In accordance with the Commission policy of encouraging parties with like interests to consolidate their positions, the above named natural gas suppliers shall jointly present their collective position in the matter at bar under the name of the Ohio Gas Marketers Group. The Ohio Gas Marketers Group shall function as an ad hoc trade association and present positions which represent the consensus of the four named retail gas marketers, though the exact position of each of the members of the Ohio Gas Marketers Group may differ.

MEMORANDUM IN SUPPORT

The criteria for interventions in a Commission proceeding is established in Section 4903.221, Revised Code which provides that the Commission, in ruling upon applications to intervene in its proceedings, shall consider the following criteria:

- (1) The nature and extent of the prospective intervenor's interest;
- (2) The legal position advanced by the prospective intervenor and its probable relation to the merits of the case;
- (3) Whether the intervention by the prospective intervenor will unduly prolong or delay the proceedings; and
- (4) Whether the prospective intervenor will significantly contribute to full development and equitable resolution of the factual issues.

The above statutory criteria is further detailed in the Commission's rule on intervention contained in Rule 4901-1-11(B) of the Ohio Administrative Code provides that the Commission, the Legal Director, or the Attorney Examiner may consider:

- (1) The nature of the person's interest;
- (2) The extent to which the person's interest is represented by the existing parties;
- (3) The person's potential contribution to adjust an expeditious resolution of the issues involved in the proceeding; and
- (4) Whether granting the requested intervention would unduly delay the proceeding or unjustly prejudice any existing party.

Applying the above criteria, each of the members of the Ohio Gas Marketers Group should be entitled to intervention as a full party of record. Each of the members of the Ohio Gas Marketers Group has been certificated by the Commission as a competitive retail natural gas supplier ("CRNS"). Thus, each of the members in its own right have an interest in the matter at bar for proposed replacement will affect Choice marketing in the Vectren Energy Delivery of Ohio ("VEDO") service area. Further, the four members of the Ohio Gas Marketers Group as major natural gas suppliers have interests in participating in the auction process for supplying standard service commodity which makes up a significant portion of the application in

the matter at bar. Thus, each of the members individually have a direct, pecuniary interest which while similar is not identical and thus each member should be awarded intervention so as to protect their interest should the application be amended or changed in a manner that the group could no longer form a consensus opinion. For the sake of establishing a clear record and administrative economy, as long as a consensus opinion can be achieved, the Ohio Gas Marketers shall present the Commission with a single presentation and suggested order. Given the expertise and high level of participation in the current gas market, the intervention of the members of the Ohio Gas Marketers Group will contribute to a just and expeditious resolution of the issues involved in this proceeding and will not unduly delay the proceeding or unjustly prejudice any existing party.

Conclusion

WHEREFORE, the Ohio Gas Marketers Group requests that the Commission grant intervention of Interstate Gas Supply, Inc.; Direct Energy Services LLC; SouthStar Energy Services LLC; and Vectren Retail LLC individually as full parties of record.

Respectfully submitted,
