**Other\*** This filing is for a non-residential tier 2 service. It grandfathers Network Switch Alternate Routing (NSAR) Service.

*\*NOTE: During the interim period between the effective date of the rules and an Applicant's Detariffing Filing, changes to existing business Tier 2 and all toll services, including the addition of new business Tier 2 and all new toll services, will be processed as 0-day TRF filings, and briefly described in the "Other" section above.*

**All Section I and II applications that result in a change to one or more tariff pages require, at a minimum, the following exhibits. Other exhibits may be required under the applicable rule(s). ACN, ACO, AMT, ATC, ATR, and CIO applications see the 4901:1-6-14 Filing Requirements on the Commission's Web Page for a complete list of exhibits.**

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

### Section III. – Attestation

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

---

#### AFFIDAVIT

##### *Compliance with Commission Rules and Service Standards*

I am an officer/agent of the applicant corporation, AT&T Ohio, and am authorized to make this statement on its behalf.

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on November 15, 2007 at Cleveland, Ohio

\*/s/ Maryann H. Mackey  
Sr. Director, Regulatory Affairs

November 15, 2007

- This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

**1. AMERITECH NETWORK SWITCH ALTERNATE ROUTING (ANSAR)**

(T)

**A. DESCRIPTION**

Ameritech Network Switch Alternate Routing (ANSAR) is an Advanced Intelligent Network (AIN) based service that allows the customer to safeguard against the loss of incoming calls resulting from the complete failure of the customer's serving central office switch.

ANSAR allows the customer to develop and maintain a contingency plan that can be activated at their command to reroute incoming calls around their failed central office switch and back to their location or an alternate location.

ANSAR allows the customer the ability to develop and test solutions to potential problems before they occur.

ANSAR supports up to ten alternate routing plans with a maximum of 10,000 telephone numbers.

ANSAR operates across the public network or private facilities.

The customer may activate ANSAR 24 hours a day, seven days a week in coordination with Ameritech.

Upon local central office recovery, conditions permitting, Ameritech will deactivate network controls in coordination with the customer.

An ANSAR plan is subject to review by Ameritech in order to determine effects on network capability, capacity and control.

All telecommunications service required for rerouting must be in place or subscribed to at the same time as ANSAR and will be reviewed by Ameritech.

ANSAR allows the customer to exercise their back-up facilities during normal conditions.

(T)

Material formerly appeared in Part 8, Section 4, Sheet Nos. 1 - 6.1.

Issued: September 26, 1996

Effective: September 26, 1996

In accordance with Case No. 96-872-TP-ATA, issued August 26, 1996.

By J. F. Woods, President, Cleveland, Ohio

**1. AMERITECH NETWORK SWITCH ALTERNATE ROUTING (ANSAR) (cont'd)**

**B. TERMS AND CONDITIONS**

1. ANSAR service is available where central office facilities and equipment permit. (D)  
(D)
2. The ANSAR customer is responsible for the payment of any applicable station-to-station charges for each call between the central office where the ANSAR protected numbers reside and the telephone to which the call is being rerouted. (T)
3. Upon request of the customer, Ameritech will coordinate an out-of-hours test of the customer's alternate routing plan which will be subject to a charge as found in the Price List. (T)
4. ANSAR is available to Centrex, ISDN, PBX and basic exchange business line customers where facilities permit. (T)
5. Due to network capacity and capability limitations during a long central office outage, some blocking of calls in the network may occur, and therefore, all incoming calls may not be rerouted and terminated to the alternate site. In all cases, the first priority will be to stabilize the public network, to provide telephone service to emergency service providers; e.g., Telephone Service Priority (TSP), 911, hospitals, police and fire agencies, etc. (T)
6. Customer requested changes to an existing ANSAR plan are subject to a charge as found in the Price List. (T)
7. The services and facilities furnished by the Telephone Company are subject to the terms, conditions and limitations specified herein. With respect to a claim or suit by a customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of service, the Telephone Company's liability, if any, shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected. (T)

Issued: March 14, 2002

Effective: March 16, 2002

In accordance with Case No. 02-392-TP-ATA, issued February 13, 2002.

