Re: United Telephone Company of Ohio d/b/a Embarq
Case No. 90-5041-TP-TRF

Dear Ms. Jenkins:

Enclosed for filing are revisions to United Telephone Company of Ohio d/b/a Embarq P.U.C.O. No. 5 General Exchange Tariff. This filing should be processed as a zero day filing, to become effective January 16, 2008.

The following tariff sheets are enclosed:

This filing proposes to grandfather various Solutions – Residence packages and various residential and business ExpressTouch feature packages. Customers were notified of this change in accordance with 4901:1-6-17 of the Administrative Code. A copy of the notice is attached as Exhibit C with the supporting affidavit. In addition, text changes are being made to clarify and standardize the formal name of the Enhanced Call Waiting feature. References to “call waiting” that are not being revised under this filing speak generally to that particular functionality rather than to the feature name itself.

This filing also includes text changes for certain bundles to reflect the inclusion of Anonymous Call Rejection (ACR) in all packages that include Caller ID. ACR is inherent in the Caller ID feature. However, certain packages previously reflected ACR as a component of the package while ACR was not referenced in other packages. This filing standardizes the reference to ACR for each package by better describing ACR as a component of the package due to its inclusion in the Caller ID feature.

If you have any questions regarding this filing, please call Gary Baki at 614-220-8629.

Sincerely,

/s/ Glenda L. Munson

AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, Embarq Communications, Inc., and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

CUSTOM CALLING SERVICE

I. GENERAL DESCRIPTION (Continued)

A. Call Forward Features (Continued)

2. Call Forward No Answer

This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone remains unanswered for a predetermined number of rings, usually four or five.

Where facilities are available, this feature also includes Call Forwarding of Call Waiting when the customer is also subscribed to Call Waiting or Enhanced Call Waiting. Call Forwarding of Call Waiting forwards unanswered waiting calls to a customer-designated telephone number using Call Waiting and Call Forward No Answer. An incoming call to a busy line first receives a Call Waiting tone. If the call is not answered within a set period of time, the incoming call is forwarded to a customer-designated telephone number.

- a. Call Forward No Answer-Fixed (FCD1FLC) - This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.
- b. Call Forward No Answer-Customer Programmable (FCD1FLC PRG) - Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.

CUSTOM CALLING SERVICE

I. GENERAL DESCRIPTION (Continued)

G. SignalRing Plus

SignalRing Plus - This arrangement enables an individual line customer to identify an incoming call by having up to three (3) additional directory numbers (Secondary Directory Number) assigned to their main access line (Primary Directory Number). Each Secondary Directory Number is assigned a distinctive ring in order to determine which number or person is being called. SignalRing Plus is associated with incoming calls only and does not provide a separate dial tone line to place outgoing calls.

If any customer requests a Secondary Directory Number as a business listing, the Primary Directory Number must be a business access line. Each Secondary Directory Number is entitled to one directory listing. Should the customer not desire the listing be published, the Telephone Company, in its directory listing process, shall designate the Secondary Directory Number as a No Charge Non-Pub. The customer would not be charged the Non-Pub recurring monthly charge as shown in Section 4. Non-List Service is not available for Secondary Directory Numbers.

Any Custom Calling Features assigned to the Primary Directory Number will also work with the Secondary Directory Numbers, i.e., Call Waiting, Call Forwarding, Call Forwarding Busy, Call Forwarding No Answer.

H. Subscriber Activated Call Block

Subscriber Activated Call Block restricts access to certain types of outgoing calls, such as direct-dialed toll calls. Other types of calls, such as local, calls to 9-1-1, or calls to the operator can still be originated from the line. The subscriber dials an access code to activate the feature. While Subscriber Activated Call Block is in effect, the individual subscriber can override the restrictions by dialing a personal identification number (issued by the Telephone Company) before placing a call. Another code is used to deactivate Subscriber Activated Call Block.

