Single Party, 4 th or more Lines, each	\$24.65	N/A	

^{2/} Includes charge for Rotary and Trunk Hunt Service which provides for incoming calls to be directed to the next available [sequentially number (2)] line or trunk when previous trunk(s) in the trunk group are busy.

^{3/} Includes Touch-Call Service. Effective August 6, 2007, the rates for Residential and Business customers who do not have Touch-Call Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Touch Call Service

* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-846 TP-ALT effective 09/10/07.

LOCAL EXCHANGE SERVICE

CENTREX SERVICE

APPROVED

A. General

1. Centrex Service is a central office-based, flat rate, business communications service which provides capabilities similar to those offered on Private Branch Exchange, but without requiring switching equipment on the customer's premises. Centrex integrates all of a business customer's lines in to a single telecommunications system. Centrex is not provided in association with public or semi-public telephone service.
2. All Centrex lines shall be equipped with touch call signaling, but will not be subject to Touchcall rates as set forth in Section 5 of this tariff.
3. The minimum charge for services provided under this tariff shall be one (1) month.
4. Vacation rates for Centrex lines or services are not offered.
5. A Centrex customer must have a minimum of two (2) Centrex lines.
6. Centrex lines are not subject to Local Exchange Service Rates as set forth in Section 4 of this Tariff.
7. Centrex lines are not subject to the Rotary Service (Trunk Hunt) rates as set forth in Section 5 of this Tariff.
8. All station lines will be equipped with the standard system features as set forth in B.1.
9. Exchange lines terminating at different locations of the customer may be combined into a Centrex Service group arrangement; however, all exchange lines terminating in the group must be served by the same central office.

B. SYSTEM SERVICES

1. Standard Features Provided Per Line:

a. Call Hold

Allows a station user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.

b. Call Pick-up

Allows a station user to answer incoming calls to another station within a defined call pick-up group by dialing a code.

c. Call Transfer

Allows a station user to hold and transfer incoming, outgoing, and intragroup calls to another station by flashing the switchhook and dialing the transfer-to number.

d. Intercom Dialing

Allows a station user to call other stations within their Centrex groups by dialing abbreviated codes.

e. Station-To-Station Dialing

Allows Centrex to operate like a PABX/PBX with station-to-station dialing, and required "9" access to place outside calls.

f. Direct Inward Dialing

Allows a station user to directly receive incoming calls without the assistance of an attendant.

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

g. Direct Outward Dialing

Enables a station user to call outside the Centrex group directly without the assistance of an attendant.

h. Business Group Automatic Identified Outward Dialing

Provides identification of the calling line or the Centrex Group billing/pilot number on billable calls directed to the public network.

i. 3-Way Calling

Allows a station user to add a third party to an existing call, and thus enables a simultaneous conference between parties at multiple locations.

j. Group Speed Dial 30

Allows the Centrex Group to establish a 30-number speed call list. It is group assignable and accessed by line. Group Speed Call can be accessed by anyone in the group.

k. Call Forwarding - Busy Line

Causes all calls to be redirected to an alternate station when the called station is busy.

l. Call Forwarding - No Answer

Allows all calls that terminate to a user's station to be redirected to an alternate station after a predetermined number of rings.

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

m. Regular Hunting

Is performed in a sequential fashion across all members of Multiline Group. The search for an idle station starts with the pilot number. If the first station is busy, the group is sequentially hunted until an idle station is found. If there are no idle stations available, the caller receives a busy signal.

n. Distinctive Ringing/Call Waiting Indication

Allows ringing patterns and tones to be used to distinguish between calls coming from inside the Business Group and calls coming from outside the Group. For example, with the Distinctive Call Waiting capability, one (1) Call Waiting tone would indicate that the waiting call is from inside the Business Group, while two (2) tones would indicate that the call is coming in on an outside line.

o. Semi-Restricted Line

Prevents the line from making calls to and/or receiving calls from stations outside the Centrex group. It may, however, make and/or receive outside calls indirectly via the attendant, Call Forwarding, Call Transfer, and Call Pickup features.

p. Full Restricted Line

Prevents the line from making calls to and/or receiving calls from stations outside the Centrex group. It is also prevented from making calls to and/or receiving calls from the attendant, thereby denying it indirect access to/from outside the Centrex group.