By James C. Smith, President, Cleveland, Ohio

**1. AMERITECH NETWORK SWITCH ALTERNATE ROUTING (ANSAR) (cont'd)**

**C. FEATURES**

**1. Standard Features**

**Customer Access**

(T)

ANSAR provides two customer interface options: Internet Access and Touch Tone Access.

(C)

ANSAR with Internet Access provides direct access to the Service Management System. Under this method, the customer's service administrator may define an entire contingency plan, change the "forward-to" destination for protected telephone numbers, activate or deactivate a contingency plan, modify an existing plan and retrieve information about existing plans.

(C)

(C)

ANSAR with Touch Tone Access provides the customer's service administrator the ability to activate or deactivate a contingency plan.

**1. NETWORK SWITCH ALTERNATE ROUTING (NSAR) (cont'd)**

/1/

**B. Terms and Conditions**

1. NSAR service is available where central office facilities and equipment permit.
2. The NSAR customer is responsible for the payment of any applicable station-to-station charges for each call between the central office where the NSAR protected numbers reside and the telephone to which the call is being rerouted.
3. Upon request of the customer, the Company will coordinate an out-of-hours test of the customer's alternate routing plan which will be subject to a charge as found in the Price List.
4. NSAR is available to Centrex, ISDN, PBX and basic exchange business line customers where facilities permit.
5. Due to network capacity and capability limitations during a long central office outage, some blocking of calls in the network may occur, and therefore, all incoming calls may not be rerouted and terminated to the alternate site. In all cases, the first priority will be to stabilize the public network, to provide telephone service to emergency service providers; e.g., Telephone Service Priority (TSP), 911, hospitals, police and fire agencies, etc.
6. Customer requested changes to an existing NSAR plan are subject to a charge as found in the Price List.
7. The services and facilities furnished by the Company are subject to the terms, conditions and limitations specified herein. With respect to a claim or suit by a customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of service, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected.

**C. Features**

**1. Standard Features**

*Customer Access*

NSAR provides two customer interface options: Internet Access and Touch Tone Access.

NSAR with Internet Access provides direct access to the Service Management System. Under this method, the customer's service administrator may define an entire contingency plan, change the "forward-to" destination for protected telephone numbers, activate or deactivate a contingency plan, modify an existing plan and retrieve information about existing plans.

NSAR with Touch Tone Access provides the customer's service administrator the ability to activate or deactivate a contingency plan.

## **Exhibit C**

AT&T Ohio hereby revises Part 1 Section 3, Part 8 Section 4 and Part 20 Section 8 of its AT&T Ohio Tariff P.U.C.O. No. 20, to grandfather Network Switch Alternate Routing (NSAR) effective 11-15-07.

## Exhibit D

The following notification letter was sent to impacted customers on 9-21-07.

September 21, 2007

RE: <Account Number>

Dear Valued AT&T Customer,

Thank you for using AT&T for your telecommunications needs. We value your business and want to keep you aware of changes being made that affect your service.

AT&T has decided to discontinue offering the Ameritech Network Switch Alternative Routing Service (ANSAR) to new customers or to allow changes to existing service. Consequently, effective November 15, 2007, while you may retain your service as currently configured until further notice, AT&T will accept no future requests to install new lines, make changes to your existing service, or move your existing service to a new location.

Since ANSAR was developed, AT&T has made significant changes to its network resulting in greatly improved network security and more efficient and effective disaster recovery alternatives. Consequently, the time is right for phasing out this service.

Please contact me if you have questions or concerns about this decision, or your service. I can be reached at (614) 789-8680.

Thank you for choosing AT&T.

Sincerely,

Craig Dieckhoner
