CP07-208-000 REX Pipeline East

At the Somerset Township meeting on 1 Nov 2007, a representative of the REX Pipeline said that the "FERC permit will be issued", when called upon that statement and asked to put it in writing and sign it, the REX people back tracked from their original statement. Does this person know something that the public doesn't?

The Township Trustees has requested a public meeting with the REX people on either Dec 11 or Dec 18 of this year. The REX People did agree to those dates.

Congressman Charlie Wilson in a letter stated that we the affected public will have adequate time to exam all of the documents. So will the REX Pipeline request for an acceleration of the permit process be denied? A list of what documents that the public wants to see was given to a REX Pipeline employee or contractor, but to reaffirm that request here again is the list:

- 1) Study that shows the need for the REX Pipeline East
- 2) Financial Viability statements
- 3) Actually Surveys that are signed off by a licensed surveyor
- 4) Engineer drawings that are signed off by a licensed engineer
- 5) Copy of the FERC Easement application
- 6) Verifiable copies of the liability insurance
- 7) Signed copy of their performance bond
- 8) A copy of what the REX Company Identification cards looks like for their employees and contractors.
- 9) Copy of their emergency preparedness plan
- 10) A copy of their environmental and ecological impact study
- 11) Methods of short term and long term compensation for land owners
- 12) Copy of their community relations plans
- 13) Copy of the REX long term business plan, are they going to sell this pipeline once it is up and running or keep it for the duration of the projected 20 year life of the pipeline.
- 14) Copies of insurances that covers their employees and contractors actions.
- 15) Plus all other documents, signed, for public review