B. SYSTEM SERVICES (Continued)

1. Standard Features Provided Per Line: (Continued)

g. Toll Restriction

Blocks the completion of calls that are directed to the outside operator or to numbers outside the local calling area. A Toll Restriction list may be assigned to either an individual line or shared by multiple lines.

2. Optional Features Available Per Line:

a. Call Forward Variable -- All Calls

Allows a station user to have all incoming calls to a directory number. Activation, deactivation and the forward-to destination are controlled by the station user.

b. Call Waiting/Cancel Call Waiting

Provides a burst of tone to inform a station user with a call already in progress that another call is waiting to be answered. The station user may answer the waiting call by hanging up or flashing the switchhook.

The customer also has the option, when initiating a call from the their line, not to be interrupted by the call waiting tone signal for the duration of that call. The calling party would receive a tone.

c. Voice-Data Protection

Allows a station user to inhibit intrusion features, such as Call Waiting and Operator Verification, which are directed to that line when it is busy.

B. SYSTEM SERVICES (Continued)

2. Optional Features Selected Per Line: (Continued)

d. Speed Calling 8-Code

Enables a station user to call a list of up to 8 preselected directory numbers by dialing one-digit codes instead of the directory numbers.

e. Speed Calling 30-Code

Enables a station user to call a list of up to 30 preselected directory numbers by dialing one-digit codes instead of the directory numbers.

f. Direct Connect Service

Allows a station user to automatically place a call to a preselected directory number by lifting the receiver off the switchhook. No dialing is required for the calling party to reach the specified destination.

g. Warm Line

Provides a time-out option with either Direct Connect Service or Manual Line Service. The time-out interval may be set at 1 to 14 seconds. During the time-out interval, a station user will receive normal dial tone and can originate calls. However, after the time-out interval expires, a call is automatically set up and routed to the specified destination.

B. SYSTEM SERVICES (Continued)

3. Optional Features Available Per Group:

The following services are selected for use by the entire Centrex Group:

a. Intercept Announcements

Allows a special intercept recording to which members of the business Group are routed when they dial invalid and/or restricted codes.

b. Access Restrictions

Allows specific restrictions that are optionally imposed on the members of the Business Group, such as limited authorized access to WATS lines or limited access to the public telephone network.

c. Paging Access

Allows selected stations to have dial access to customer-provided loudspeaker paging equipment. A line or a tie-trunk is required to support the customer's paging equipment.

d. OutWATS Access

A form of Direct Distance Dialing service that allows a station user to place long distance calls to specified geographical areas at reduced rates. Each OutWATS call is screened to ensure that the call destination is within the band limits of the OutWATS station user.

C. CONDITIONS

1. The Company will furnish one (1) alphabetical directory listing for each Centrex summary account, with out charge. Additional listings(s) are offered subject to the provisions set forth in Section 5, Sheet 4 of this Tariff.
2. The rates and charges shown for Centrex Service apply to the establishment of Centrex Service only. Other services may be furnished at the rates and charges set forth in the Tariffs of the Company.
3. Centrex lines that terminate in key system common equipment or other CPE that performs pooling or switching functions must be provided in a "squared" arrangement in order to retain Centrex tariff rates. A "squared" arrangement is one in which the number of Centrex lines equals the number of stations/lines served by the key system common equipment or the CPE switched/pooling equipment. If the number of stations served by the key system common equipment or the CPE switching/pooling equipment exceeds the number of Centrex lines, the Centrex lines will be rated at the appropriate Key Trunk, or PBX Trunks rate as found in Tariff M.P.S.C. No. 1 of this Tariff.
4. The business customer may choose to pay for the service on a month-to-month basis or under a service contract plan for the periods of 12, 24, 36, 48, or 60 months. A month-to-month business customer may, at any time, convert to a service contract plan by paying the applicable service period plan rate currently in effect.
5. The monthly rate for customers choosing the service period plan is guaranteed against Telephone Company initiated changes during the selected service contract period.

