Re: Boundary Change - Case No. 07-1014-TP-ACB

On September 14, 2007, AT&T Ohio and United Telephone Company of Ohio dba Embarq (Joint Applicants) filed revised maps for both the Coshocton Exchange of AT&T Ohio and the Millersburg Exchange of Embarq without application pursuant to Rule 4901:1-3-03(F), Ohio Administrative Code (O.A.C.). The revised maps reflect the incorporation of a small portion of Embarq's Millersburg Exchange into the Coshocton Exchange of AT&T Ohio. AT&T Ohio avers that the company has facilities necessary to serve this addition to its Coshocton Exchange. Joint Applicants are in concurrence with this boundary modification and aver that no customers will be impacted by this change in telephone boundaries.

Upon further investigation, it was discovered that the telephone exchange boundary between the Coshocton and Millersburg exchanges also serves as a LATA boundary. Following discussions with the Federal Communications Commission (FCC), counsel for AT&T Ohio advised that the FCC's non-dominant orders eliminate the need for interLATA relief for this type of situation. In light of the foregoing and based upon the assertions made by Joint Applicants in the September 14, 2007 filing, this matter should be considered approved and closed of record pursuant to Rule 4901:1-3-03(M), O.A.C.