CUSTOM CALLING SERVICE

(M)

I. GENERAL DESCRIPTION (Continued)

I. Call Forwarding of Call Waiting

Call forwarding of Call Waiting, by combining Call Waiting with Call Forwarding - No Answer, provides the capability to forward unanswered waiting calls to a predetermined telephone number. An incoming call to a busy line first receives standard Call Waiting treatment in which an audible tone is heard by the called party and audible ringing is heard by the calling party. If the call is not answered after a predetermined number of rings, the incoming call is forwarded to a subscriber designated number. Only one call at a time will be forwarded; others will receive a busy tone.

J. Call Hold

Call hold allows the subscriber to place a call on hold, and then continue the conversation either from the same telephone set or from a more convenient location. Call Hold is activated by flashing the switchhook, dialing an access code, and then hanging up. The call is resumed when the handset of the same telephone, or another telephone on the same line, is picked up.

K. Wake-up

Wake-up service allows a subscriber to program from a telephone the time to be called by an automated wake-up service. The feature is activated and deactivated by an access code. When the feature is activated, the subscriber may program one "ring back" time within the succeeding 24-hour period, and must repeat this activation sequence for each succeeding 24-hour period. If a wake-up call is not answered or fails for any reason, two more attempts are made at approximately 5-minute intervals. After the third attempt is made, and the call is unanswered, the event is recorded and no further attempt is made.

CUSTOM CALLING SERVICE

II. REGULATIONS

- A. The service is offered from only those central offices where the Telephone Company has arranged the equipment for "custom calling" and is furnished subject to the availability of facilities. In certain offices where equipment arrangements permit, all the calling features listed in I may be offered; in other offices equipment may not be available to offer all the features described in paragraph I, A-L.
- B. Custom calling service will be furnished only with individual line service. The service is not available with Centrex, private branch exchange ISDN-BRI II, ISDN-PRI or payphone line services. Custom calling features are available with either dial or touch-tone service.
- C. The normal quality of transmission may not be maintained on all calls for subscribers of these services.
- D. Call Forwarding (standard or fixed) and warm line service cannot be provided on the same line and cannot be provided on trunks. It is the responsibility of the warm line subscriber to inform the party to whom calls will be sent of this arrangement, and that party must consent to the arrangement. The Telephone Company assumes no liability for the use of the warm line service except for which the service is intended under the provisions described in this tariff section.
- E. Call Forwarding and Fixed Call Forwarding cannot be provided on the same line.
- F. Call Forwarding (standard or fixed) and personal alert line service cannot be forwarded to 911 or to other emergency service providers except for official providers of emergency service.
- G. Call Forwarding of Call Waiting will only be offered as a package with Call Waiting and Call Forward - No Answer.
- H. Pay Per Use

Certain custom calling features, in addition to the monthly rate option, are also available on an optional pay per use basis. This pay per use (per attempt) option is available only to subscribers not subscribing to the features on a monthly basis. The customer will be charged for each attempt to activate the service, unless the central office is not properly equipped.

Pay per use is available only to individual residence and business subscribers from suitably-equipped central offices.

At the request of a customer that does not subscribe to the feature on a monthly basis, access to the feature on a pay per use basis will be blocked, at no charge to the customer.

SPECIAL PACKAGED OFFERINGS

I. SOLUTIONS - RESIDENCE

A. General

Solutions is an optional residence service enrollment plan. The Plan permits a customer to receive features and services for a flat monthly rate, for **each Solutions** Package residence line **provided**. **Solutions** includes two or more of the following features and services:

1. Flat Rate Local Exchange Service;
2. Either a 60 minute block of time for local toll (IntraLATA Direct Distance Dialed (DDD)), with United Local Toll Service rates applicable for each additional minute; or the option of subscribing to United Local Toll Service with per minute of use rates applicable as specified in P.U.C.O. No. 1 Message Toll Telephone Service Tariff Section XII.D; and
3. An ExpressTouch Service Package, an individual feature or a group of Custom Calling/ExpressTouch Features. Custom Calling features are described in Section **21** and ExpressTouch Packages are described in Section **35** of this tariff.

B. Regulations

Solutions customers may terminate their enrollment in this Plan at any time upon notice to the Company.

Unless terminated by **the Solutions** customer or the Company, a customer will remain enrolled in this Plan, as amended from time-to-time, with any applicable changes in rate, for as long as this Plan continues to be offered by the Company.

