ID or Caller ID /with name is enabled.
- 3.1.7.18 Selective Call Acceptance – this feature provides the customer with the ability to screen incoming calls against a list of subscriber-specified directory numbers and then accepts calls only from those specified in the customers list.
- 3.1.7.19 Selective Call Rejection – this feature provides the customer the ability to prevent or reject incoming calls from specified telephone numbers. When this feature is active, the called party receives no alerting (ringing) for the call that has been rejected. The call is routed to an announcement then subsequently terminated.
- 3.1.7.20 Anonymous Call Rejection – this feature permits the customer to automatically reject all calls that have been market anonymous by the calling party. When this feature is active, the called party receives no alerting (ringing) for the call that has been rejected. The call is routed to an announcement then subsequently terminated.
- 3.1.7.21 Call Selector – this feature provides a distinctive ringing pattern to the subscribing customer for calls received from specific telephone numbers specified by the customer.

3.3.2 Busy Line Verification and Interrupt Service: Busy Line Verification and Interrupt Service, which is furnished where and to the extent that facilities permit, provides the Customer with the following options:

3.3.2.1 Busy Line Verification: Upon request of the calling party, the Company will determine if the line is clear or in use and report to the calling party.

3.3.2.2 Busy line Verification with Interrupt: The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption. The operator will then interrupt the call, advising the called party the name of the calling party.

3.3.2.3 Rates: Rates for Busy Line Verification and Interrupt Service, as specified below, will apply under the following circumstances:

		<u>Per Request</u>
Busy Line Verification	Tier 2	\$3.00
Busy Line Interrupt	Tier 2	\$3.00

3.8 Telephone Service Assistance

3.8.2 Regulations

3.8.2.9 Telephone Service Assistance customers shall be permitted access to Universal Emergency Number Service (9-1-1 Service), where available, and Message Toll Telephone Service (MTS). However, Telephone Service Assistance customers are prohibited from purchasing any other optional services offered by the Telephone Company except Touch-tone; 900, 976 and toll blocking services (where available); warm or hot line or its equivalent (where available); and any other service determined by the PUCO to be beneficial to customers with handicaps or medical conditions, or in life-threatening situations.

3.8.3 Rates and Charges

3.8.3.1 The rate for Telephone Service Assistance is the Telephone Company's applicable access line rate, as listed below, minus: (1) an amount equal to the greater of the Company's federal subscriber line charges as specified in the Company's Access Service Tariff, as determined by the Federal Communications Commission and in effect on the effective date of this section, or such subscriber line charge as it may subsequently change; and (2) \$.50 in the form of additional federal assistance. The usage portion is the usage rate set forth at any time in the Company's tariffs as outlined in Section 3.

3.8 MESSAGE TOLL SERVICES

3.8.1. DESCRIPTION OF CHARGES AND RATE COMPONENTS

The service is flat rated and billed in six (6) second increments. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additionally, fractional cents will be rounded off to the nearest higher cent. Unless specified otherwise in this Tariff, the duration of each call for bill purposes will be rounded off to the nearest highest increment.

The following rates apply:

	<u>Classification</u>	<u>Per Minute</u>
Message Toll Service Originating On Net	Tier 2	\$.10
Message Toll Service Originating Off Net	Tier 2	\$.12

3.8.2. TIMING OF MESSAGES

- Chargeable time begins when connection is established between the calling station and the called station.
- Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
- Chargeable time does not include time lost because of faults or defects in the connection.

3.9 800/888 SERVICES

- 3.9.1 800/888 Service is usage rated and billed in six (6) second increments. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additionally, fractional cents will be rounded off to the nearest higher cent. Unless specified otherwise in this Tariff, the duration of each call for bill purposes will be rounded off to the nearest highest increment.

The following rates apply:

<u>Max.</u>	<u>Classification</u>	<u>Per Minute</u>
800/888 Terminating On-Net	Tier 2	\$.10
800/888 Terminating Off-Net	Tier 2	\$.15

Exhibit C

07-1093-TP-TRF

The current filing provides for the certain Tier 1 price increases under the established Maximum or CAP. It adds additional Tier 2 enhanced custom calling services and increases some Tier 2 prices to reflect recent price changes made by OHIOTELNET's underlying wholesale provider. Finally the filing makes numerous textual changes to correct typos, update and correct rule and section citations, and generally to conform the tariff structure to reflect Commission changes in the retail price rules for telecommunications services. These conforming changes include adding Tier Classifications to most services and eliminating most price ranges and associated price lists where applicable.
