RE: Docket No. CP07-208-000
Rockies Express Pipeline LLC, Rockies Express Pipeline-East Project
Supplemental Information

Ms. Bose:

On April 30, 2007, Rockies Express Pipeline LLC (Rockies Express) filed with the Federal Energy Regulatory Commission (FERC or Commission) an application pursuant to Section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, requesting a Certificate of Public Convenience and Necessity authorizing the construction and operation of an approximately 639-mile-long natural gas pipeline and related facilities, known as the REX-East Pipeline.

In a publicly noticed meeting held at the Commission's offices on September 21, 2007, Rockies Express met with representatives from the Commission's staff to discuss, among other things, what environmental data remained outstanding for the staff to complete a draft Environmental Impact Statement (EIS) for the REX-East Pipeline. Consistent with the discussion with Staff, Rockies Express hereby files the following items:

- geotechnical report for Deer Creek (Attachment A, Public);
- copies of the air permit applications and notifications for the Arlington and Hamilton Compressor Stations (Attachment B, Public);
- copies of the 401 Water Quality Certification Supplemental Information package for Indiana and Ohio as submitted to the U.S. Army Corps of Engineers (Attachment C, Public);
- map portions of the Arlington and Hamilton Compressor Station air permit applications and notifications (Attachment D, Non-Internet Public).