A. General

1. Total Talk Pack is an optional service package. The package permits a customer to receive services and features for a flat monthly rate, for each Total Talk Pack subscriber line provided. Total Talk Pack includes the following services:¹
 - a. Residential or Business One-Party Line (includes Touch Tone capability) (C)
 - b. Three-Way Calling & Call Waiting (Custom Calling Services)
 - c. Caller ID Deluxe, Anonymous Call Rejection, & Priority Ringing (Advanced Calling Services)
 - d. Inside Wire Protection Plan (deregulated service)

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this bundle.
2. Total Talk Pack customers may terminate their enrollment in the Plan at any time upon notice to the company.
3. Unless terminated by the Total Talk Pack customer or the Company, a customer will remain enrolled in the Plan, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges, as described in Section 6 of this tariff, apply to requests for new and additional Total Talk Pack lines, and moves of existing lines. Service Charges will not apply when the Total Talk Pack replaces existing Local Exchange Service or if the customer requests a change from the Total Talk Pack back to Local Exchange Service.
5. Total Talk Pack customers are not eligible for discounts or promotional offerings (outside of this bundle) associated with the Custom Calling and Advanced Calling Services included in the Plan, unless specifically provided for in a promotional offering.

900 SERVICES CALL BLOCKING

A. General

900 Services Call Blocking is an optional service providing residential and nonresidential subscribers with the capability to block the origination of direct dialed calls to all 900 services.

B. Regulations

- a. Call blocking of 900 services is provided where Telephone Company facilities permit.
- b. 900 services blocking is provided to residential customers at no charge for initial requests.
- c. 900 services blocking is to be provided to nonresidential customers free of charge, on a one-time basis, during a 60-day period after the inception of service.
- d. Charges associated with nonresidential customers' initial requests (after the sixty-day free enrollment period has expired) and subsequent requests, and residential customers' subsequent requests, for 900 services blocking will not exceed the company's service order charge.
- e. Residential customers obtaining service at a new location shall be afforded blocking of 900 services at no charge, even if they exercised an option to block services at a previous location at no charge.
- f. Nonresidential customers obtaining service at a new location shall be afforded blocking of 900 services at no charge during a 60-day period after the inception of service, even if they exercised an option to block 900 services at a previous location at no charge.
- g. Customers may elect to remove 900 services blocking free of charge. Requests by customers to remove 900 services blocking must be in writing.

SPECIAL SERVICE AND FACILITIES

APPROVED

A. General

Special service and facilities, not ordinarily used in furnishing of telephone service and not otherwise mentioned in, provided for or contemplated by the tariff schedules of the Telephone Company, may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, not to exceed one year, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Telephone Company. In the event of any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Telephone Company, the Telephone Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber, and provided further that the Commission may terminate such contract wherever, in its opinion, public interest requires such termination.

PER CALL BLOCKING/PER LINE BLOCKING

A. GENERAL

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. **Per Call Blocking**
Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing *67 (1167 from a rotary phone) before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. **Per Line Blocking**
Enables customers to prevent the disclosure of their telephone number or name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

ADVANCED CALLING SERVICES

A. GENERAL

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. ACS is available to residence and business customers served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange.
4. ACS features will be functional under the following conditions:
 - a. When both the originating customer and the call terminating customer are served by the same central office.
 - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
 - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
 - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
5. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
6. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
7. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
8. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
9. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
10. DID numbers will be sold in conjunction with DID service only.
11. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

DEDICATED DS1 SERVICE

APPROVED

(N)

A. General

Dedicated DS1 Service is a point-to-point intraexchange service that provides for simultaneous two-way transmission at 1.544 Megabits per second (Mbps). This service only transmits digital signals and uses only digital transmission facilities. Dedicated DS1 service and its features are offered subject to the availability of central office equipment and appropriate outside plant facilities. This service is specifically designed for customers that require dedicated DS1 facilities from a TDS TELECOM Central Office to their location.

B. Definitions

Clear Channel Capability - An optional feature of DTS that allows a customer to transport 1.536 Mbps on a 1.544 Mbps line with no constraint on quantity or bit sequence.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

Digital Local Channel - A transmission path for Dedicated DS1 Service furnished from the Central Office to the demarcation point on the customer's premises.

C. Regulations

1. Dedicated DS1 Service is available for a minimum service period of one month.
2. Dedicated DS1 Service is available on a month-to-month basis or under variable rate periods, with rates based on lengths of 12 months, 36 months and 60 months.
3. Rates for Dedicated DS1 under contract will not be increased by Company initiative until the contract period expires. Rates in effect at the time the service is installed will be applicable until the contract expires. Upon expiration of the customer's current payment period option, the customer may select a new payment period option at current rates or revert to current rates on a month-to-month basis.