The Plan is not available with Residential ISDN-BRI Service lines or to customers who are or become toll restricted.

No more than four (4) residence lines can be enrolled with **the Solutions** option for each customer Billed Telephone Number account.

Service Connection Charges do not apply **when Solutions** replaces existing Local Exchange Service or if the customer requests a change **from Solutions** back to regulated Local Exchange Service. The Residence Flat Rate Local Exchange Service Connection Charges as specified in Section 4 of this tariff apply for new and **additional Solutions** lines and moves of **existing Solutions** lines.

II. SOLUTIONS - BUSINESS

A. General

Solutions is an optional business service enrollment plan. This Plan permits a customer to receive the following features and services for a flat monthly rate, for each Solutions Package business line provided. Solutions includes the following features and services:

1. Flat Rate Individual Line Business Service (Local Exchange Service);
2. Either a 60 minute block of time for local toll (IntraLATA Direct Distance Dialed (DDD)), with United Business Local Toll Service rates applicable for each additional minute; or the option of subscribing to United Business Local Toll Service with per minute of use rates applicable as specified in P.U.C.O. No. 1 Message Toll Telephone Service Tariff Section XIII.D; and
3. ExpressTouch Services Package Essentials or Classics Calling Package; Call Waiting; or a group of Custom Calling Features consisting of Call Waiting, Three Way Calling, Call Forwarding, Call Forwarding No Answer, and Call Forwarding Busy. ExpressTouch Packages are described in Section 35.III.G of this tariff.

(T)

B. Regulations

Solutions customers may terminate their enrollment in this Plan at any time upon notice to the Company.

Unless terminated by the Solutions customer or the Company, a customer will remain enrolled in this Plan, as amended from time-to-time, with any applicable changes in rate, for as long as this Plan continues to be offered by the Company.

The Plan is not available with Business ISDN-BRI Service lines, Payphone Line Service or to customers who are or become toll restricted. The Plan can not terminate to a Key System, PBX, any other line trunking device.

No more than nine (9) business lines can be enrolled with the Solutions option for each customer location, except for Complete Business Bundle, which is limited to three lines per customer location.

Service Connection Charges do not apply when Solutions replaces existing Local Exchange Service or if the customer requests a change from Solutions back to regulated Local Exchange Service. The Business Flat Rate Local Exchange Service Connection Charges as specified in Section 4 of this tariff apply for new and additional Solutions lines and moves of existing Solutions lines.

CUSTOM CALLING SERVICE

I. GENERAL DESCRIPTION (Continued)

A. Call Forward Features (Continued)

2. Call Forward No Answer

This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone remains unanswered for a predetermined number of rings, usually four or five.

Where facilities are available, this feature also includes Call Forwarding of Call Waiting when the customer is also subscribed to **Enhanced** Call Waiting. Call Forwarding of Call Waiting forwards unanswered waiting calls to a customer-designated telephone number using **Enhanced** Call Waiting and Call Forward No Answer. An incoming call to a busy line first receives a Call Waiting tone. If the call is not answered within a set period of time, the incoming call is forwarded to a customer-designated telephone number. (T)

- a. Call Forward No Answer-Fixed (FCD1FLC) - This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order. (T)
- b. Call Forward No Answer-Customer Programmable (FCD1FLC PRG) - Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.

CUSTOM CALLING SERVICE

I. GENERAL DESCRIPTION (Continued)

G. SignalRing Plus

SignalRing Plus - This arrangement enables an individual line customer to identify an incoming call by having up to three (3) additional directory numbers (Secondary Directory Number) assigned to their main access line (Primary Directory Number). Each Secondary Directory Number is assigned a distinctive ring in order to determine which number or person is being called. SignalRing Plus is associated with incoming calls only and does not provide a separate dial tone line to place outgoing calls.

If any customer requests a Secondary Directory Number as a business listing, the Primary Directory Number must be a business access line. Each Secondary Directory Number is entitled to one directory listing. Should the customer not desire the listing be published, the Telephone Company, in its directory listing process, shall designate the Secondary Directory Number as a No Charge Non-Pub. The customer would not be charged the Non-Pub recurring monthly charge as shown in Section 4. Non-List Service is not available for Secondary Directory Numbers.

