AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, Jeff Jung, Vice President, and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) December 26, 2007 at (Location) TDS Telecom, Madison, WI

¹ Includes Tel-Touch Service.

² Effective August 6, 2007, the rates for residential and business customers who do not have Tel-Touch Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Tel-Touch service.

* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-849-TP-ALT effective 09/10/07.

H. CUSTOM CALLING SERVICES (Continued)**10. Toll Restriction with PIN override**

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. In addition, the customer will have the ability to override the restriction on a per call basis by using a Personal Identification Number (PIN). To activate the override, the customer dials a code, the PIN, waits for a dial tone and then dials the toll number. When a restricted call is attempted without the PIN, from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

20. Call Transfer Enhanced

This feature enables a customer to transfer multiple incoming or outbound calls to a third party with either a Screened Transfer or a Blind Transfer. A Screened Transfer enables the transferring party to announce a call to the third party prior to completing the transfer. If the third party chooses not to take the call, the transferring party may disconnect the third party and return to the caller. Otherwise, the transferring party may disconnect, completing the transfer and returning the line to an idle state. A Blind Transfer enables the transferring party to immediately disconnect after dialing the third party, prior to the third party answering the call. After disconnecting, the transferring party may either originate or receive a new call, even though the transferred call is still in progress. In addition, this feature enables a customer to establish a 3-way conference call while enabling any party (including the originator of the call) to drop out of the conference while leaving the other two parties connected. The customer is responsible for all applicable long distance charges for originating or terminating calls that will apply for the duration of the call, even if the customer drops off the call.

10. Limitations

- a. Custom Calling Services require special central office equipment and will be provided only where facilities are available.
- b. Custom Calling Services are only available on single-line party service.

PER CALL BLOCKING/PER LINE BLOCKING

Per Call Blocking for nonresidential customers can be found in the Company's Catalog located at www.tdstelecom.com.

(C)

Customers have certain rights and responsibilities under the minimum Telephone Service Standards (Ohio Adm. Code 4901:1-5). These safe guards can be found in the appendix to Ohio Adm. Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities".

(C)

A. GENERAL

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. Per Call Blocking
Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing *67 (1167 from a rotary phone) before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. Per Line Blocking
Enables customers to prevent the disclosure of their telephone number or name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

(C)

Customers have certain rights and responsibilities under the minimum Telephone Service Standards (Ohio Adm. Code 4901:1-5). These safe guards can be found in the appendix to Ohio Adm. Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities".

(C)

A. GENERAL

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. This ACS tariff is applicable to residence customer only, except Caller ID-Basic and Call Trace is applicable to nonresidential customers as well. Customers must be served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange.
4. ACS features will be functional under the following conditions:
 - a. When both the originating customer and the call terminating customer are served by the same central office.
 - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
 - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
 - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

(C)

(C)

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

A. General

1. When customers move to a new location outside the Telephone Company's service territory, the Company provides, without charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.

Telephone Number Referral Service will provide a service to customers whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.

2. The charge applies to each 90-day increment of service that is requested by the customer.

CENTREX SERVICE

A. General

1. Centrex Service is a central office-based, flat rate, business communications service which provides capabilities similar to those offered on Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines in to a single telecommunications system. Centrex is not provided in association with public or semi-public telephone service.
2. All Centrex lines shall be equipped with touch call signaling, but will not be subject to Touchcall rates as set forth in Section 5 of this tariff.
3. The minimum charge for services provided under this tariff shall be one (1) month.
4. Vacation rates for Centrex lines or services are not offered.
5. A Centrex customer must have a minimum of two (2) Centrex lines.
6. Centrex lines are not subject to Local Exchange Service Rates as set forth in Section 4 of this Tariff.
7. Centrex lines are not subject to the Rotary Service (Trunk Hunt) rates as set forth in Section 5 of this Tariff.
8. All station lines will be equipped with the standard system features as set forth in the Company's catalog located at www.tdstelecom.com.
9. Exchange lines terminating at different locations of the customer may be combined into a Centrex Service group arrangement; however, all exchange lines terminating in the group must be served by the same central office.

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, with out charge. Additional listings(s) are offered subject to the provisions set forth in the Company's catalog located at www.tdstelecom.com .
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switched/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company initiated changes during the selected service contract period.

**INTEGRATED SERVICES DIGITAL NETWORK (ISDN) SERVICE
BASIC RATE INTERFACE (BRI)**

ISDN-BRI for nonresidential customers can be found in the Company's catalog located at www.tdstelecom.com

Customers have certain rights and responsibilities under the minimum Telephone Service Standards (Ohio Adm. Code 4901:1-5). These safe guards can be found in the appendix to Ohio Adm. Code 4910:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities".

A. GENERAL

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data, and video services. These functions are provided via channelized transport facilities. The ISDN architecture consists of digital switching systems which connect Basic Rate Interface (BRI) lines to their serving central office. Caller ID - Basic is included with this service.

BRI is an optional service arrangement which can be used in conjunction with a customer's Individual Line Residence service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission, and switching of voice, data, and video services via channelized transport. In addition, BRI provides the customer with access to Circuit Switched Voice (CSV) Service, Circuit Switched Data (CSD) Service, and Packet Switched Data Service.

A BRI arrangement obtains its capabilities from a properly equipped telephone company central office switch. The BRI arrangement may consist of up to two "B" channels and one "D" channel (2B+D).

"B" Channel: The "B" Channel is a bi-directional synchronous channel capable of supporting 64 kilobit per second (kbps) of digital transmission of information between users. The "B" Channel will be configured to offer voice service, data service or voice/data service. One Primary Directory Number is provided with each "B" Channel. One Primary Directory Listing is provided per ISDN-BRI arrangement. Additional listings may be provided as specified for Additional Listing Service in the Directory Listings section of this Company's tariff.

"D" Channel: The "D" Channel is a 16 kbps digital signaling channel that carries signaling and control for the "B" channel and has maximum packet transmission throughput of 9.6 kbps.

All ISDN Service lines consist of central office facilities, including the outside plant facilities, extended from the Company's switching equipment to the customer's demarcation point.

EXHIBIT C

(Summary of Tariff Revisions)

The Oakwood Telephone Company hereby provides notice that the Company is detariffing nonresidential Tier 2 services and toll services per the Commission's 09/19/07 Implementation Order in Case No. 06-1345-TP-ORD. Per this order, the Company is removing all nonresidential Tier 2 services and toll services from its tariff P.U.C.O. No. 8. These services are being added to a Company Catalog that will be available on-line at TDS Telecom's website located at www.tdstelecom.com. Customers were notified of this change via bill inserts in their December bills dated December 7, 2007.

The Company made miscellaneous text and move changes with this filing.

EXHIBIT D

The Applicant intends to comply with Ohio Adm. Code 4901:1-6-05(G)(3) by adding all nonresidential Tier 2 Services and toll services in the form of a “catalog” to the company’s website at www.tdstelecom.com.

EXHIBIT E

(Customer Notice)

The following notices were mailed to customers on **December 4, 2007**

In addition, on **12/05/07** Conneaut forwarded the notices to the following Commission-provided electronic mailbox: Telecomm-Rule16@puc.state.oh.us in accordance with the Entry issued September 19, 2007 in Case No. 06-1345-TP-ORD.
