Re: Docket No. CP07208-000

January 5, 2008

We do not want this pipeline on our farm. There are alternative routes available that will not cause further disturbance of our private property and will not cause huge losses in the future on our investment. This land is our largest asset, biggest investment and financial future. We should not be made to suffer so that Rockies Express can build their pipeline in the easiest, most profitable way. We should not be required to help Rockies Express maximize their profits and convenience at loss to us. There are viable and reasonable alternatives.

Rockies Express came on our land, surveyed, took soil samples and left stakes and flags in our fields and we haven't heard from them since. How can we protest the route they are proposing, by a deadline, if we don't have anything in writing? We just see fluorescent pink flags fluttering in our fields and know that that route is unacceptable.

We want to reiterate; this real estate was purchased as an investment and is our largest and most valuable asset. Our financial future should not be compromised to help secure Rockies Express' financial future. Our convenience and peace of mind should not be compromised to facilitate greater convenience and peace of mind and profit for Rockies Express Pipeline.