Any Custom Calling Features assigned to the Primary Directory Number will also work with the Secondary Directory Numbers, i.e., **Enhanced** Call Waiting, Call Forwarding, Call Forwarding Busy, Call Forwarding No Answer.

H. Subscriber Activated Call Block

Subscriber Activated Call Block restricts access to certain types of outgoing calls, such as direct-dialed toll calls. Other types of calls, such as local, calls to 9-1-1, or calls to the operator can still be originated from the line. The subscriber dials an access code to activate the feature. While Subscriber Activated Call Block is in effect, the individual subscriber can override the restrictions by dialing a personal identification number (issued by the Telephone Company) before placing a call. Another code is used to deactivate Subscriber Activated Call Block.

CUSTOM CALLING SERVICE

I. GENERAL DESCRIPTION (Continued)

I. Call Forwarding of Call Waiting

Call forwarding of Call Waiting, by combining **Enhanced** Call Waiting with Call Forwarding - No Answer, provides the capability to forward unanswered waiting calls to a predetermined telephone number. An incoming call to a busy line first receives standard Call Waiting treatment in which an audible tone is heard by the called party and audible ringing is heard by the calling party. If the call is not answered after a predetermined number of rings, the incoming call is forwarded to a subscriber designated number. Only one call at a time will be forwarded; others will receive a busy tone.

(T)

J. Call Hold

Call hold allows the subscriber to place a call on hold, and then continue the conversation either from the same telephone set or from a more convenient location. Call Hold is activated by flashing the switchhook, dialing an access code, and then hanging up. The call is resumed when the handset of the same telephone, or another telephone on the same line, is picked up.

K. Wake-up

Wake-up service allows a subscriber to program from a telephone the time to be called by an automated wake-up service. The feature is activated and deactivated by an access code. When the feature is activated, the subscriber may program one "ring back" time within the succeeding 24-hour period, and must repeat this activation sequence for each succeeding 24-hour period. If a wake-up call is not answered or fails for any reason, two more attempts are made at approximately 5-minute intervals. After the third attempt is made, and the call is unanswered, the event is recorded and no further attempt is made.

CUSTOM CALLING SERVICE

II. REGULATIONS

- A. The service is offered from only those central offices where the Telephone Company has arranged the equipment for "custom calling" and is furnished subject to the availability of facilities. In certain offices where equipment arrangements permit, all the calling features listed in I may be offered; in other offices equipment may not be available to offer all the features described in paragraph I, A-L.
- B. Custom calling service will be furnished only with individual line service. The service is not available with Centrex, private branch exchange ISDN-BRI II, ISDN-PRI or payphone line services. Custom calling features are available with either dial or touch-tone service.
- C. The normal quality of transmission may not be maintained on all calls for subscribers of these services.
- D. Call Forwarding (standard or fixed) and warm line service cannot be provided on the same line and cannot be provided on trunks. It is the responsibility of the warm line subscriber to inform the party to whom calls will be sent of this arrangement, and that party must consent to the arrangement. The Telephone Company assumes no liability for the use of the warm line service except for which the service is intended under the provisions described in this tariff section.
- E. Call Forwarding and Fixed Call Forwarding cannot be provided on the same line.
- F. Call Forwarding (standard or fixed) and personal alert line service cannot be forwarded to 911 or to other emergency service providers except for official providers of emergency service.
- G. Call Forwarding of Call Waiting will only be offered as a package with **Enhanced** Call Waiting and Call Forward - No Answer. (T)
- H. Pay Per Use

Certain custom calling features, in addition to the monthly rate option, are also available on an optional pay per use basis. This pay per use (per attempt) option is available only to subscribers not subscribing to the features on a monthly basis. The customer will be charged for each attempt to activate the service, unless the central office is not properly equipped.

Pay per use is available only to individual residence and business subscribers from suitably-equipped central offices.

At the request of a customer that does not subscribe to the feature on a monthly basis, access to the feature on a pay per use basis will be blocked, at no charge to the customer.
