RE: Docket No. CP07-208-000
Rockies Express Pipeline LLC, Rockies Express Pipeline-East Project
Supplemental Information

Ms. Bose:

On April 30, 2007, Rockies Express Pipeline LLC (Rockies Express) filed with the Federal Energy Regulatory Commission (FERC or Commission) an application pursuant to Section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, requesting a Certificate of Public Convenience and Necessity authorizing the construction and operation of an approximately 639-mile-long natural gas pipeline and related facilities.

Rockies Express is hereby filing information to supplement its application. Enclosed for filing are the following items:

- a detailed analysis of the environmental impacts associated with the five pipeline reroutes and three compressor station site changes discussed in the September 18, 2007 data response (Attachment A, Public);
- Missouri wetland report addendum for the proposed Bowling Green contractor/pipe/rail yard (Attachment B, Public);
- revised table 3.4.2-1, "State-listed Endangered and Threatened Species Potentially Occurring in the Proposed Project Area," which has been updated to reflect recent agency correspondence and survey results (Attachment C, Public);
- revised table 8.3.1-1, "Recreation and Special Land Uses Crossed by the Proposed Pipeline Route," which has been updated to reflect the areas affected by the most current pipeline route, the construction workspace requirements, and the impacts by land use type (Attachment D, Public);

This is to certify that the information appearing here is an accurate and complete reproduction of a case file document delivered in the regular course of business
Technician _____ Date Processed _____

PUBLIC

- air permit application updates for the Bainbridge, Bertrand, Blue Mound, and Mexico Compressor Stations (Attachment E, Public);
- updated agency correspondence (Attachment F, Public);
- updated State Historic Preservation Office correspondence (Attachment G, Privileged);
- aerial-based figures of the pipeline reroutes and compressor station site changes, and public view shed maps of the two revised compressor station sites (Attachment H, Non-Internet Public);
- the final Indiana bat survey report (Attachment I, Non-Internet Public); and
- updated U.S. Geological Survey topographic map excerpts depicting the current pipeline route and facilities for inclusion in the draft Environmental Impact Statement (Attachment J, Non-Internet Public).

Rockies Express is filing an original and seven (7) copies of all Public and Non-Internet Public information. The Non-Internet Public information has been provided under separate cover and is labeled "Non-Internet Public." Also included is one original copy of Privileged information, which has been labeled "Contains Privileged Information – Do Not Release." In addition, Rockies Express is providing complete copies of this filing directly to the FERC Project Manager and third-party contractor. If you have any questions, please do not hesitate to contact me.

Respectfully submitted,