5. If the service is canceled by the customer prior to the completion of the service period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. Termination charges will not apply, however, if the customer replaces the service with comparable service and a contract length that is equal to or greater than the original contract period.
6. The rates listed in Paragraph D., following, assume the provision of a digital quality facility that uses existing exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for Dedicated DS1 Service.
7. The two types of non-recurring charges associated with Dedicated DS1 Service include a Design Order Charge and an Installation Charge. The Design Order Charge applies once per order while the Installation Charge will apply for each Digital Local Channel Installed.
8. The Installation Charge and Design Order Charge will not apply for the establishment of Dedicated DS1 Service when the customer signs an agreement to subscribe to the service for a minimum of 3 years. If the customer discontinues service prior to the conclusion of the 3 year agreement, the customer will incur a disconnection charge equal to the Design Order Charge and applicable Installation Charges. DIGITAL TRANSPORT SERVICE

APPROVED

A. General

Digital Transport Service (DTS) provides customers with a cost effective option to deliver voice grade service from the serving Central Office to a customer's premises. DTS is only provided with a DS1 Channel (1.544 Mbps) as provisioned in the Local Private Line tariff. DTS supports Direct Inward Dialing (DID) Service, Dedicated 800 Service, and Local Exchange Business Trunks. The primary users of this service include Internet Service Providers and owners of PBX Systems.

B. Definitions

DS0 - One voice grade circuit. This circuit generally has a 64 Kbps transmission speed.

DS1 - Digital facility that is equivalent to 24 DS0s. Total transmission speed is 1.544 Mbps.

C. Regulations

1. DTS is subject to the availability of central office equipment and appropriate outside plant facilities.
2. The rate structure for DTS requires charges for Trunk Terminations, DS1 facility, Digital Interface Termination and Subscriber Line Charges (SLC).
3. The Digital Interface Termination rate is available on a month to month basis or under variable rate periods with rates based on lengths of 12 months, 36 months and 60 months.
4. The total number of Trunk Terminations activated by the customer may not exceed the capacity of each DS1 facility.
5. Additional charges for Central Office services and features, such as telephone numbers associated with Direct Inward Dialing (DID) Service, are applicable when appropriate, as specified elsewhere in this tariff.

C. Regulations (Continued)

6. Calls will be subject to any applicable usage charges for services provisioned on the DTS channels. Message Telecommunications charges will apply to calls outside the Local Service Area. (T)
7. Touch-tone signaling is required for DTS. (T)
8. Unless specifically exempted, DTS is subject to all general regulations applicable to the provision of service by the Company as stated in the general tariff. (T)
9. As a result of any interface or technical changes required of the Company due to the possible future adoption of FCC rules under Part 68, the Company shall not be responsible if changes in any of the equipment, operations or procedures of the Company utilized in the provision of DTS render any customer premises equipment provided by a customer obsolete or require modification or alteration of such equipment or systems or otherwise affect its use or performance. MISCELLANEOUS SERVICE ARRANGEMENTS

CUSTOM CALLING SERVICE

APPROVED

A. GENERAL

1. Custom Calling Features are offered where facilities permit and capacity is available in the serving central office.
2. The service is available on individual line, business and residence exchange services, excluding Paystation Service (except for the business line extension), Private Branch Exchange, Trunk Line Service, or Centrex Service.
3. The Company will provide the customer with proper dialing instructions to operate all Custom Calling Services at the time service is furnished.

B. SERVICE DESCRIPTIONS

1. **Call Forwarding**
This service redirects incoming calls to another telephone number. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. When activated, all calls that are forwarded when the line is idle cause a short ring on the forwarded line as a reminder that the service is active. To deactivate Call Forward, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
2. **Call Forwarding-Busy (Customer Programmable)**
This service routes incoming calls to another telephone number when the customer's dedicated number is busy. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - Busy, a customer must dial a special access code. All calls forwarded with this service are subject to transmission limitations and all applicable local and long distance charges.
3. **Call Forward-No Answer (Customer Programmable)**
This service redirects incoming calls not answered after a predetermined number of rings to another telephone number. The number of rings is determined and set by the Company unless otherwise specified by the customer. The customer can activate this service by dialing a code and entering the number to which calls should be forwarded. To deactivate Call Forward - No Answer, a customer must dial a special access code. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
4. **Call Forwarding-Remote Access**
This service is an additive to the Call Forwarding service and allows the customer to activate and deactivate Call Forwarding from a telephone in another location. All calls forwarded are subject to transmission limitations and all applicable local and long distance charges.
