Please provide comments on the Draft Environmental Impact Statement (EIS). Please provide any edits, changes, or additions for the Final EIS. Please be as specific as possible in referencing the Draft EIS.

Reference to FERC/EIS-0217D Page 3-22

Costello comments Table 3.5-1 clarified.

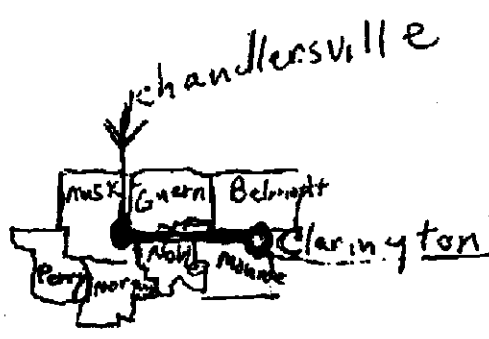

The southerly route suggested is to separate the gasline (REX) from the Electric Powerline and the under ground mines here in Guernsey Co.

The land of Ohio Power east of Chandlersville, oh has been striped mined (1950's-1990's) No one lives there for miles and miles. The mentioned trees are only 30-40 yrs old (much of the land is planted only with grass).

This southerly route is also shorter to Clarington.

Please re route away from this High Power electric line.

Sincerely Carol Costello
