Please provide comments on the Draft Environmental Impact Statement (EIS). Please provide any edits, changes, or additions for the Final EIS. Please be as specific as possible in referencing the Draft EIS.

After reading your Study on the Environmental impact the pipe line would have on ground water, soil erosion, wildlife destruction, my concern was with the destruction of my winter ground on which I have my hay farm. Constructing this pipeline in a 75 ft wide area why are allowing them a extra 100-125 foot variance to build the pipeline that your destroy more timber and your study says it takes about 30 yrs for it to re-establish itself if allowed to regenerate and the soil in the field takes several years to be back to productivity and the pipe line people only want responsibility for year of
