# EXHIBIT C

TCG Ohio (TCG) is filing this application to amend the termination date for grandfathered PrimeNBX Service. This filing accommodates customers that have not been able to find an equivalent alternative service due to the size and complexity of their services.

# EXHIBIT D

November 16, 2007

Dear Valued AT&T Customer,

In 2004, you were notified that your AT&T local provider in Ohio discontinued offering its Centrex-type product line (PrimePath NBX, Prime NBX and Integrated PrimePath NBX Services) to new customers. As an existing customer at the time, you were allowed to complete your contract and continue receiving the service on a month-to-month rate basis for up to two years after the expiration of your contract (based on an anticipated service termination in 2006). This termination of service date was subsequently extended to July 31, 2008 with an amendment on July 22, 2006.

This notice is to inform you AT&T is amending its Ohio tariff to postpone the termination of these Centrex-type services to July 31, 2011. Consequently, AT&T will continue to honor your existing Centrex-type services contract until July 31, 2011, or until your contract expiration date, whichever comes later. However, you must migrate to a different service before this new deadline, as all Centrex-type services will be terminated on that date.

If your term contract has not yet expired, you may add lines and features at the contracted rate, at the same location you were receiving the service in 2004, but no new locations may be added. If your contract has already expired, your service will continue on a month-to-month basis and will be priced at the tariff rates until July 31, 2011. Customers may move, add, or change stations at their existing locations based on the availability of existing facilities, but may not add new locations.

At this time you may wish to consider AT&T Dynamic Network Applications<sup>(SM)</sup> (DNA), an integrated portfolio of Internet Protocol (IP) services, as a viable alternative to your Centrex-type service. AT&T Voice DNA<sup>(SM)</sup> delivers the functionality of network-based IP communications without the complexity associated with premises-based solutions and comes with a choice of any-distance or local calling plans.

If you have further questions, or wish to discuss AT&T Voice DNA<sup>(SM)</sup> or other options available to you, please contact your AT&T Representative directly or call the AT&T Customer Care Center at the toll-free number listed on your invoice. You are a valued customer and we look forward to continuing to support your business' IP communication needs.

Sincerely,

AT&T Local Service
